Replacement of Golf Cars for Ledges Golf Course

Budgeted item	Yes		
Special request	No		
Staff contact	Vaughn Stamm/ Tyler Knapp	Phone	877-6100

Background Information:

This item is a replacement of 50 golf cars for Ledges Golf Course. The current fleet is approximately ten years old and are in need of replacement. \$165,000 was allocated for golf cars at Ledges Golf Course in the 2020 Capital Budget. Additionally, 40 used carts are being offered for trade-in in order to help offset the new purchase price and where an additional 10 of the used fleet are being retained in order to provide for events and outings where additional carts have been needed and were rented and or transported from another course in the past. This will better facilitate staff being able to more smoothly facilitate large events or outings or even multiple events and different courses on the same day.

Three bids were opened on February 6th, with only one (1) bid meeting or exceeding the required equipment specifications. Staff is recommending the purchase of fifty (50) Yamaha Drive 2 EFI Golf Cars from Harris Golf Cars, Inc., because they meet and or exceed the minimum required bid specification and fall within the original budgeted amount in the 2020 Capital Equipment Budget.

Staff recommends awarding the purchase of fifty (50) Yamaha Drive 2 EFI Golf Cars to Harris Golf Cars, Inc. in the amount of \$156,100, which includes the trade in allowance of forty (40) old golf cars. The individual unit price is \$4,682 (x 50 new cars) and the trade-in allowance is \$1,950 (x 40 old cars). There are sufficient funds are available in the 2020 Capital Equipment Budget for this purchase.
