FINANCE COMMITTEE

Ordinance Executive Summary

Prepared By: Tom Hodges

Committee: Finance

Committee Date: 09/02/2021

Ordinance Title: Ordinance to Opt-out of Preferential Assessment for Affordable Rental Housing Construction and Rehabilitation Pursuant to Property Tax Code, 35 ILCS 200/15-178

County Code:

Finance Committee Date: 09/02/2021

Board Meeting Date: 09/09/2021

Budget Information:

Was item budgeted? N/A	Appropriation Amount: N/A
If not, explain funding source:	
ORG/OBJ/Project Code: N/A	Budget Impact: N/A

Background Information: Public Act 102-0175 amends the Illinois Property Tax Code to create two types of Preferential Assessments for the new construction or rehabilitation of low income rental properties which have seven or more units. This bill was created specifically for Cook County while allowing other counties to opt-out through a majority vote by their respective County Board. Counties which do initially opt-out may subsequently opt back in at a later date if they so choose.

Recommendation: It is the recommendation of the Winnebago County Supervisor of Assessments that Winnebago County opt-out of the provisions of 35 ILCS 200/15-178 for the following reasons:

- This bill was clearly written for Cook County (Cook County is repeatedly mentioned by name in the text) and by opting out, the County Board retains control of incentivizing new development at the local level instead of being required to defer to state law. By design, the County may opt back in at a later date if it so chooses.
- Any reduction in taxable value to one property results in a corresponding increase in property taxes for other properties within that jurisdiction.
- County Assessor's offices throughout the state, including Winnebago County are not currently constructed to administer this program and are unable to readily absorb the significant costs that may be involved.

Legal Review: The Chief of the Civil Bureau for the Winnebago County State's Attorney's office, Lafakeria Vaughn, reviewed and revised the proposed ordinance on 08/26/2021.

Purpose of the Applicable Services

The Applicable Services are intended to assist Customer and other health care providers with a myriad of challenges that exist in today’s changing healthcare environment. Through its provision of the Applicable Services, PointClickCare is intent on empowering providers to: improve care quality and outcomes; reduce risks, costs, avoidable readmissions and time spent building care plans; ensure seamless transitions between different levels of care; strengthen continuity of care and care coordination; exchange information and insights to collaborate with practitioners along the continuum of care; build strong Preferred Provider Networks (groups of long-term post-acute care [**“LTPAC”**] providers ¹ deemed by an acute care provider to be primary destinations for referrals, also referred to as **“PPNs”**); and, increase financial outcomes by improving providers’ reputations.

The Applicable Services for which Customer can subscribe include, but are not limited to:

- (i) Clinical Data Exchange (“**CDX**”) – The CDX platform bridges gaps in care by providing hospitals and other risk-bearing entities the ability to coordinate care with their LTPAC providers and/or home health agencies through a range of interoperability tools. The solution supports effective clinical decision making across the care continuum by providing bi-directional exchange of clinical data to facilitate optimal transitions of care, locate patients, provide access to key information during a patient’s episode and identify how best to partner with LTPAC facilities and home health agencies (as applicable) in their provision of care while reducing errors and redundancies.
- (ii) Market Insights ² – The Market Insights solution supports LTPAC facilities and/or home health agencies in building strong PPN relationships by optimizing resident ³ care and facility performance for higher-risk populations and communicating performance data and analytics to acute partners. Through optimized insights, quality metrics and resident-centered

¹ LTPAC providers may include skilled nursing facilities, assisted living facilities, independent living facilities, and memory care facilities.

² Market Insights and Performance Insights (discussed below) may jointly be referred to as “PointClickCare Insights.”

³ In certain healthcare settings, the term “resident” may be replaced by “patient” or “individual.”

analytics, providers can reduce avoidable readmissions and emergency department visits while achieving enhanced care coordination and high-quality performance outcomes, in order to improve referrals and gain or retain placement in a PPN.

- (iii) **Clinical Standard Content** – The Clinical Standard Content is a standard set of tools including a care plan library, assessments, and alerts, which may be used without the need for Customer-specific configuration (thereby reducing provider’s resources spent on development and upkeep of customized plans, assessments and alert libraries). This package is built from an extensive care library which references over 20 years of research and customer data.
- (iv) **Nursing Advantage** – The Nursing Advantage feature is an evidence- and protocol-based tool set, which follows a nurse’s workflow and can be used, without Customer-specific configuration, to improve the health and well-being of residents.
- (v) **Performance Insights** ⁴ – The Performance Insights solution is a dashboard-driven, interactive, unified, visual analytical tool that analyzes data points across the PointClickCare data spectrum. It focuses on facility or organization performance in areas such as compliance, quality, readmissions, financial measures, referrals and clinical/care insights. This solution enables providers to access deep clinical insights related to individual resident status/progress and individual and collective care team performance. These insights enable providers to manage and deliver quality care and provide clear evidence of their value to referral partners.

Customer’s Acknowledgments and Agreements

1. **PHI-Specific Provisions.** Customer understands, acknowledges, and agrees that, in order for PointClickCare to support, maintain, enhance and add new features to the Applicable Services, PointClickCare needs the ability to: (i) de-identify ⁵ the Protected Health Information (also known as Personal Health Information, Health Information, or Personal Information [relating to the mental or physical health of individuals] in certain Canadian jurisdictions) (“**PHI**”) of Customer’s residents; (ii) aggregate data derived from the PHI of Customer’s residents; and, (iii) store a copy of the PHI of Customer’s residents in a separate environment (i.e., outside of Customer’s database) under PointClickCare’s control (for greater clarification, no customers shall have access to any such environment) where such data shall reside in a data pool, so it can be used in conjunction with copies of the PHI of other customers’ residents (e.g., for benchmarking purposes). Accordingly:
 - a) **[Applicable to US Customers Only]** Customer hereby agrees to the following provisions. Customer further agrees that any Business Associate Agreement (“BAA”) which has been entered into between the Parties shall be deemed to include the following provisions (if such BAA does not already have these provisions) and that any language to the contrary in such BAA no longer shall have effect:
 - (i) **Uses and Disclosures for Management and Administration.** Business Associate also may use and disclose PHI: (i) for its own proper management and administration, which may include but is not limited to performing data analytics to evaluate how its product(s) are used and to improve its product offerings; and/or (ii) to carry out its legal responsibilities. If Business Associate discloses PHI to a third party for either above reason, unless such disclosure is required by law, prior to making any such disclosure, Business Associate must obtain: (a) reasonable assurances from the receiving party that such PHI will be held and remain confidential and be used and further disclosed only as required by law or for the purposes for which it was disclosed to such receiving party; and (b) an agreement from such receiving party to notify Business Associate promptly of any instances of which it is aware in which the confidentiality of the PHI has been breached or otherwise compromised. Without limiting the foregoing, Business Associate may permit access to the system by Business Associate’s contracted system developers under appropriate confidentiality agreements.
 - (ii) **Data Aggregation Services; De-Identified Data; Limited Data Sets; Other Data Uses.** Business Associate may use PHI to provide data aggregation services to Covered Entity, and may disclose aggregated data derived from PHI, as permitted by 45 C.F.R. §164.504(e)(2)(i)(B) and defined by 45 C.F.R. §164.501. Covered Entity acknowledges and affirms that the “Applicable Services” described in the Interoperability and Population Health Addendum to MSA, as signed by Covered Entity, are services that “permit data analyses that relate to the health care operations of [Covered Entity]” (see 45 C.F.R. §164.501). Business Associate may use PHI to prepare activity or quality reports and analyses or other reports that may from time to time be necessary or integral or related to either the services provided under the Service Agreement or for Business Associate’s own management and administration. Such reports and analyses will not make any disclosure of PHI that is not permitted by applicable laws, rules and/or

⁴ Performance Insights and Market Insights (discussed above) may jointly be referred to as “PointClickCare Insights.”

⁵ De-identified health information is referred to as “non-identifying” health information in certain Canadian jurisdictions.

regulations, or under the Service Agreement or this BAA. Business Associate may use PHI to de-identify the PHI in accordance with 45 C.F.R. §§ 164.502(d) and 164.514(a)-(c). Business Associate may create Limited Data Sets (“LDS”) from PHI. Business Associate may disclose the LDS for any purpose allowable by applicable law, rule and/or regulation. Business Associate will require the recipient of the LDS to enter into a Data Use Agreement specifying that the permitted uses and disclosures of the LDS are limited to the purpose of research, public health, or health care operations, and restrictions and/or guidelines on use of the LDS. Business Associate may use (but not disclose) PHI to identify patients/residents of Covered Entity who may be eligible for certain programs, including, but not necessarily limited to including savings programs, coupons, sampling, educational, safety, adherence or treatment support materials which Customer may choose to share with its patients/residents, and to provide notification of the same. Said notifications of potential eligibility are not a substitute for Covered Entity’s professional medical judgment regarding the appropriateness of said programs for a patient/resident. Business Associate may receive remuneration in connection with presenting Covered Entity with patients’/residents’ eligibility for said programs. Business Associate may incorporate information received by Covered Entity’s authorized services providers, Business Associate’s third-party associates, or other covered entities (including their business associates) who are providing or paying for services for one or more of Covered Entity’s patients/residents, into the services provided by Business Associate.

It is further acknowledged and agreed that, without the rights conferred in this Section 6, Business Associate would have to create a custom solution for Covered Entity, at significant additional cost, and that Business Associate would not have agreed to or entered into the Service Agreement or this BAA. All rights, title and interest in and to any de-identified data, aggregated data, LDS data, or other data created by Business Associate is the exclusive property of Business Associate, which may use, disclose, market, license and sell such data for any legally allowable purpose, and without restriction. In many instances, such data is no longer PHI and is no longer subject to HIPAA. Further, it is explicitly acknowledged that Business Associate may receive any allowable remuneration in connection with the same.

- (iii) Access, Use or Disclosure of Data outside the United States. PointClickCare may store, access, use or disclose the PHI of Customer’s residents within the United States and/or Canada.
- b) **[Applicable to Canadian Customers Only]** In order to facilitate the use of data derived from PHI, Customer hereby agrees to the following provisions. Customer further agrees that any agreement which has been entered into between the Parties regarding the rights and obligations of the Parties with respect to PHI shall be deemed to include the following provisions (if such agreement does not already have these provisions) and that any language to the contrary in such agreement no longer shall have effect:
 - (i) Uses and Disclosures for Management and Administration. PointClickCare may use and disclose PHI: (i) for its own proper management and administration, which may include but is not limited to performing data analytics to evaluate how its product(s) are used and to improve its product offerings; and/or (ii) to carry out its legal responsibilities. If PointClickCare discloses PHI to a third party for either above reason, unless such disclosure is required by law, prior to making any such disclosure, PointClickCare must obtain: (a) reasonable assurances from the receiving party that such PHI will be held and remain confidential and be used and further disclosed only as required by law or for the purposes for which it was disclosed to such receiving party; and (b) an agreement from such receiving party to notify PointClickCare promptly of any instances of which it is aware in which the confidentiality of the PHI has been breached or otherwise compromised. Without limiting the foregoing, PointClickCare may permit access to the system by PointClickCare’s contracted system developers under appropriate confidentiality agreements.
 - (ii) Data Aggregation Services; De-Identified Data; Limited Data Sets; Other Data Uses. PointClickCare may use PHI and disclose aggregated data derived from PHI to provide data aggregation services. PointClickCare may use PHI to create de-identified or non-identifying health information. Customer acknowledges and affirms that the “Applicable Services” described in the Interoperability and Population Health Addendum to MSA, as signed by Customer, are services that permit data analyses that relate to the health care operations of Customer. PointClickCare may use PHI to prepare activity or quality reports and analyses or other reports that may from time to time be necessary or integral or related to either the services provided under the Service Agreement or for PointClickCare’s own management and administration. Such reports and analyses will not make any disclosure of PHI that is not permitted by applicable laws, rules and/or regulations, or under the Service Agreement or this agreement. PointClickCare may create Limited Data Sets (“LDS”) from PHI. PointClickCare may disclose the LDS for any purpose allowable by applicable law, rule and/or regulation. PointClickCare will require the recipient of

the LDS to enter into a Data Use Agreement specifying that the permitted uses and disclosures of the LDS are limited to the purpose of research, public health, or health care operations, and restrictions and/or guidelines on use of the LDS. PointClickCare may use (but not disclose) PHI to identify patients/residents of Customer who may be eligible for certain programs, including, but not necessarily limited to including savings programs, coupons, sampling, educational, safety, adherence or treatment support materials which Customer may choose to share with its patients/residents, and to provide notification of the same. Said notifications of potential eligibility are not a substitute for Customer's professional medical judgment regarding the appropriateness of said programs for a patient/resident. PointClickCare may receive remuneration in connection with presenting Customer with patients'/residents' eligibility for said programs. PointClickCare may incorporate information received by Customer's authorized services providers, PointClickCare's third-party associates, of other providers (including their contractors) who are providing or paying for services for one or more of Customer's patients/residents, into the services provided by PointClickCare.

It is further acknowledged and agreed that, without the rights conferred in this Section, PointClickCare would have to create a custom solution for Customer, at significant additional cost, and that PointClickCare would not have agreed to or entered into the Service Agreement or this BAA. All rights, title and interest in and to any de-identified data, aggregated data, LDS data, or other data created by PointClickCare is the exclusive property of PointClickCare, which may use, disclose, market, license and sell such data for any legally allowable purpose, and without restriction. In many instances, such data is no longer PHI and is no longer subject to laws governing PHI. Further, it is explicitly acknowledged that PointClickCare may receive any allowable remuneration in connection with the same.

3. **Recommended and Requisite Actions.** Customer shall comply in frequency, timeliness, completeness, and accuracy in executing the recommended and/or requisite processes and components related to any of the Applicable Services. This includes but is not limited to – with respect to Clinical Standard Content, Nursing Advantage and Performance Insights – assessments and clinical documentation, supervisory review and quality assurance, documentation of outcomes, and providing pre-implementation benchmark data. Customer's failure to comply shall void all warranties and guarantees of PointClickCare with respect to the Clinical Standard Content, Nursing Advantage and Performance Insights. 4. **Clinical Responsibilities.** Customer acknowledges that deployment of any Applicable Service or other PointClickCare service in no way replaces or diminishes the role of a physician and/or a clinical team, nor does any Applicable Service or other PointClickCare service replace appropriate medical assessments, decision making or treatment.
5. **Indemnification.** Customer, and not PointClickCare, shall be fully responsible for any uses made of the Applicable Services or any other PointClickCare service by Customer, its agents, employees and representatives, and for the consequences of any decisions made or actions taken or not taken based in whole or in part thereon. PointClickCare is not a health care provider and does not provide medical advice. Therefore, with regard to any third-party threatened or asserted claims or actions, including for personal injury, tort, medical malpractice, or for other acts, errors, or omissions in the delivery of medical care or medical information, or that otherwise arise out of or are in any way connected with Customer's or its affiliates' access to or use of the Applicable Services (or any other PointClickCare service) or delivery of medical care (a "**Medical Claim**"), Customer shall indemnify, hold harmless and defend PointClickCare and its officers, directors, employees, agents, and subcontractors, including but not limited to, parties retained by PointClickCare to provide services or products directly to Customer or indirectly through incorporation of their services or products in PointClickCare's services and products, from and against any such claims, including but not limited to Medical Claims, and against any and all losses, damages, expenses (including reasonable attorneys' and expert fees), claims, liabilities, suits, or actions resulting therefrom, whether or not such claims or Medical Claims are foreseeable as at the effective date hereof, UNLESS, AND TO THE EXTENT THAT, SUCH CLAIMS RESULT FROM NEGLIGENT ACTS OR OMISSIONS BY POINTCLICKCARE (OR ITS OFFICERS, DIRECTORS, EMPLOYEES, AGENTS OR SUBCONTRACTORS).
6. **Insurance.** Customer shall maintain, at no cost to PointClickCare, insurance coverage (including medical malpractice coverage) as is usually carried by LTPAC entities and/or home health agencies of the type and size of Customer, which shall cover the terms of this Addendum and the MSA, with limits commercially reasonable in connection with Customer's facilities, Customer's Data, and Customer's provision of health care services to Customer's residents, so that such coverage shall be available in the event of a claim by any of Customer's Users or resident(s) (or their representatives or estates) against PointClickCare.
7. **Hold Harmless.** Customer acknowledges that it is inherent in the nature of the Applicable Services that the PHI of an individual can neither be omitted nor deleted from the central data pool referred to in Section 1 of this Addendum. Customer agrees that it is solely responsible for obtaining all necessary consents to ensure that every applicable individual's data may be included in a data pool. If Customer fails to obtain adequate consent, Customer shall hold PointClickCare harmless from any and all adverse expenses, damages or losses which may result from using or disclosing said individual's PHI in relation to the Applicable Services data pool. Customer further acknowledges that, if Customer grants an individual's request to omit or delete his/her data from the data pool, the only way for PointClickCare to honor that request would be to remove the copy of Customer's entire database from the pool, and Customer would no longer be able to use the Applicable Services. In such an event, Customer shall hold PointClickCare harmless from any and all adverse expenses, damages or losses which may result from Customer's inability to continue using the Applicable Services.
8. **Limitation on Filing Claims.** No claim against PointClickCare of any kind, under any circumstances, whether in relation to the Applicable Services or any other PointClickCare service, shall/may be filed more than one year after Customer knows of, or in the exercise of reasonable care could know of, such claim or an act or omission of PointClickCare that would give rise to such claim.
9. **Data Sharing Authorization.** The Parties acknowledge that Customer's authorization is required before PointClickCare may disclose any of Customer's resident's data to a third-party facility (such as a hospital). Where the disclosure will be bi-directional in scope, PointClickCare may not facilitate the sharing of data until such third-party facility also has authorized the bi-directional disclosure and receipt of data. To facilitate the sharing of data, PointClickCare's standard Data Sharing Authorization document ("**DSA**") must be signed by Customer and/or Customer must provide authorization within the Applicable Services themselves. The Parties agree that: (i) Customer's DSA may be amended at any time by Customer and that the version with the most recent date, signed by Customer, shall be the effective version ("**Effective DSA**") upon which PointClickCare can rely for the purposes of sharing data; (ii) where authorization has been provided within the Applicable Services themselves, such authorization shall remain in effect until such time as Customer revokes or revises the authorization within the Applicable Services; and (iii) where there is any conflict between the authorization provided by Customer in the Effective DSA and the authorization provided by Customer in the Applicable Services, PointClickCare shall be authorized to share data pursuant to the most permissive form of authorization.

15. **Amendment.** This Addendum may not be changed, modified, amended or supplemented except by a written instrument signed by both Parties.
16. **Compliance with Applicable Law.** Each Party shall perform its obligations under this Addendum in a manner that complies with applicable law. The Parties shall take such action as is necessary to amend this Addendum from time to time, in order for each Party to comply with the requirements of applicable law.
17. **No Construction Against Drafter.** Each Party to this Addendum hereby acknowledges that it has been advised of its right to engage independent legal counsel of its own selection in connection with the review and execution of this Addendum. As such, no Party hereto shall be considered to be the drafter of this Addendum or any paragraph or term hereof and no presumption shall apply to any Party as the "drafter." Each Party understands the advisability of seeking legal counsel and/or other professional advisors to review the Addendum, and has exercised its own judgment in this regard, and has relied on its own professional advisors when evaluating the propriety and legality of the Addendum and the Applicable Services provided.

2. Implementation Methodology

2.1 Overview

PointClickCare recognizes that the prospect of technology implementation in the long-term care environment can be overwhelming. To be successful, customers must consider and commit to technology configuration, deployment, training, and support, all within reasonable timelines.

PointClickCare has extensive experience in understanding our customers' needs and expertise in completing successful implementations. Our implementations are delivered through a consultative, partnership-based approach that ensures we design and configure the software to meet customer's needs. To do this, we use a sequence of online, webinar/teleconference-based, 1:1 consultation meeting which are supported by electronic documentation and clear communication.

PointClickCare's phased implementation process enables long-term care providers to:

- Scope and schedule implementation phases according to their specific needs – by facility and/or community, function, or other requirements.
- Configure and set up the PointClickCare software to meet specific needs and desired outcomes of each customer; and
- Migrate critical data from existing systems to PointClickCare.

Our implementation process has been designed to be flexible enough to allow precise requirements to be properly addressed and for methods and techniques to be selected and configured as needed. The four phases and deliverables for this SOW are identified below. Unless otherwise agreed to in writing, the completion of your Project is expected to take no longer than twelve (12) months from the date the

Initiate phase is started, subject to the assumptions set forth herein. The Project will be delivered in four distinct phases, as more particularly described in Section 2.2 of this SOW. Winnebago County Circuit Clerks Office
Tom Klein
Winnebago County Clerk of the Court
400 West Street
Rockford IL 61101

Dear Tom,

Exela Technologies, Inc. ("Exela")* parent company for HOV Services Inc., is pleased to present this proposal to the Winnebago County for complete digital conversion of 1.5 million Criminal and Civil case files. Currently these case files are available only via the antiquated analog microfilm. Exela's rapid digital scanning process of this microfilm will rapidly produce PDF (universal portable digital images) from your 9,800 rolls of microfilm containing approximately 58 million images. This would create instant court and public access and virtually eliminate the need for Courthouse access during and after the COVID pandemic. This critical project is an additional step in the right direction of providing safe economical access to all public court information.

After cases are digitally scanned in PDF image format, the requested case files can then be electronically delivered via email without employees ever leaving their desks. The current microfilm retrieval process has become a time and labor consuming process. Recently it has become apparent that some of the microfilm has begun to experience image degradation which will eventually create unacceptable images over time. This issue along with aging antiquated microfilm equipment may make image retrieval and delivery even more difficult.

Once this film is scanned, Winnebago County will be able to produce and deliver outstanding digital case file images. These images will be conveniently available via secure shared access.

BENEFITS THAT MINIMIZE COVID EXPOSURE:

- **Cases are created into universal PDF image format for quick access**
- **Reduces Courthouse foot traffic from the general public**
- **Files retrieved without court or court employees leaving their desks**
- **Enables Court employees secure network access from work or home**
- **Utilizes complete disaster plan during COVID pandemic**

Additional Benefits:

- Confidence working with a company that has worked with approximal 70% of the Court Clerks within Illinois
- All work to be processed in Rantoul Illinois
- Employee cost savings
- Capturing images before further degradation occurs from the aging microfilm
- Elimination of antiquated microfilm machines to retrieve and print case files
- Improved image viewing with image enlargement capabilities
- Improved printing and delivery of images when needed

We stand ready to demonstrate why the Winnebago County Circuit Clerks Office should trust and rely upon Exela for a high-quality image output delivered in a timely, efficient, cost-effective way. We have been providing expert case file conversion services for more than 32+ years to Circuit Clerks Offices across the State of Illinois. This project's conversion services will be performed in our Rantoul, Illinois facility located at 1000 South Perimeter Road. We have become a proven provider for court file conversions by providing services for over 75 Illinois Counties.

Thank you for allowing us the privilege of providing you with a solution that is tailored to meet your current and future needs.

Sincerely,

John Lancaster

EXECUTIVE OVERVIEW:

Project Scope

The film needing scanned have case files dating back to the late 1800s to more current. It is estimated that there are approximately 9,800 rolls of film contain approximately 1,150,773 total case files and 58,384,000 images. Approximately 76% of the film is older, and 24% of the film is newer. Some of the older rolls of film are beginning to show signs of image quality issues due to years of use and age, with some of the film starting to show signs of deterioration and image degradation.

The 9,800 rolls of film would be scanned using Exela's State-of-the-Art Nextscan high-quality production roll film scanners. These scanners utilize the most current technology producing the highest quality images available today. The film scanners have been used extensively on many other successful Illinois County conversion projects. Each roll will be scanned using settings determined from prior roll samples rolls tested. Sample images are then presented to the Circuit Clerk's Office for acceptance before production.

High-level image processing includes de-skew, black border removal, and crop, as allowed by the film's quality. Exela utilizes scanner image processing technologies to render the best possible electronic document images comparable to the original documents' quality.

Image Quality Control and Verification

After scanning, the batch of images is sent to the Image QC Queue to review 10% of the images for quality. If discrepancies are found within a batch, the entire batch is directed to a rescan area for correction. Images that require rework are reprocessed to correct any identified issues. After final acceptance by the Quality Control Staff, images are moved into the formatting process.

Illegible images (defined as not able to be read by a human) due to damage on the film, or the actual filming process, do not apply and will not be included when calculating the 98% success threshold.

Scan settings are based on the best average quality for the roll. Individual images on film whose density falls outside of the roll's normal range will be considered low-quality original images. These also will not be included in the calculation of the 98% success threshold.

Image Case File Indexing

75% of the film (older film) images from each roll of film will be manually reviewed to determine when a new case begins and ends. The more recent 24% of the film has film image markings which automatically separates each case file. The older film needs a manual image-to-image inspection process, carefully viewing and determining proper case file separation. The images for all cases will then be created as a multipage PDF image. After each image within the case files is grouped together, the images will become a multipage PDF image. After that process, the PDF image will then be named by its case number. Older case numbers from the past will have a different naming convention than today's case files. Regardless, Exela will key the correct case number, which will then sort into case number order via the windows directory. Example below of completed PDF image naming requirements.

POSITION BACKGROUND: The Focused Deterrence Reentry Program Navigator works with a team to deliver services in Winnebago County, IL. **This position involves street level work with high risk, former violent offenders.** The position links individuals to services; case management and provides follow up services. The Navigator works as part of a multi-disciplinary team coordinating case plans and resources to ensure participants are connected to the services they need in a swift and certain manner.

The Navigator must understand the importance of, and adopt the best practices of addressing criminogenic needs through the Risk, Needs, and Responsivity model using risk assessment results. This person must have a strong working knowledge of community resources and the ability to connect and coordinate services to manage individual cases. The Navigator must also be able to effectively engage and connect with participants and be comfortable working with clients in alternative environments. The Navigator's goal is to connect individuals to existing providers/programs in the community; when an appropriate provider is not available, the Navigator will be responsible for providing wraparound case management services. *The Navigator will seek to coordinate and manage, but not duplicate, efforts.*

The Navigator will act in the advocacy/mentoring capacity for the client, and work as part of the client's team, in partnership with law enforcement, parole, probation, and community service providers. This is a 4-year, grant-funded program led by the Winnebago County Chairman's Office of Criminal Justice Initiatives. It is expected we will call in up to 12 – 15 participants each quarter.

1. Provide brief description of organization history and purpose.

Get Connected was founded by Tretara Flowers to help fill an identified community need for an organization to work with individuals reentering the community after incarceration. Tretara had worked as a Navigator under an ICIJIA grant in the past and gained experience about implementation as well as administration of the program that was translated into Get Connected, an entire organization focused on providing Navigator services as well as services to address the entire spectrum of needs experienced by individuals as they attempt to reintegrate into society. The organization has a board of directors from all different backgrounds that share the common experience of having their lives touched by the struggles of reentry in some way. The organization's aims to enhance the deterrence knowledge and strategies to accurately serve high risk former violent offenders at the street level. The purpose/mission of the organization is to help eliminate violent crime and reduce recidivism in the community through intentional partnerships to serve high-risk former violent offenders.

2. Provide summary of service, program, project to be supported or delivered by Focused Deterrence funds, and how it will lead to a reduction in violent crime.

Services will include reentry support, case management, and Navigator augmented services plans that ensure the elimination of conflicts of services. Navigator will introduce programs and projects to clients that correlate with best practices which address criminogenic needs according to the results of each client's risk and needs assessment, which will be provided by the client (they will receive a copy of this from IDOC). Probation will provide assessments or high risk results for those referred by probation to aid in their success of services. In addition, applying pro-social engagement while implementing the latter best practices and evidence based programming in each client's services will lead to a reduction in violent crime.

3. Describe staffing plan. Include proposed schedule and hours worked.

Due to the nature of the partners involved, normal programming hours worked are between the hours of 8 – 5 Monday – Friday. Due to the nature of the target population, Contractor may include additional hours before or after normal programming hours not to exceed total payment amount as provided in Section Two of the Agreement.

4. If applicable, describe public awareness/community outreach activities under this program.

The program will allow us to reach out to our community service partners and assess what services they are currently providing to former violent offenders. This will be performed through a survey and face-to-face collaboration with community partners for clarity and understanding about services provided to our target population. The Navigator will perform outreach activities for participants such as call-in meetings, allowing collaboration of community partners and participant introduction to providers and pro-social engagement.

5. Describe target population, include number served using funds and eligibility requirements.

The target population consists of individuals that are former violent offenders reentering the community after a period of incarceration who have scored high on their risk and needs assessment, who suffer from lack of pro-social engagement. In addition, the target will need knowledge in areas like financial literacy and resource education. The number of those anticipated to serve is 12 -15 New participants each quarter. Eligibility requirements will include the participants selection through the MDT assuming they meet all the High-risk criteria set forth by the program. Participants will be required to provide Navigator with the results of the Risk, Needs, and Responsivity model, along with the willingness to participate in reentry services.

6. Describe program referral and intake process. Include assessments used.

Program referrals will come from the Winnebago County Chairman's Office of Criminal Justice Initiatives. Participants will begin engagement at the Call-in meetings and an appointment to begin the intake process will begin 7-10 days from the point of Call-in. The intake process will consist of conducting an appointment with the participant and reviewing the RNR results, coordinating services for those results where immediate attention is needed. In addition, the participant will set goals and assess what tool and or resources will be used to accomplish goals immediately attainable and creating plan to achieve long-term goals.

7. Describe in detail how each service will be provided.

The Navigators' workspace will be at the Winnebago County Resource Intervention Center and the coordination of services will start at the Call-In. The Navigator will begin triaging services during the Call-in where there will be several community agencies present to engage participants in signing up for appointments and providing necessary information for services. Once the Call-in is complete Navigator will have appointments set for participants. Intakes will be performed with participants within 7-10 days from the Call-In and during the intake process needs will be identified and goals will be set. While educational, financial, pro-social, board orders and court requirements will be incorporated into the Focused Deterrence service outline. The Navigator will assist participants in understanding the FD service outline and how the outline of goals will be executed accordingly. Follow-ups and check-ins will be provided by the Navigator in reference to assessing the quality of involvement and participation performed by the participant. Navigator will meet participants where they are in order to provide services that are conducive to the success of their FD outlined service goals. The Navigator will attend and advocate for participants to receive services according to identified criminogenic needs and other high-risk factors to mitigate the possibilities of recidivism and violence.

Salaries & Fringe Benefits

Amanda Ward will be the co-PI on the project and will devote 20% of her time during the year on the project. Amanda's salary is \$65,000 per year, and so her 20% commitment equates to \$13,000 per year on the project. As a full-time staff member (title is Assistant Research Professor), her fringe benefit rate is 21%, and thus, \$2,730 in fringe benefits are charged to this project. A student research assistant will also be hired to work on the project and is budgeted at an hourly rate of \$19 and will work an average of 9 hours per week during the 36 weeks of the academic year. Thus, the student worker will be paid a total of \$6,156 during the year.

Travel

A total of \$840 is budgeted for travel from Chicago to Rockford to attend meetings, conduct interviews/focus groups, collect data, and make presentations to stakeholders. When possible, these trips to Rockford will be combined with other travel associated with other projects and travel costs will be split across the projects/accounts.

The total direct costs for the project (salaries, fringe and travel) total \$22,726 per year. A Facilities and Administrative cost rate (i.e., indirect cost) of 10% is sought for this project rather than the 26% that would normally be applied to an off-campus research project due to the limited funding available for the project. Thus, the F&A amount is \$2,273. The grand total for the project is \$24,999 per year.

NOTES:

[A] Property Taxes

Property taxes are projected once assumptions surrounding new growth, the CPI and property valuations are known. The Supervisor of Assessments and the County Clerk are key in the creation of the projection. The total property tax includes

[B] Sales Tax

The State of Illinois disburses several types of sales tax to the County. The first is related to sales that occurred in the unincorporated areas of the County (1%). The second is .25% from all sales within the County. The third is the County cannabis tax which the County began collecting on July 1, 2020. On January 1, 2021, the State of Illinois instituted new guidelines for collecting sales tax for online purchases. Due to this, the County should experience growth in the Sales Tax and decline in the Use Tax. Due to volatility of sales taxes in FY2020 and FY2021, FY2022 revenue projections are based on trends of the past three years excluding FY2021 activity.

[C] Use Tax

Use tax is imposed on the privilege of using, in Illinois, any item of tangible personal property purchased anywhere at retail including titled or registered items. The State of IL disburses use tax based on the County's population in proportion to the total state population. 2020 census data has not been certified and received by the Department of Revenue so the percentage the County may receive could change in FY2022.

[D] Cannabis Excise Tax

The Cannabis Excise Tax is imposed on all adult-use cannabis sales, a portion of which is allocated to local governments based on population. 2020 census data has not been certified and received by the Department of Revenue so the percentage the County may receive could change in FY2022.

[E] Video Gaming Tax

Video gaming tax is revenue generated from the tax imposed on the net terminal income generated by the play of video gaming. The revenue projections for these revenues are based on trends of the past two years.

[AA] State Income Tax

Local governments in Illinois receive a percental of net collections of income taxes. State income tax is distributed based on census data. 2020 census data has not been certified by the state so past trends may not be applicable if the population of Winnebago County compared to the state population has decreased. The 2022 budget at this time is based on a three year trend.

[AB] Replacement Tax Allotments

Replacement taxes are revenues collected by the State of Illinois and paid to local governments to replace money that was lost by local governments when their powers to impose personal property taxes on corporations, partnerships, and other business entities were taken away. The revenue projections for these revenues are based on trends of the past two years reduced by the anticipated diversion from this fund by the State of Illinois.

WHEREAS, the Illinois General Assembly passed comprehensive legislation in 2018, which completely overhauls the criminal, traffic and civil fee structures in the circuit courts throughout the State of Illinois; and

WHEREAS, the purpose of the legislation was to consolidate fees into unified schedules for all counties, to realign fees to be constitutional, and to provide for fee waivers for low income individuals; and

WHEREAS, effective July 1, 2019, Section 27.1b of the Clerks of Courts Act, 705 ILCS 105/27.1b, sets out the fees to be charged in all counties in the State of Illinois by the Clerks of the Circuit Court for the filing of pleadings and for other services provided by the Clerks in civil cases; and

WHEREAS, Section 27.1b of the Clerks of Courts Act creates four schedules for civil filing fees, three schedules for civil appearance fees, and establishes various other fees that Clerks of the Circuit Court are authorized to assess in civil cases, all of which are generally classified as “not to exceed” amounts; and

WHEREAS, Section 27.1b provides that, unless otherwise specified, the amount of the fees shall be determined by ordinance or resolution of the county board and remitted to the county treasurer to be used for purposes related to the operation of the court system in the county; and

WHEREAS, effective July 1, 2019, the newly-adopted Criminal and Traffic Assessment Act, 705 ILCS 105/135 *et seq.*, sets out minimum fines to be levied and assessments to be charged in criminal and traffic cases by the Clerks of the Circuit Court in all counties in the State of Illinois; and

WHEREAS, Sections 15-5 through 15-65 of the Criminal and Traffic Assessment Act establish thirteen (13) assessment schedules for various criminal, traffic, conservation and non-traffic offenses, and for each schedule the County's portion of the assessment is specifically listed; and

WHEREAS, Sections 15-5 through 15-65 break down how the assessment amounts are to be distributed to various County funds, if those funds are in existence; otherwise, the amounts designated for funds that are not in existence are to be placed in the County's general fund for purposes related to operation of the court system in the County.

Document Title: Resolution Approving A Thirty-Eight Thousand, One Hundred And Twenty-Seven Dollar (\$38,127.00) Grant From Host Fees To Support The Economic Viability Of The North Main And Auburn Streets Business Area And Assist With Site Remediation From Winnebago County's G.A.R. Memorial Civil War Soldier Statue Removal

Budget Information:

Was item budgeted? Yes	Appropriation Amount: \$38,127
If not, explain funding source:	
ORG - OBJ - Project Code: 41700 - 43190	Budget Impact: None - Budgeted

Background Information:

Winnebago County has a long history in supporting service persons and Veterans through various means. In 1900 the County purchased the G.A.R. Memorial Civil War Soldier Statue. The Statute was later located at the northeast corner of Auburn and North Main Streets at Greenwood Cemetery through a multi-faceted partnership agreement. The Agreement (Resolution Approved July 14, 1983) stated that it would remain there initially for 15 years and then automatically extend in 5 year intervals, until such agreement was terminated. In 2014 Veterans Memorial Hall received a grant from the Illinois Department of Natural Resources to re-furbish and relocate the Statue to the east side of Veterans Memorial Hall, where it stand today. While the Statute has been moved, thus terminating the Agreement, the site has not been remediated as outlined within the original Agreement. As part of the remediation of the site, there are remains of a Civil War Soldier that will need to be relocated as well. The Host Fee request is to resolve the outstanding items needing to be addressed by the County within the Agreement.

Recommendation:

Administration supports and recommends the fulfillment of the Agreement as established nearly four decades prior.

Contract/Agreement:

Previous "Greenwood Civil War Memorial Agreement" attached approved February 28, 1983.

Legal Review:

Yes

Follow-Up:

Administration can follow-up as requested to the Economic Development Committee and/or the entire Board as they see fit.

GREENWOOD CIVIL WAR MEMORIAL AGREEMENT

THIS AGREEMENT, made this 28th day of February, 1984, by and among GREENWOOD CEMETERY ASSOCIATION (hereinafter referred to as "GREENWOOD"), a not-for-profit Illinois corporation; ROCKFORD PARK DISTRICT (hereinafter referred to as "PARK DISTRICT"), a municipal corporation; the COUNTY OF WINNEBAGO (hereinafter referred to as "COUNTY"), a municipal corporation; and the MAIN AND AUBURN BUSINESS ASSOCIATION (hereinafter referred to as "ASSOCIATION");

W I T N E S S E T H :

WHEREAS, GREENWOOD is willing to lease to PARK DISTRICT a portion of its premises; and

WHEREAS, COUNTY is desirous of relocating to such premises a certain statue, commonly known as the G.A.R. Memorial Civil War Soldier Statue, heretofore located at the east entrance of the Winnebago County Courthouse; and

WHEREAS, PARK DISTRICT is willing to maintain such premises; and

WHEREAS, ASSOCIATION will be benefited from such Agreement and is willing to assist in the relocation of the statue and the maintenance of the premises;

NOW, THEREFORE, in consideration of the premises, it is agreed by and among the parties hereto as follows:

1. GREENWOOD hereby leases to PARK DISTRICT the approximate one-eighth (1/8) of an acre located at the northeast intersection of Main Street and Auburn Street, in the City of Rockford, Illinois, as is more particularly described upon the Plot Plan attached hereto as Exhibit "A" and herein incorporated by reference.

2. COUNTY agrees to remove from the present location the G.A.R. Memorial Civil War Soldier Statue and locate the same for public display at the Greenwood Civil War Memorial site herein provided for.

3. PARK DISTRICT agrees to maintain the Greenwood Civil War Memorial site at a level commensurate with the maintenance it provides for other park sites under its control. PARK DISTRICT specifically agrees that such maintenance shall be at such quality as to prevent the statue and improvements from deteriorating or becoming noticeably neglected. PARK DISTRICT further agrees to provide lighting of and for the statue nightly between the hours of sunset and sunrise. Should such site conditions not be met or a breach hereof permitted to exist for thirty (30) days after written notice to correct same has been given by GREENWOOD, by COUNTY, or by ASSOCIATION to the PARK DISTRICT, GREENWOOD may elect to terminate the lease by written notice to PARK DISTRICT and to COUNTY. In the event PARK DISTRICT fails to provide lighting or allows the statue to deteriorate or become noticeably neglected, COUNTY may, upon fourteen (14) days notice to correct same, remove statue from the site at COUNTY'S expense.

4. The term of this Agreement shall be from the effective date hereof to December 31, 1998, and for five-year terms there-

after, unless and until this Agreement be terminated by one of the parties hereto by three month's prior written notice to the other parties hereto. Upon termination of this Agreement by failure of renewal or by breach of conditions, COUNTY shall remove the statue from the premises and PARK DISTRICT shall, without cost to GREENWOOD, restore the leased premises to the original condition as nearly as can practicably be done.

5. It is agreed and understood by and among the parties that the site construction and preparation will cost in the neighborhood of \$20,000.00. Such funds are expected to be obtained through Community Development Block Grant, through the City of Rockford. In the event such funding is not obtained, the parties will make good faith effort to secure alternative financing, but this Agreement shall not require any party hereto to bear the financial burden of site preparation and renovation. In the event funding for this project shall not be secured within one year from the date hereof, this Agreement shall be null and void.

6. The rental amount from PARK DISTRICT to GREENWOOD hereunder shall be \$1.00 per year.

7. PARK DISTRICT shall maintain insurance upon the Greenwood Civil War Memorial site and the statue commensurate with insurance presently maintained for its own parks. PARK DISTRICT agrees to protect, indemnify and hold harmless GREENWOOD, COUNTY and ASSOCIATION from any claims, demands or liability arising out of or related to the use of or access to the leased premises by the public.

8. The existing fence, which extends around the corner of Auburn Street and North Main Street bordering the leased tract, shall be moved by ASSOCIATION so as to enclose the leased area on the northeast boundary as defined on Exhibit "A" without any cost to GREENWOOD.

IN WITNESS WHEREOF, the parties have hereunto set their hands and seals as of the day and year first above written.

attorney, especially in light of the pending lawsuit.

Commissioner Carlson made the suggestion that four or five thousand seedling trees be purchased and planted in the area North of the Sportscore belonging to the United Realty Company. In fifteen years or so their growth would insulate the ball diamonds.

Mr. Fayram indicated there is a fairly intense amount of deciduous vegetation there right now only ten to fifteen feet in height and he feels after the road improvement there will be a need to replace the planting demolished. If this plan can be done and the material properly taken care of, better performance will be achieved on the Park District property in a shorter period of time.

COMMISSIONER CARLSON MADE THE MOTION THE BOARD APPROVE THE FUNDING OF \$24,550.00 FOR REFORESTATION AND TO GO FOR BID ON THE RECOMMENDED PLANT MATERIALS. SECONDED BY COMMISSIONER SJOSTROM, THE MOTION WAS CARRIED BY THE UNANIMOUS VOTE OF ALL COMMISSIONERS PRESENT.

Mr. Norman introduced Ray Nihan, who has been working very diligently for some time in an effort to construct a Memorial to our Civil War Veterans. The Memorial, making use of the Civil War Sentry in the lower level of the Courthouse, will be located in Greenwood Cemetery at the corner of North Main and Auburn Streets. Thus far, Mr. Nihan has received the cooperation and support of the agencies involved with

tentative agreements in the hands of the Rockford Park District, the Greenwood Cemetery Association and the Winnebago County Board. The cemetery will not convey the land to be used -- they will allow it's use. The County Board will not transfer the statue of the Civil War Sentry

-- they will allow it's use and Mr. Nihan hopes the Rockford Park District Board of Commissioners will contribute the maintenance for the site, which is one of the conditions the other two parties adhered to. Submission has been made to the Community Development for a block grant, below \$20,000.00. Everything is in place and Mr. Nihan advised Mr. Norman he believes water is readily available for the necessary maintenance.

Following further discussion, COMMISSIONER CARLSON MADE THE MOTION THE ROCKFORD PARK DISTRICT ENTER INTO THE CIVIL WAR MEMORIAL PARK PROJECT BY AGREEING TO MAINTAIN THE MEMORIAL PARK AREA, SUBJECT TO THE TOTAL FUNDING REQUIREMENT AND THE AVAILABILITY OF WATER FOR THE MAINTENANCE REQUIREMENTS. SECONDED BY COMMISSIONER DELANY, THE MOTION WAS PASSED BY THE UNANIMOUS AFFIRMATIVE VOTE OF ALL COMMISSIONERS PRESENT.

Marilyn Balsam and Evelyn Freeman, Co-Chairmen of the Beattie Is. Tree-mendous Program for 1983 gave a report to the Board on the

Distinguished Service Award presented to 1983 Beattie Is Co-Chairmen very successful weekend program. Noting that the totals are not in as yet, the program was however, financially better and a little bit bigger in attendance than last year. Giving special praise to Marian Holmgren for all the help and assistance she gave them, they also thanked the entire staff of the Rockford Park District for their unrelenting help and being there when they were needed -- for without the help of the Rockford Park District, they felt Beattie Is would not be possible.

President Thienemann thanked Marilyn and Evelyn for the wonderful job they did as Co-Chairman of this very special event, knowing the pressure they have been under and presented each with a Distinguished Service Award in recognition of the leadership given and success achieved.

Dear Mr. Swanson:

I have called the Greenwood Cemetery Association regarding legal burial procedures for the remains of the Civil War Soldier. They are not aware of any legal requirements for the burial. However, they have suggested that the remains should be buried separated from the monument, a few inches below the foundation. The reason for this is in case the monument is required to be removed in the future, the remains will not be disturbed.

The remains are in the custody of Attorney Thomas J. Milani, per attached letter, and are available as you would need them. Please let me know if the burial of the remains under and separate from the monument will present any complications. My phone number is 987-5690. Thanks for your cooperation.

Thomas McNamara, City of Rockford, Mayor

425 East State Street
Rockford, IL 61104

Dear Chairman Haney and Mayor McNamara,

I am writing to you on behalf of the trustees of Greenwood Cemetery regarding a longstanding issue that needs resolution: the re-dress of the northeast corner of the Roundabout at Main and Auburn Streets.

I want to bring to your attention that the landscaping remediation of this corner has still not happened. I have communications regarding the relocation of the Civil War soldier that date back as far as summer, 2014. When the soldier was removed by the County it was conveyed to us by then Chairman Scott Christiansen that there was \$20,000 in the County budget restricted for remediation of the site and surrounding landscape. At that time the players involved were Chairman Christiansen, Alderman John Beck (12th ward) and Thomas McNamara, then 3rd ward alderman. Also involved was landscape designer Scott Sanders who had been retained throughout the roundabout construction by the City. In the ensuing conversations both Alderman Beck and Alderman McNamara felt that they would contribute to re-dressing the site.

Now, years later, we are asking for an action plan to make this corner a part of the greater design for the roundabout and North End redevelopment. We feel that the corner of North Main and Auburn is an embarrassment and eyesore. The County left the platform (with words that addressed the Civil War and US veterans in general) onto which the soldier was attached, the brick surround that framed the soldier's mount, and in doing so, the Rockford Park District was released from all maintenance of the corner.

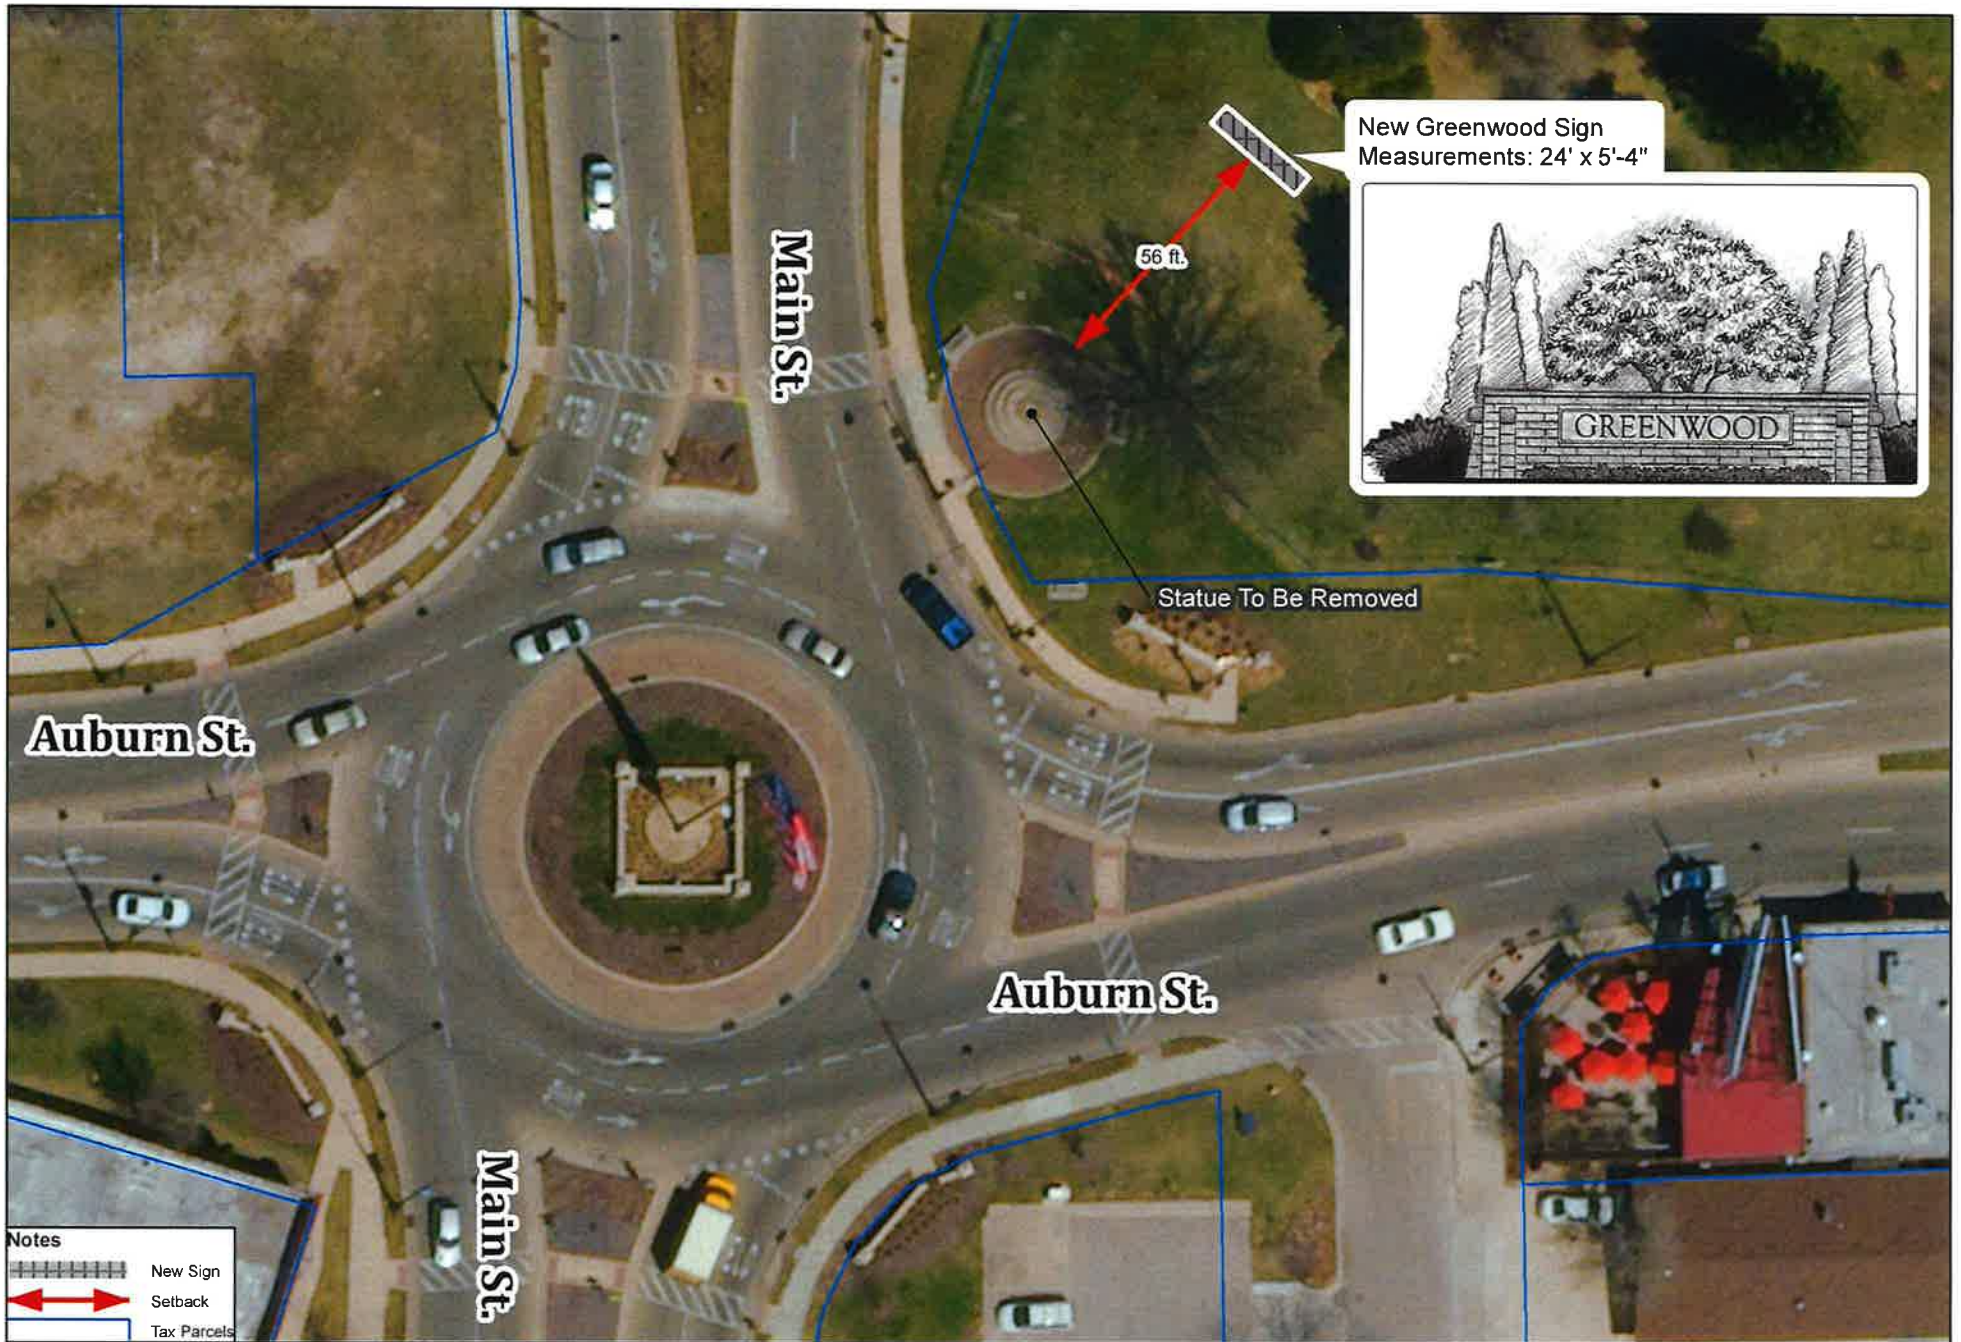

I hope that both the City and the County will take action early this spring and will make good on the promise of re-dressing the corner. In January, 2019, I spoke briefly with Chairman Haney and he assured me the money was still a restricted line item.

Unfortunately, Greenwood Cemetery is in no financial position to contribute to this project. We struggle to meet the operating costs of the cemetery grounds on a daily basis.

Greenwood wants to be a good neighbor and citizen as well. We feel that the whole theme of honoring veterans in the design of the Roundabout was inspired by the Civil War soldier, the proximity of streets to the Civil War's Camp Fuller, and to the fact that

there are so many United States veterans of military service buried at Greenwood. With the loss of the soldier, we need to replace the missing element in the design. We believe it is incumbent on all citizens to be concerned about the appearance of Greenwood Cemetery as it is here to stay!

Let's do the right thing! Please let us know your plans.

WHEREAS, on October 24, 2019, the Winnebago County Board adopted Resolution 2019 CR 127, authorizing the execution of a contract between the County of Winnebago, Illinois (County) and Region 1 Planning Council (R1PC) for R1PC to act as the County's Agent in the operation of a Delinquent Tax Program; and

WHEREAS, pursuant to the contract, R1PC is responsible for marketing and selling the property to the highest, responsible buyer; and
