### 3. GENERAL and FACILITY INFORMATION

The County of Winnebago is a unit of local government in the State of Illinois with a current population of more than 280,000 residents, as estimated by the US Census Bureau, within its 519 square miles. It is the 7th most populous County in Illinois. The governing body is the County Board, which is comprised of twenty members. The County has eighteen (18) constructed facilities in various locations totaling approximately 1,684,230 SF.

The goal of the Winnebago County is acquiring a medical provider to maximize the medical treatment and care of inmates and detainees occurring within the secured

County Facilities in order to minimize the security risks of external transportation as well as the inappropriate utilization of staff unless deemed medically necessary.

For purposes of this RFP, the terms “medical services” and “health care services” may be used interchangeably; and the term inmate refers to any individual considered an inmate, prisoner, detainee, and arrestee, incarcerated or otherwise remanded person to the County Facilities.

**Current contracted providers for Jail:**

- Subcontractor: Soltis Dentistry (Jail only)
- Advance Correctional Healthcare (mental health care only)

**Current contracted provider for JDC:**

**Winnebago County Jail** The Facility houses both male and female and some sentenced inmates; generally having sentences of up to one (1) year. The average daily population is between 717 or more and the average length of stay for inmates is approximately 35 days. **Proposals should be based on an ADP of 720 for the first year of the new contract.** The inmate population is comprised of approximately 85 percent male and 15 percent female inmates.

The Winnebago County Jail is a 1,318-bed, direct-supervision facility, with more than 160 corrections officers. In addition to ensuring the safety and security of the facility, the staff and its inmates, a large part of the jail operations includes programming, with eight classrooms where classes such as GED, life skills, religious and substance abuse education are conducted.

The first floor of the Jail houses such functions as pre-booking, booking, bond out and the classification units. The second floor is comprised of all special-needs beds. Mental health, medical, maximum and segregation housing units are contained here and monitored in a modified direct supervision setting. The third and fourth floors are designed identically and hold the general housing unit population monitored under a direct supervision philosophy. Each housing unit contains its own medical exam room, which further reduces the need for inmate escorts. Fresh air recreation space is provided in each unit and can be utilized by inmates.

**Jail Statistics:**

Year	2021	2022	2023
Average Daily Population	755	769	812

### **Juvenile Detention Center (JDC)**

The facility houses both male and female detainees who are awaiting appearances in juvenile court or who have been sentenced to the facility for up to 30 days. In 2017, the average length of stay was 29 days and the average daily population was 49.5. The proposal should be based on an average daily population of 50 for the first year of the new contract. The detainee population is comprised of approximately (85%) eighty-five percent male and (15%) fifteen percent female detainees.

The present site opened as a 32-bed facility in January 1992. The capacity of this building was expanded to 48 beds in 1995. The average age of youth are 14-17 years old. The building contains activity rooms, a kitchen, a dining room (which also serves as the visitation area), classrooms, laundry, gymnasium and an outdoor recreation area. All minors stay in separate rooms except during overcrowding conditions when the gymnasium and common areas are utilized for sleeping facilities.

Currently, the JDC has nursing staff on site between 8:00 AM and 11:00 AM as well as 7:00 PM and 10:00 PM every day. In addition, a nurse practitioner, doctor, or RN level medical person is on site two days a week for two hours each day to conduct physicals and do chart reviews. The nursing staff coordinates the distribution of all medication, including the contacting of parents or other parties to obtain prescriptions or refills, as well as conducting triage for minor injuries and addressing the minor's medical needs while they are in the Center. Parents or Legal Guardians are financially responsible for providing all prescription medications as well as for any emergency or ongoing medical services, which are deemed necessary by our current medical provider.

**APPENDIX F BOTH Jail and JDC**  
**GENERAL CONTRACT TERMS AND CONDITIONS**

**C1 Term of Contract**

A resulting contract shall be for one (1) year term.

1. Upon mutual agreement of the parties, a resulting contract may be renewed with written agreement by both parties for four (4) additional, one (1) year term.
2. Either party shall provide a one-hundred and fifty (150) day notice of non-renewal in writing, should renewal of a resulting contract not be desired.
3. A resulting contract may be terminated immediately for "cause." "Cause" includes but is not limited to any breach of contract, security violations, or funding considerations.
4. Changes in the provisions or services to be furnished under a resulting contract may be made, only in writing, and must be approved by the County and the selected Proposer. Any change in the scope of the contract that requires an adjustment to the contract price must be mutually negotiated and agreed to in writing by both parties.

**C2 Start-Up**

The selected Proposer shall be prepared to commence full service under a resulting contract within sixty (60) calendar days, unless otherwise agreed to by both parties, of award by the County Board.

**C3 Funding Out Clause**

The County reasonably believes that funds can be obtained sufficiently to make all payments during the term of a resulting contract. However, in the event the County fails to obligate requisite funds for any ensuing fiscal year(s) for payment of amounts due against a resulting contract, necessitating cancellation of the contract, the selected Proposer shall, upon receipt of a ninety (90) days written notice, agree to hold the County free from any charge or penalty.

**C4 Status of Proposer**

The selected Proposer shall have the status of an "Independent Proposer," and shall not be entitled to any of the rights, privileges, benefits, and emoluments of either an officer or employee of the County.

**C5 Indemnification**

As respects acts, errors or omissions in the performance of professional services, Proposer agrees to indemnify and hold harmless County, its officers, agents, employees, and volunteers from and against any and all claims, demands, defense costs, or liability arising directly out of Proposer's negligent acts, errors or omissions in the performance of its professional services under the terms of this agreement. As respects all acts or omissions which do not arise directly out of the performance of professional services, including but

not limited to those acts or omissions normally covered by general and automobile liability insurance, Proposer agrees to indemnify, defend (at County's option), and hold harmless County, its officers, agents, employees, and volunteers from and against any and all claims, demands, defense costs, or liability arising out of or in connection with Proposer's (or Subcontractor, if any) acts or omissions, under the terms of this agreement; excepting those which arise out of the negligence of County.

Proposer must either defend County or upon determination that the work performed by Proposer was in any manner negligent or that Proposer failed to perform any duty set forth in this Agreement pay County's cost of defense for any claim, demand, action or cause of action. If County's personnel (attorneys or other professionals) are involved in defending such legal actions, Proposer shall also reimburse County for the time spent by such personnel at the actual cost for such services. In determining the nature of the claim against County, the incident underlying the claim shall determine the nature of the claim, notwithstanding the form of the allegations against County. Nothing contained herein shall be construed as prohibiting Winnebago County and their officers, agents, or its employees, from defending through the selection and use of their own agents, attorneys and experts, any claims, actions or suits brought against them. The Proposer shall likewise be liable for the cost, fees and expenses incurred in Winnebago County's or the Proposer's defense of any such claims, actions, or suits. The Proposer shall be responsible for any damages incurred as a result of its errors, omissions or negligent acts and for any losses or costs to repair or remedy construction as a result of its errors, omissions or negligent acts.

**C6 Insurance/Indemnification**

The County has established specific indemnification and insurance requirements for contracts with Proposers to help ensure that reasonable insurance coverage is maintained. Indemnification and hold harmless clauses are intended to ensure that Proposers are aware of and accept the responsibility for losses or liabilities related to their activities. All conditions and requirements identified in this Section shall be completed prior to the commencement of any work under a contract.

**C7 Insurance Requirements**

County requires that Proposer purchase Industrial Insurance, General and Auto Liability, and Professional Liability (malpractice) Insurance as described below against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work here under by Proposer, its agents, representatives, employees or subcontractors. The cost of all such insurance shall be borne by Proposer. It is understood and agreed that there shall be no Industrial Insurance coverage provided for Proposer or any subcontractors by County. Proposer agrees, as a precondition to the performance of any work under this Agreement and as a precondition to any obligation of the County to make any payment under this Agreement to provide County with a certificate issued by an insurer. Should Proposer be self-funded for Industrial insurance, Proposer shall so notify County in writing prior to the signing of any agreement. County reserves the right to approve said retentions and may request additional documentation,

financial or otherwise for review prior to the signing of any agreement. Proposer shall include all independent subcontractors as insured's under its policies or furnish separate certificates and endorsements for each subcontractors. Subcontractors shall be subject to all of the requirements stated herein. Insurance is to be placed with insurers with a Best's rating of no less than A-: VII. County reserves the right to require that the Proposer's insurer be a licensed and admitted insurer in the State of Illinois, or on the Insurance Commissioner's approved but not admitted list.

**C8 Verification of Coverage**

Proposer shall furnish County with certificates of insurance and with original endorsements affecting coverage required by this exhibit. The certificates and endorsements for each insurance policy are to be signed by a person authorized by that insurer to bind coverage on its behalf. The certificates are to be on forms approved by County. ***All certificates and endorsements are to be addressed to the specific County Purchasing Department and be received and approved by County before work commences.*** County reserves the right to require complete, certified copies of all required insurance policies, at anytime

**C9 Minimum Limits of Insurance**

2. Automobile Liability: \$1,000,000 combined single limit per accident for bodily injury and property damage. No aggregate limit may apply.
3. Professional Errors and Omissions Liability: \$2,000,000 per claim and \$2,000,000 as an annual aggregate.

In the event that Proposer goes out of business during the term of this Contract or the subsequent five year period, Proposer shall purchase coverage for claims which occurred during the period that coverage was in effect but may be reported after the expiration of the normal term of the insurance policy. Proof of payment shall be required of the Proposer. Premium costs to increase Proposer's insurance levels to meet minimum contract limits shall be borne by the Proposer at no cost to County.

**C10 Deductibles and Self-Insured Retentions**

Any deductibles or self-insured retentions must be declared to and approved by the County prior to the start of work under this Agreement. County reserves the right to request

additional documentation, financial or otherwise prior to giving its approval of the deductibles and self-insured retention and prior to executing the underlying agreement. The coverage shall contain no special limitations on the scope of protection afforded to additional insured's, nor shall the rights of the additional insured's be affected by the insured's duties after an accident or loss.
- B. Proposer's insurance coverage shall be primary insurance as respects County, its officers, agents, employees and volunteers. Subcontractors under it.

3. In addition to any other remedies County may have if Proposer fails to provide or maintain any insurance policies or policy endorsements to the extent and within the time herein required, County may, at its sole option:

In the event Federal or State funds are being used to fund this contract, additional certifications will be required. Lack of knowledge on the part of the vendor will in no way be cause for release of this obligation. If the County becomes aware of violation of any laws on the part of the Proposer, it reserves the right to reject any proposal, cancel any contract and pursue any other legal remedies deemed necessary.

**C16 Restrictions of Specifications**

This document is not intended nor shall it be interpreted to constitute restrictions and/or to discourage potential vendors from submitting a proposal, which shall satisfy the minimum requirements, specified herein.

1. The County shall reserve the right to accept or reject proposals received in response to this request, and to waive minor irregularities or technicalities when to do so is in the best interest of the County.
