ADDENDUM ONE

PROFESSIONAL SERVICES – ARCHITECTURE/ENGINEERING SERVICES REQUEST FOR QUALIFICATIONS #25Q-2385

1. Could you clarify if this RFQ is geared more towards civil engineering projects or more on the architecture side? **Our goal is more architecture. However, we obviously have miscellaneous projects arise. If you have civil engineering expertise please share. It is possible for larger scale items we may need to go through a separate solicitation/bid process.**
2. Is a county wide Master Plan one of the potential projects? **No, not at this time.**
3. Is a Building Assessment one of the potential projects? **That was not originally discussed but feel free to share content or value-added recommendations, if desired.**
4. If not to either of the above questions, do you need any of these services? **These are not currently prioritized service requests.**
