

BID ADDENDUM #1

23B-2283 - WCAS FLAT ROOF REPLACEMENT PROJECT

1. The County of Winnebago has confirmed the existing roof system does not contain roof insulation. The County spoke with the City of Rockford building department, and they are not requiring insulation to be added as part of this Bid project.

The County would still like to know the cost is to add R30 insulation to the new roof system. Please provide a unit price for new R30 roof insulation on the included **Addendum #1 REVISED SECTION 8- PRICING & SCHEDULE.**

Please note that if the County decides to add roof insulation, the scope/costs to raise existing piping and HVAC equipment, will be done at the expense of the County.

2. All Bidders need to use the included **REVISED -SECTION 8-BID PRICING & SCHEDULE PAGE (ATTACHED)** and *Bid on all Options.*
3. Bidders to provide/assume new walk pads, in their base bids, around the existing mechanical units. Bidders are to provide a unit price for additional walk pads, if the County chooses to add more.
