Re: Winnebago County Board of Review Reappointments

Dear Chairman Chiarelli,

I am writing to state my support for the reappointments of Jay Dowthard and Pamela Cunningham to the Winnebago County Board of Review to a two year term beginning in May, 2023. Both Mr. Dowthard and Ms. Cunningham have exhibited the qualities necessary to provide the taxpayers of Winnebago County an unbiased and data driven review of their property tax assessments and have played an integral role in the timely completion of the property tax cycle.

As we begin the 2023 General Assessment Year, it is imperative that the Board of Review is comprised of experienced individuals who are well versed in the processes and procedures that guide and instruct their workflow which allows for an efficient and effective property assessment review at the local level. I am confident that both Mr. Dowthard and Ms. Cunningham have shown that they meet this criteria.

While this letter does not intend to directly address or support any individual decisions that have been rendered by the Board of Review, I do want to emphasize that both candidates have shown the requisite skills needed in order to analyze evidence equitably and uniformly and are both deserving of reappointment.

Should you have any questions or need anything additional, please do not hesitate to contact me.

Sincerely,

Tom Hodges

INTRODUCTION

Winnebago County Government operates on policies designed to protect the County's assets and taxpayers' interests, provide guidance to employees, and serve the public efficiently. It is the intent that the policy statements be used to avoid conflicting goals or activities, which may have a negative impact on the overall financial position of the County. The County's system of internal accounting controls is designed to provide reasonable assurance that the financial records are reliable for preparing financial statements and maintaining accountability for assets and obligations.

The County's budget process is governed by Illinois Compiled Statutes (55 ILCS 5/6) and Winnebago County Board Policies (Sec. 2-38 Winnebago County Code of Ordinances). All operating funds (those funds that are presented in the County's Annual Comprehensive Financial Report) are appropriated in the "Official Budget". Appropriations will be considered the maximum authorization to incur obligations and not a mandate to spend.

In addressing concerns for maintaining financial strength while protecting the interest of the taxpayer, the County Board is implementing the following directives for the development of the fiscal year 2024 budget.

ACCOUNTING BASIS

Governmental Funds

The County prepares financial statements based on the modified accrual basis of accounting for all governmental funds in which the revenues are recorded when both measurable and available. The County considers revenue to be available if they are collected within 60 days of the end of the current fiscal period for property taxes, 180 days of the end of the current fiscal policy for certain health department and County reimbursable grants and 90 days of the end of the current period for all other amounts.

Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on long-term debt, claims, judgments, compensated absences and pension expenditures, which are recorded as a fund liability when expected to be paid with expendable available financial resources.

Proprietary Funds

The County has two proprietary funds. Expenditures for these funds are budgeted on a full accrual basis of accounting. As such, expenses are recognized when incurred and revenues are recognized when they are obligated to the County.

Under both methods of accounting, Generally Accepted Accounting Principles (GAAP) prescribe that purchases are required to be accounted for in the fiscal year in which the item is received or the service performed. Items ordered or services performed late in the fiscal year and not received or completed by the end of the fiscal year will be applied to the budget of the following year.

BUDGETARY PRIORITIES

Direction is hereby given to the County Administrator and the Chief Financial Officer to create the fiscal year 2024 budget with the following priorities:

1. Debt service payments required
2. Contractual payments based on lease agreements, software agreements and other contractual agreements
3. Mandated services at affordable funding levels
4. All operating necessities (Utilities, IMRF, Health Insurance, Liability Insurance)
5. General operating costs to provide services
6. Non-Union employee compensation
7. Capital needs of the organization
8. Meeting the 25% unrestricted reserve requirement of the General Fund and PSST Fund (See Fund Reserves and Balanced Budgets Section)
9. Outside agency funding to include non-obligated Host Fee Grants and local matching grants

FUND RESERVES AND BALANCED BUDGETS

The intent of the Finance Committee is the budget must balance expenditures against available revenues and fund balance by fund. Special revenue fund expenditure budgets cannot exceed available fund balance of the fund. Special revenue funds with a negative fund balance will not be allowed to submit an expenditure budget until the negative fund balance has been eliminated.

The County has developed a fund reserve policy in which it shall be the intent of the County Board to maintain an unrestricted (total of unassigned) fund balance equal to three months of budgeted operating expenditures in the General Fund and the Public Safety Sales Tax Fund. Surpluses in excess of the necessary reserve required by this policy shall be transferred to the Capital Projects Fund. In addition, it is the intent of the County Board to maintain an unrestricted fund balance equal to three months of budgeted operating expenditures in the River Bluff Nursing Home fund.

BUDGET SUBMITTAL AND PRESENTATION PROCESS

Elected Officials and Department Heads shall be provided budget worksheets with existing levels of funding. Based on revenue estimates for the current and next fiscal year, funding levels may be reduced from the current year's appropriations. Elected Officials and Department Heads are encouraged to analyze all services and programs for the cost of the programs, citizen demand, and mandates by Federal, State or County law.

Exceptions may be considered by the County Administrator and the Chief Financial Officer on a case-by-case basis.

When an Elected Official/Department Head has completed the required budget forms, a meeting can be scheduled (if necessary) with the County Administrator and Chief Financial Officer to review and ensure budget policy compliance. Concerns and/or issues should be addressed by the Department Head/Elected Official at this time. Any resulting changes to submitted budgets will be communicated to the Finance Office for system entry and review. Upon review by County Administrator and Chief Financial Officer, the budget will be scheduled for presentation to the Finance Committee per the attached budget calendar. Meetings will be scheduled with the Finance Committee (if necessary) for individual departments/Elected Officials to address the Finance Committee regarding their individual budget requests.

Prior to the date the County Board places the budget on layover for public review, the Elected Official/Department Head will be required to review the budget as entered in the financial system and sign off that all entered information is correct.

Once the Finance Committee has reviewed departmental budgets, and the recommended supplemental requests have been approved, the budget is moved to the whole board to be placed on public display for a minimum of fifteen (15) days prior to final approval.

The Chief Financial Officer and the County Administrator during the normal course of the budget preparation process may make budget revisions prior to the final board approval of the budget. It should be noted that proposed budget revisions made after the first reading but before final passage shall be documented and presented to the County Board for approval as part of the final budget approval.

New for FY2024, Elected Official/Department Heads will be required to submit a five-year plan for capital improvements. Guidelines for these budgets are on page 7.

REVENUE ESTIMATIONS

The County will project annual revenues on a conservative analytical basis to protect it from short-run fluctuations in any one revenue source. In instances where the County is providing non-mandated services and the revenue stream(s) is/are not covering the costs of said services, direction will be requested by County Administration from the reporting Liaison Committee (and if necessary, the full County Board) on whether said service should be allowed to continue and supplemented with County funds.

Property Tax Assumptions: Winnebago County is mandated to follow the Illinois Property Tax Extension Limitation Law (PTELL) by the State of Illinois. PTELL allows governing bodies the ability to cover the costs of inflationary increases incurred in their day-to-day operations by increasing their previous year's extension by the CPI or 5%, whichever is smallest. For fiscal year 2024 the CPI is 5.0%. During the budget process, County Administration will present the increases available if the County Board chooses to capture new growth and/or to utilize the CPI increase authorized under PTELL in the calculation of property tax revenues when developing the fiscal year 2024 budget. The Finance Committee will inform the Chief Financial Officer of the amount of the levy to include in the budget document.

User Fees and Charges: All user fees and charges should be reviewed by County Administration, Elected Officials and Appointed Department Heads on an annual basis to ensure the fee collected is covering the cost of service provided (subject to State Statutes).

The County charges user fees for items and services which benefit a specific user more than the general public. State statutes or an indirect cost study determines user fees. Fee studies based on costs are conducted as needed to determine the level of fees needed to equal the total cost of providing the service.

Other FY2024 Revenue Assumptions:

- Nonrecurring (one-time) revenue sources will be used for operations unless directed for a specific use by the County Board.
- Cannabis Sales and Excise Taxes support the General Fund.
- All gaming-related revenue, including off-track betting, casino, and video gaming revenues, support the Capital Projects Fund.
- Sale of assets support the Capital Projects Fund.
- New funding sources with a restricted purpose will be reviewed by the County Board to ensure appropriate usage at the department level. Additionally, these funding sources will be identified by a designated project number to meet reporting requirements by the funding agency.

EXPENSE ESTIMATIONS

Salary and Wage Estimates: Each department will be provided a budget document outlining the employees of the department with their rate of pay as of the date of the preparation of the document. It is the responsibility of the department to review the list including the position titles and employment status (FT, PT or seasonal). The department shall budget for any contractual obligations as outlined in respective bargaining contracts for the upcoming year. The department should include any vacant positions that are not included on the list if the intent is to fill that position in the upcoming year.

The Finance Committee will provide the County Administrator the non-union employee wage increase rate to include in the budget document. The Finance Committee will make a recommendation no later than the 1st Finance Committee meeting in June. Non-bargaining employees are eligible to receive the one-percent longevity pay in accordance with County policy and this should be included in the development of the salary and wage budgets.

Employees transferring from one County department to another will be allowed to retain their accrued vacation upon transfer. The new department will assume the liability should the employee terminate their employment while employed by said department.

Grant Budgets: Each department should submit a separate budget document for ongoing grant awards by the project (award) number. Grant revenue estimates should equal grant expenditure estimates for reimbursement-based grants. Grant award performance periods may not align with the County's fiscal year. In such cases, the department should estimate to the best of their ability the expenses that will be incurred for the grant program during the County's fiscal year. Grant budgets should include all applicable expenses as defined in the grant award and approved grant budget.

New grant awards will be budgeted at the time the County Board accepts the award. See further details in the Grant Policy and Grant Procedures documents.

Other FY2024 Expense Assumptions:

- In the event of loss of Federal or State funding and/or reimbursement for specific services, it is understood that Department/Elected Official will be expected to either reduce funded services or identify other reductions/revenue increases to offset the losses. Exceptions will be addressed on a case-by-case basis.
- Contractual obligations should be included in the budget request and, if applicable, noted as a supplemental request.
- Equipment needs and repairs that do not meet the criteria of a capital request as defined below should be included in the departmental operating budgets.
- All appropriations that have not been expended or appropriated to ongoing capital improvement projects shall lapse at the end of the fiscal year.

CAPITAL IMPROVEMENT PROJECTS (CIP) PLANNING AND BUDGETS

The CIP budgets are necessary to provide adequate consideration of the County's short-term and long-term needs and strategic goals and evaluate the options and timing availability of funds to address those needs. As noted in the Revenue Estimate section of this document, the CIP Fund will be funded through Gaming revenue, sale of assets and excess funds in the General and PSST funds. CIP includes major construction, expansion, purchase or major repair of buildings and other physical structures. CIP may also include fleet and equipment replacement needs. Per the County asset policy, capital projects should have a component value greater than \$12,000 and should have a useful life greater than three to five years. CIP does not include highway department projects or equipment funded by grant or other funding sources.

Each Department Head/Elected Official will submit a list of capital needs for the next five years on the document provided for capital requests. Requested projects should be prioritized by the departments. The requesting department should note the need for funding of the project. In addition to the cost of completing the project, the department should identify any costs to operate and maintain the asset over its useful life. These additional expenses would need to be included in the department's operating budget.

Only projects included in the first year of the plan will be considered for approval and funding. Projects presented for future years are shown for planning purposes only. Funding for a capital plan will be reviewed in conjunction with the annual budget. **Submission of capital needs does not guarantee funding.**

Approved CIP projects will be appropriated in the Capital Projects Improvement Fund. County Administration has developed a team consisting of the County Administrator, Chief Financial Officer and representatives from Finance, Purchasing, Facilities, IT and the Sheriff. This team will meet regularly to review and discuss the progress of approved projects.

Capital project appropriations, unlike operating budget appropriations, are typically one-time in nature and the project may take multiple years to complete. Budgetary control for these projects will be at the fund and project level which differs from operating budgets. Due to the fact that capital projects may cross fiscal years, the County Administrator/Chief Financial Officer will have the authority to rollover available project balances to the next fiscal year during the budget preparation process. Each previously approved project will be reviewed with department heads prior to the calculation of the rollover amount. Factors Administration will consider when

calculating the rollover amount would include the timing of any remaining payments and estimated completion percentage. The current year estimated actuals plus any amounts included in the rollover budget will not exceed the amount of the original approved project budget. Administration will not rollover any capital project funds which have not had activity for two fiscal years. A listing of project budgets that are to be rolled over will be reviewed by the aforementioned Administration team and included in the final budget package as presented to the County Board.

CIP appropriations funding projects belonging to the two Enterprise Funds will be budgeted in those respective funds in order to properly track assets according to GAAP and financial reporting. Approval of CIP projects related to these funds will require a budget amendment including a plan to transfer funds from the CIP fund to the Enterprise fund and expenditures for the project in the Enterprise fund. Actual transfers will only be recorded by Finance as related projects are completed.

BUDGET AMENDMENT PROCESS (AFTER ADOPTION BY THE BOARD):

All requests for budget amendments must start with a completed Budget Amendment Form (available upon request from Finance) submitted to the Chief Financial Officer, who upon review, will work with the requesting department head in preparing an ordinance (if required) in the County Board approved format for committee and board presentation.

- The County Board must approve all transfers of budgets between departments or funds by a 2/3rd majority vote (14) of the County Board. (Transfers may not be made from certain special purpose funds to other funds).
- Additional (emergency) appropriations must also be approved by a 2/3rd majority vote (14) of the County Board.
- Budgetary control over expenditures exists at the object-class-level (character code). Line item transfers between object-class-level (character code) or object codes may be requested by the department and approved by the Chief Financial Officer, provided the total amount appropriated by the County Board for the respective department (org code) is not exceeded.

FINANCIAL POLICIES

The following pages include financial policies that have been approved by the County Board. These policies should be considered in addition to the Budget Development Guidelines in completion of budgets.

FISCAL YEAR

The County's fiscal year is October 1st through September 30th. (Set by County Board per 55 ILCS 5/6-1-001).

ACCOUNTING/ AUDITING

State statutes require an annual audit by independent certified public accountants (55 ILCS 5/6-31003). An Annual Comprehensive Financial Report shall be prepared according to the criteria set by the Government Finance Officers Association (GFOA). The County follows Generally Accepted Accounting Principles (GAAP) as set forth by the Governmental Accounting Standards Board (GASB).

ACCOUNTING AND FINANCIAL REPORTING POLICIES

The accounting policies of the County of Winnebago, Illinois will conform to generally accepted accounting principles as applicable to governmental units. The accepted standard-setting body for establishing governmental accounting and financial reporting principles is the Governmental Accounting Standards Board (GASB). It shall be the intent of the County to maintain a self-balancing set of accounts on an on-going basis to be closed quarterly. The general ledger will be closed by the Finance department no later than 45 days after month end. The books shall remain open 90 days after the fiscal year end.

It shall be the intent of the County to maintain a program of internal controls to safeguard all assets and ensure effective and efficient use of all assets. It shall be the responsibility of the Finance Director to establish a formal set of "best practice" internal controls. In addition, the County Auditor shall ensure that all departments comply with those controls.

It shall also be the intent for the independent auditor to review the system of internal controls and report any weaknesses detected to the Board as part of the annual audit.

It shall be the intent of the County to utilize fund accounting principles and generally accepted accounting practices in the recording of all financial transactions. The general ledger shall be maintained on a cash basis, with the intent to move to an accrual basis on a quarterly basis. The Finance Committee will be provided with budget versus actual revenue and expenditure reports on a quarterly basis.

It shall be the intent of the County to prepare annually an Annual Comprehensive Financial Report to be presented to the Board no later than 180 days after year-end. The Annual Comprehensive Financial Report should be audited by an independent CPA firm experienced in governmental auditing. It shall be the further intent of the County to present its Annual Comprehensive Financial Report to the Government Finance Officers Association to receive the Certificate of Excellence award in financial reporting. If at any time the County will not receive an unqualified opinion from the CPA firm, the CPA firm and the Finance Director will notify the Board prior to the issuance of the report.

It shall be the intent of the County to maintain a capital asset ledger of all permanent assets acquired. The Finance department will maintain these asset records on an on-going basis to ensure proper controls and report annually regarding these records to the Board. No asset will be considered fixed unless its value or component value exceeds \$12,000 dollars or in the case of infrastructure assets purchased or acquired with an original cost of \$50,000 or more.

Depreciation will be charged on all capital assets. This policy is consistent with the requirements of GASB Statement No. 34. Depreciation will be recorded on a straight-line basis over the normal useful life of the asset.

It shall be the intent of the County to manage all accounts receivable. Accounts receivable are created by operations in certain departments and offices. In general, they arise at the renewal of a permit or license from departments such as Health, River Bluff Nursing Home or Transportation. The department or office that is responsible for the billing is responsible for collections and managing receivables. Consistent with good financial management, each department and office will age their receivables. Departments and Offices shall continue collection efforts.

The Finance department remits vendor payments on a regular schedule twice a month. Vendor payments are released by the County Clerk's office per the defined schedule. Emergency requests for payment are considered

on a case-by-case basis. All remittances will be mailed unless there is a business purpose requiring a department to obtain the check at which time a release form will need to be signed.

It is the intent of the County to comply with the modified accrual basis of accounting, in which revenues are recorded when they are both measurable and available. The County considers revenue to be available if they are collected within 60 days of the end of the current fiscal period for property taxes, 180 days of the end of the current fiscal period for certain health department and County reimbursable grants, and 90 days of the end of the current fiscal period for all other amounts.

GRANTS

The purpose of this policy is to ensure that all grant-funded programs or projects are managed according to the terms set forth in the grant agreement, Winnebago County Grant Administration Policies and Procedures and other applicable County policies and procedures. To inform the County Board of the value of a new grant program, the Board must have full knowledge of the total cost and/or impact of the program and its funding sources. It is a requirement that departments administering grants are familiar with the grant administration policies and procedures; in addition to individual grant requirements.

A grant is an amount of money that a government or other institution gives to an individual or to an organization for a particular purpose.

The following should be considered when applying for, accepting, and/or managing grant awards:

The County Board's definition of a conflicting special condition is:

- A new grant is a grant awarded for a purpose that has not been previously supported by grant funding.
- Grant Award Agreement Federal/State/Local compliance requirements.
- If Indirect Costs are allowable, all new grant application budgets should include the County's 10% de minimis indirect cost rate. If not included, the explanation shall be included in the Grant Summary Worksheet.
- Departments who apply for grants that require a local match must find the local match within their budgets.
- Departments who apply for new grants must understand the special conditions associated with their funding and inform the County Board of the conditions in the Resolution, prior to approval. Upon Board acceptance and approval, the County Board Administration Staff will log each special condition into the Special Conditions System of Register.
 - The County Board's definition of a conflicting special condition is any special condition of funding (outside of standard state/federal conditions) that may prohibit another department's ability to apply for funding.

- Upon notification of a grant award (new or renewal), departments will submit to the respective Committee:
 - Executive Summary and Resolution,
 - Original Grant Award Agreement,
 - Winnebago County Grant Summary Worksheet,
 - And any relevant attachments to the respective Committee.

Upon Committee approval, departments will submit a budget amendment to the Chief Financial Officer to amend the respective budget. A 2/3rd vote of all members constituting the County Board is required to amend department budgets to reflect grant revenues and expenses (55 ILCS 5/6-1003).

- Grants will be controlled at the operating budget level based on the County's fiscal year.
- The grant budget will be periodically reviewed by the designated Grant Managers to ensure that the revenues and expenditures are consistent with the grant award's allowable costs.
- Designated Grant Managers will inform Finance Director of identified sub-award/sub-recipients.
- Grants will be reviewed quarterly, as needed, by the Grant Compliance Officer or Finance Director with the Department Head, Elected Official, or designated Grant Managers.

INTRODUCTION

Winnebago County Government operates on policies designed to protect the County's assets and taxpayers' interests, provide guidance to employees, and serve the public efficiently. It is the intent that the policy statements be used to avoid conflicting goals or activities, which may have a negative impact on the overall financial position of the County. The County's system of internal accounting controls is designed to provide reasonable assurance that the financial records are reliable for preparing financial statements and maintaining accountability for assets and obligations.

The County's budget process is governed by Illinois Compiled Statutes (55 ILCS 5/6) and Winnebago County Board Policies ([Sec. 2-38 Winnebago County Code of Ordinances](#)). All operating funds (those funds that are presented in the County's Annual Comprehensive Financial Report) are appropriated in the "Official Budget". Appropriations will be considered the maximum authorization to incur obligations and not a mandate to spend.

In addressing concerns for maintaining financial strength while protecting the interest of the taxpayer, the County Board is implementing the following directives for the development of the fiscal year 2024 budget.

ACCOUNTING BASIS

Governmental Funds

The County prepares financial statements based on the modified accrual basis of accounting for all governmental funds in which the revenues are recorded when both measurable and available. The County considers revenue to be available if they are collected within 60 days of the end of the current fiscal period for property taxes, 180 days of the end of the current fiscal policy for certain health department and County reimbursable grants and 90 days of the end of the current period for all other amounts.

Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on long-term debt, claims, judgments, compensated absences and pension expenditures, which are recorded as a fund liability when expected to be paid with expendable available financial resources.

Proprietary Funds

The County has two proprietary funds. Expenditures for these funds are budgeted on a full accrual basis of accounting. As such, expenses are recognized when incurred and revenues are recognized when they are obligated to the County.

Under both methods of accounting, Generally Accepted Accounting Principles (GAAP) prescribe that purchases are required to be accounted for in the fiscal year in which the item is received or the service performed. Items ordered or services performed late in the fiscal year and not received or completed by the end of the fiscal year will be applied to the budget of the following year.

BUDGETARY PRIORITIES

Direction is hereby given to the County Administrator and the Chief Financial Officer to create the fiscal year 2024 budget with the following priorities:

1. Debt service payments required
2. Contractual payments based on lease agreements, software agreements and other contractual agreements
3. Mandated services at affordable funding levels
4. All operating necessities (Utilities, IMRF, Health Insurance, Liability Insurance)
5. General operating costs to provide services
6. Non-Union employee compensation
7. Capital needs of the organization
8. Meeting the 25% unrestricted reserve requirement of the General Fund and PSST Fund (See Fund Reserves and Balanced Budgets Section)
9. Outside agency funding to include non-obligated Host Fee Grants and local matching grants

FUND RESERVES AND BALANCED BUDGETS

The intent of the Finance Committee is the budget must balance expenditures against available revenues and fund balance by fund. Special revenue fund expenditure budgets cannot exceed available fund balance of the fund. Special revenue funds with a negative fund balance will not be allowed to submit an expenditure budget until the negative fund balance has been eliminated.

The County has developed a fund reserve policy in which it shall be the intent of the County Board to maintain an unrestricted (total of unassigned) fund balance equal to three months of budgeted operating expenditures in the General Fund and the Public Safety Sales Tax Fund. Surpluses in excess of the necessary reserve required by this policy shall be transferred to the Capital Projects Fund. In addition, it is the intent of the County Board to maintain an unrestricted fund balance equal to three months of budgeted operating expenditures in the River Bluff Nursing Home fund.

BUDGET SUBMITTAL AND PRESENTATION PROCESS

Elected Officials and Department Heads shall be provided budget worksheets with existing levels of funding. Based on revenue estimates for the current and next fiscal year, funding levels may be reduced from the current year's appropriations. Elected Officials and Department Heads are encouraged to analyze all services and programs for the cost of the programs, citizen demand, and mandates by Federal, State or County law.

Deleted: Given the impact of the COVID-19 in fiscal year 2021 and 2022 fund balances have dropped below the 90 day (3 month) reserve level in the Public Safety Sales Tax Fund. It should be the objective of the 2023 Budget Policy to increase the fund balance back to the 90 day reserve level.¶

FINANCIAL STRENGTH¶

The County has been significantly impacted financially by the COVID-19 crisis. Revenues have been impacted by business closings, unemployment and other factors. The balances in the General Fund are above the 90 day reserve amount in fiscal year 2022.¶

The County will project annual revenues on a conservative analytical basis to protect it from short-run fluctuations in any one revenue source. In instances where the County is providing non-mandated services and the revenue stream(s) is/are not covering the costs of said services, direction will be requested by County Administration from the reporting Liaison Committee (and if necessary, the full County Board) on whether said service should be allowed to continue and supplemented with County funds.

Property Tax Assumptions: Winnebago County is mandated to follow the Illinois Property Tax Extension Limitation Law (PTELL) by the State of Illinois. PTELL allows governing bodies the ability to cover the costs of inflationary increases incurred in their day-to-day operations by increasing their previous year's extension by the CPI or 5%, whichever is smallest. For fiscal year 2024 the CPI is 5.0%. During the budget process, County Administration will present the increases available if the County Board chooses to capture new growth and/or to utilize the CPI increase authorized under PTELL in the calculation of property tax revenues when developing the fiscal year 2024 budget. The Finance Committee will inform the Chief Financial Officer of the amount of the levy to include in the budget document.

User Fees and Charges: All user fees and charges should be reviewed by County Administration, Elected Officials and Appointed Department Heads on an annual basis to ensure the fee collected is covering the cost of service provided (subject to State Statutes).

The County charges user fees for items and services which benefit a specific user more than the general public. State statutes or an indirect cost study determines user fees. Fee studies based on costs are conducted as needed to determine the level of fees needed to equal the total cost of providing the service.

Other FY2024 Revenue Assumptions:

- Nonrecurring (one-time) revenue sources will be used for operations unless directed for a specific use by the County Board.
- Cannabis Sales and Excise Taxes support the General Fund.
- All gaming-related revenue, including off-track betting, casino, and video gaming revenues, support the Capital Projects Fund.
- Sale of assets support the Capital Projects Fund.
- New funding sources with a restricted purpose will be reviewed by the County Board to ensure appropriate usage at the department level. Additionally, these funding sources will be identified by a designated project number to meet reporting requirements by the funding agency.

EXPENSE ESTIMATIONS

Salary and Wage Estimates: Each department will be provided a budget document outlining the employees of the department with their rate of pay as of the date of the preparation of the document. It is the responsibility of the department to review the list including the position titles and employment status (FT, PT or seasonal). The department shall budget for any contractual obligations as outlined in respective bargaining contracts for the upcoming year. The department should include any vacant positions that are not included on the list if the intent is to fill that position in the upcoming year.

The Finance Committee will provide the County Administrator the non-union employee wage increase rate to include in the budget document. The Finance Committee will make a recommendation no later than the 1st Finance Committee meeting in June. Non-bargaining employees are eligible to receive the one-percent longevity pay in accordance with County policy and this should be included in the development of the salary and wage budgets.

Employees transferring from one County department to another will be allowed to retain their accrued vacation upon transfer. The new department will assume the liability should the employee terminate their employment while employed by said department.

Grant Budgets: Each department should submit a separate budget document for ongoing grant awards by the project (award) number. Grant revenue estimates should equal grant expenditure estimates for reimbursement-based grants. Grant award performance periods may not align with the County's fiscal year. In such cases, the department should estimate to the best of their ability the expenses that will be incurred for the grant program during the County's fiscal year. Grant budgets should include all applicable expenses as defined in the grant award and approved grant budget.

Formatted: No underline

New grant awards will be budgeted at the time the County Board accepts the award. See further details in the Grant Policy and Grant Procedures documents.

Other FY2024 Expense Assumptions:

- In the event of loss of Federal or State funding and/or reimbursement for specific services, it is understood that Department/Elected Official will be expected to either reduce funded services or identify other reductions/revenue increases to offset the losses. Exceptions will be addressed on a case-by-case basis.
- Contractual obligations should be included in the budget request and, if applicable, noted as a supplemental request.
- Equipment needs and repairs that do not meet the criteria of a capital request as defined below should be included in the departmental operating budgets.
- All appropriations that have not been expended or appropriated to ongoing capital improvement projects shall lapse at the end of the fiscal year.

CAPITAL IMPROVEMENT PROJECTS (CIP) PLANNING AND BUDGETS

The CIP budgets are necessary to provide adequate consideration of the County's short-term and long-term needs and strategic goals and evaluate the options and timing availability of funds to address those needs. As noted in the Revenue Estimate section of this document, the CIP Fund will be funded through Gaming revenue, sale of assets and excess funds in the General and PSST funds. CIP includes major construction, expansion, purchase or major repair of buildings and other physical structures. CIP may also include fleet and equipment replacement needs. Per the County asset policy, capital projects should have a component value greater than \$12,000 and should have a useful life greater than three to five years. CIP does not include highway department projects or equipment funded by grant or other funding sources.

Each Department Head/Elected Official will submit a list of capital needs for the next five years on the document provided for capital requests. Requested projects should be prioritized by the departments. The requesting department should note the need for funding of the project. In addition to the cost of completing the project, the department should identify any costs to operate and maintain the asset over its useful life. These additional expenses would need to be included in the department's operating budget.

Only projects included in the first year of the plan will be considered for approval and funding. Projects presented for future years are shown for planning purposes only. Funding for a capital plan will be reviewed in conjunction with the annual budget. Submittal of capital needs does not guarantee funding.

Approved CIP projects will be appropriated in the Capital Projects Improvement Fund. County Administration has developed a team consisting of the County Administrator, Chief Financial Officer and representatives from Finance, Purchasing, Facilities, IT and the Sheriff. This team will meet regularly to review and discuss the progress of approved projects.

Capital project appropriations, unlike operating budget appropriations, are typically one-time in nature and the project may take multiple years to complete. Budgetary control for these projects will be at the fund and project level which differs from operating budgets. Due to the fact that capital projects may cross fiscal years, the County Administrator/Chief Financial Officer will have the authority to rollover available project balances to the next fiscal year during the budget preparation process. Each previously approved project will be reviewed with department heads prior to the calculation of the rollover amount. Factors Administration will consider when

calculating the rollover amount would include the timing of any remaining payments and estimated completion percentage. The current year estimated actuals plus any amounts included in the rollover budget will not exceed the amount of the original approved project budget. Administration will not rollover any capital project funds which have not had activity for two fiscal years. A listing of project budgets that are to be rolled over will be reviewed by the aforementioned Administration team and included in the final budget package as presented to the County Board.

CIP appropriations funding projects belonging to the two Enterprise Funds will be budgeted in those respective funds in order to properly track assets according to GAAP and financial reporting. Approval of CIP projects related to these funds will require a budget amendment including a plan to transfer funds from the CIP fund to the Enterprise fund and expenditures for the project in the Enterprise fund. Actual transfers will only be recorded by Finance as related projects are completed.

BUDGET AMENDMENT PROCESS (AFTER ADOPTION BY THE BOARD):

All requests for budget amendments must start with a completed Budget Amendment Form (available upon request from Finance) submitted to the Chief Financial Officer, who upon review, will work with the requesting department head in preparing an ordinance (if required) in the County Board approved format for committee and board presentation.

- The County Board must approve all transfers of budgets between departments or funds by a 2/3rd majority vote (14) of the County Board. (Transfers may not be made from certain special purpose funds to other funds).
- Additional (emergency) appropriations must also be approved by a 2/3rd majority vote (14) of the County Board.
- Budgetary control over expenditures exists at the object-class-level (character code). Line item transfers between object-class-level (character code) or object codes may be requested by the department and approved by the Chief Financial Officer, provided the total amount appropriated by the County Board for the respective department (org code) is not exceeded.

FINANCIAL POLICIES

The following pages include financial policies that have been approved by the County Board. These policies should be considered in addition to the Budget Development Guidelines in completion of budgets.

ACCOUNTING AND FINANCIAL REPORTING POLICIES

Formatted: Font: 11 pt

The accounting policies of the County of Winnebago, Illinois will conform to generally accepted accounting principles as applicable to governmental units. The accepted standard-setting body for establishing governmental accounting and financial reporting principles is the Governmental Accounting Standards Board (GASB). It shall also be the intent for the independent auditor to review the system of internal controls and report any weaknesses detected to the Board as part of the annual audit.

It shall be the intent of the County to utilize fund accounting principles and generally accepted accounting practices in the recording of all financial transactions. It shall be the intent of the County to maintain a capital asset ledger of all permanent assets acquired. The Finance department will maintain these asset records on an on-going basis to ensure proper controls and report annually regarding these records to the Board. No asset will be considered fixed unless its value or component value exceeds \$12,000 dollars or in the case of infrastructure assets purchased or acquired with an original cost of \$50,000 or more.

It is the intent of the County to comply with the modified accrual basis of accounting, in which revenues are recorded when they are both measurable and available. The County considers revenue to be available if they are collected within 60 days of the end of the current fiscal period for property taxes, 180 days of the end of the current fiscal period for certain health department and County reimbursable grants, and 90 days of the end of the current fiscal period for all other amounts.

Memorandum

Date: March, 23, 2023

To: County Chairman, Joseph Chiarelli & County Administrator, Patrick Thompson

From: Supervisor of Assessments, Tom Hodges

Re: Compensation Adjustment for Supervisor of Assessments

Please let this memo serve as a humble request to the Winnebago County Board to review and adjust the salary allocated to the position of Supervisor of Assessments in order to ensure that it is equitable with other Chief County Assessment Officers (CCAO) in similar jurisdictions throughout the State of Illinois. One item to note is that pursuant to Section 3-40 of the Illinois Property Tax Code, 50% of the salary for the position in question is reimbursed monthly by the State of Illinois as long as certain metrics are achieved¹.

Winnebago County, according to the 2020 census, is the 7th most populous county in the State of Illinois. Currently, the salary of the Winnebago County Supervisor of Assessments is ranked 20th³ in the State of Illinois. When viewing the salary per resident of the ten most similar counties based on population (5 larger & 5 smaller), the median salary per resident is \$0.40. This would equate to an annual salary of \$114,188.

I respectfully request that the Winnebago County Board set the annual salary for the Supervisor of Assessments to \$114,188 with future increases that reflect those increases given to other non-bargaining County Employees. This would result in a County expenditure increase of \$10,275.93 (\$46,818.07 to \$57,094) and would allow the County to leverage the State's reimbursement funds to pay a competitive wage in relation to similarly sized jurisdictions.

¹Level of Assessments as determined by the Illinois Department of Revenue is between 31 1/3% & 35 1/3%

March 10, 2023

Chairman Chiarelli,

Thank you, and the Winnebago County Board, for taking into consideration a stipend, to be paid, to the Regional Superintendent and Assistant Superintendent of Schools.

In consideration of this, I would ask the board to consider the following:

- Our Regional Office of Education is one of the largest in the state in relation to the amount of students we serve in our region (13 public school districts and over 50,000 students) with additional support to our non-public schools.
- We have one of the largest staffs in the state (nearing 100).
- We have the largest alternative school program in the state (serving 300+ at risk students).
- We have one of the largest teams in the state serving students that are truant (supporting over 700 students and families).
- We annually help secure bus driver permits for over 600 drivers
- We fingerprint approximately 1,700 school employees or support staff a year.
- We increased our professional development support to our community by over 10% from the previous year (over 2,500 participants) and we will serve more this year.
- We annually inspect 111 buildings for fire and health life safety code violations.
- We have provided building permits to over 50 projects totaling nearly \$120,000,000 in construction projects in FY 23.
- We lead a region wide Social Emotional Support initiative from the State Board of Education encompassing 7 Regional Offices of Education for Northwest Illinois.
- In addition, we offer more services and supports.

As a Regional Office we have not asked for an increase in our budget from the County Board in over 6 years. We have made cuts to personnel and become more efficient. To this end, in addition to the regular duties these two positions have in leading an organization and a staff our size, we have taken on the extra duties as technology support, Health Life Safety coordinator, compliance audits, permit applications, and director of the regional SEL work as described above.

The base pay for all regional superintendents of the state is paid by the Illinois State Board of Education (105 ILCS 5/3-2.5). The statute goes on to state at the end of subsection (a) that the Regional Superintendent's respective County Board may provide additional compensation. This is precisely what many County Boards have done for their Regional Superintendents.

As proposed to Mr. Thompson in our discussions over the last few years, this stipend can be paid with the current budget the County Board has allocated. There would be no need for extra funding or even a budget amendment.

I was asked to research a fair amount for the stipend and it ranged in a variety of amounts but the common amount was that many are paid a stipend similar to comparable positions within the County Government. In looking at the published salaries in the County, I believe what has been requested is fair.

Lastly, as presented in the resolution created by the States Attorney's office, the annual stipend would always be subject to available funds within the Board approved budget. This is a protection for the County Board to know our intention would not receive the stipend one year then ask for a large increase to sustain it in the future. Any additional funding for our budget would be tied to specific needs or staffing NOT connected with the roles and responsibilities we carry in our local office.

In summary I believe the County Board should support this for the following reasons:

- We are a leading Regional Office of Education providing some of the highest quality and quantity of support to our schools in the state,
- School Code clearly allows this as an option,
- We have provided a proposal with checks and balances in it to protect the County Budget in the future,
- And we can and will fund it with the already approved budget with no additions or amendments needed.

For further information on the work we provide, I have included a link to our annual report to help get a picture of the service we provide.

As such, if a scheduled go-live date is rescheduled due to delays by the client or a client's 3rd party vendor, a penalty of 10% of the total first year costs may be assessed by Karpel Solutions as compensation to Karpel Solutions for costs incurred and lost time, including, but not limited to, costs associated with booked travel and accommodations and time that will be lost on other client start dates as a result of Client's change to the Project Timeline.

6. Karpel Solutions will honor pricing proposals for Optional Services for up to 90 days of execution of this Agreement. Upon the request of Client to provide an Optional Service, an official notice to begin the service must be received from Client before the Optional Services will be provided by Karpel Solutions. If the Client's storage exceeds 2TB in any instance, any additional storage above 2TB will automatically be added to the Client's bill at a flat rate of \$1,000 per 1TB, per year. Client hereby consents to this additional charge in advance and waives any requirement for additional notice regarding the same.
8. Hosted eDiscovery services will be invoiced monthly at the rate of \$1 per submission to the hosted eDiscovery site if Client does not elect the unlimited annual fee option.
9. Statewide service is a free service provided to all PROSECUTORbyKarpel clients. To enroll in and activate this additional service, the *Memorandum Of Understanding at Appendix A* must be separately signed by the Client.

Proposal to Utilize Emergency Rental Assistance Budget for Very Low-Income Housing in Winnebago County, Illinois

The Winnebago County Emergency Rental Assistance Program (WCERA 1) expended all of the \$8,376,029 awarded by the Treasury for the first round of emergency rental assistance as of September 30, 2022, including a reallocation by the Treasury in the amount of \$70,961. As per the award, at least 90 percent of the award was to be used for low-income rental and utility assistance to those impacted by the COVID-19 outbreak, and not more than 10 percent was to be used for administrative costs attributable to providing financial assistance and housing stability services to eligible households. The final distribution of WCERA 1 funds resulted in 91.19 percent (\$7,702,448) expended for rental and utility assistance, and 8.81 percent (\$744,766) for the administration of the WCERA 1 program.

The second round of funding provided by the Treasury for the Winnebago County Emergency Rental Assistance Program (WCERA 2) required that at least 85 percent of the awarded amount of \$6,627,599 was to be used for low-income rental and utility assistance to those impacted by the coronavirus pandemic, and not more than 15 percent to be used for administrative costs attributable to providing financial assistance, housing stability services, and other affordable rental housing and eviction prevention activities. As of December 31, 2022, 91.61 percent (\$6,071,835) has been expended for rental and utility assistance, and 6.97 percent (\$461,827.05) for the administration of the WCERA 2 program, with approximately \$94,000 available for remaining administrative and/or housing stability expenses.

As to the remaining WCERA 2 administrative funds, we propose that \$90,000 be used for the purchase and/or renovation of very low-income housing in accordance with the Treasury Guidance as provided in the Treasury FAQ's dated July 27, 2022 (Attachment A) specifically, FAQ #46, page 22, and \$4,000 be used for administrative costs related to the final compliance reports required by the Treasury for the close-out of the program.

Provided for your consideration is a proposal (Attachment B) from Alan Zais of Winnebago County Housing Authority (dba NI ReACH, the Northern Illinois Regional Affordable Community Housing) for the purchase of one or two foreclosed homes, which, when layered with a sustainable housing assistance funding source, will provide sustainable low-income housing for those in Winnebago County who meet the very low-income limits as established by the U.S. Department of Housing and Urban Development (HUD).

This proposal requests the Winnebago County Board’s approval of providing a grant in the amount of \$90,000 to Winnebago Homes Association, the 501 (c)(3) nonprofit affordable housing component of WCHA, for the purchase and/or renovation of very low-income rental housing.

NI ReACH would assist with the tenant eligibility process by utilizing the Illinois Housing Development Authority’s Rental Housing Assistance Program, which also meets the requirements set forth in FAQ #46.

As an example, tenant eligibility would be based on the 30th percentile in the table below (allowing for future adjustments by HUD):

RHSP Income Limits 4-18-2022								
Winnebago and Boone								
	1 Person	2 People	3 People	4 People	5 People	6 People	7 People	8 People
30%	\$ 16,920	\$ 19,320	\$ 21,750	\$ 24,150	\$ 26,100	\$ 28,020	\$ 29,970	\$ 31,890

Excerpt from Treasury FAQ #46:

Eligible Affordable Rental Housing Purposes. Eligible “affordable rental housing purposes” are expenses for:

- the construction, rehabilitation, or preservation of affordable rental housing projects serving very low-income families; and
- the operation of affordable rental housing projects serving very low-income families that were constructed, rehabilitated, or preserved using ERA2 funds.

For purposes of the definition above, affordable rental housing projects serve very low-income families only if:

- the household income of occupants of units funded by ERA2 funds is limited to the maximum income applicable to very low-income families, as such term is defined in section 3(b) of the United States Housing Act of 1937 (42 U.S.C. 1437a(b)); and
- such income limitation is imposed through a covenant, land use restriction agreement (LURA), or other enforceable legal requirement for a period of at least 20 years.

In addition, to be considered an affordable rental housing purpose serving very low-income families, an affordable rental housing project funded, in whole or in part, with ERA2 funds must conform to and meet the program regulations and other requirements of one or more of the types of assistance listed below. In other words, uses of ERA2 funds for an affordable rental

housing purpose must be aligned with at least one of the following programs and must meet the requirements of that program along with the other conditions specifically set forth in this FAQ:

- **Low-Income Housing Tax Credit (Treasury);**
- HOME Investment Partnerships Program (U.S. Department of Housing and Urban Development (HUD));
- HOME-ARP Program (HUD);
- Housing Trust Fund Program (HUD);
- Public Housing Capital Fund (HUD);
- Indian Housing Block Grant Program (HUD);
- Section 202 Supportive Housing for the Elderly (HUD);
- Section 811 Supportive Housing for Persons with Disabilities (HUD);
- Farm Labor Housing Direct Loans and Grants (U.S. Department of Agriculture (USDA));
- Multifamily Preservation and Revitalization Program (USDA).

Form of Provision of Funds and Time of Obligation. Grantees that use ERA2 funds for an eligible affordable rental housing purpose may provide such funds in the form of loans (including no-interest loans and deferred-payment loans), interest subsidies, **grants**, or other financial arrangements. ERA2 funds may not be used to establish, provide financial support to, or invest in revolving loan funds or other structured funds.

Proposal from Northern Illinois Regional Affordable Community Housing (NI ReACH) to Utilize Emergency Rental Assistance Budget for Low-Income Housing in Winnebago County

NI ReACH proposes an approach that would provide affordable housing and would assist the County in concluding the Winnebago Emergency Rental Assistance Program by utilizing the remaining funds for eligible affordable rental housing purposes with the housing authority assisting.

The immediate idea would be for the Winnebago Homes Association (WHA) to purchase one or two foreclosed homes and layer it with a sustainable housing assistance funding source. WHA is our 501 c 3 (formed in 1950) that is our affordable housing developer that is an instrumentality of the WCHA board (the WCHA board self-appoints itself as the WHA board), and has completed about \$110 million in New Construction and Rehab programs across Winnebago and Stephenson counties and in California since 2006, primarily with Low Income Housing Tax Credits, the Rental Assistance Demonstration I and II, HOPE VI, AHP, HOME, RDA and CFFP.

We have used some of the development and ROI monies to purchase about 25 homes throughout Winnebago County as rental assisted housing, the Rockford Police Department's ROCK Homes (we provide free to RPD officer and family) and the Rockford Veterans Drop-In Center (we donated to them after we rehabbed it), and about 10 of these homes were acquired through the National Community Stabilization Trust (NCST), which allowed us to acquire a vacant, foreclosed home in an otherwise good neighborhood. We are careful to choose a home where the surrounding homes are in good condition and are generally owner-occupied.

We are very transparent to the neighborhood with notices of who we are and what we would like to do, and an open house, and have always been welcomed because the neighbors want the vacant, eyesore home restored for both the neighborhood aesthetic and the positive impact on the neighborhood home values. We then use the Illinois Housing Development Authority's Rental Housing Support Program (RHSP), which attaches housing assistance so that it is affordable to a very low-income family. We have an RHSP wait list with preference points for senior/disabled, veteran or the surviving spouse, victim of domestic violence, and working/living/trade program in Winnebago County.

This would be a nice conclusion to the Winnebago County Emergency Rental Assistance program in that it would continue to serve the housing needs for low-income families in Winnebago County, it creates a cross-sector partnership that leverages additional non-profit and state government services to enhance the grant, helps in foreclosure and neighborhood recovery while blending seamlessly with the surrounding homes (it's one of them), and would be an ongoing and sustainable plan that has proven to be welcomed by the community.

Below are some of the homes that we have acquired using this exact process.

Three-bedroom home on Grant Avenue in West Central Rockford. We acquired this for free but spent about \$20,000 on rehab.

Two-bedroom home on Loomis Avenue in Southwest Rockford. We acquired this for free and spent about \$20,000 on rehab.

Four-bedroom home on Swan Trail in Northwest Rockford. We paid about \$60,000.

Four-bedroom home on Freemont in near west Rockford. We paid about \$40,000.

Two units (2 and 3 bedroom) on Salmon Avenue in South Beloit. We received it for free and spent about \$20,000 on rehab.

Four-bedroom home on Bradley in near East side of Rockford. We paid about \$80,000.

Three-bedroom on 15th Street in southwest Rockford. We paid about \$60,000. This is one of the homes we give to use for free by the Rockford Police Department.

Three-bedroom home on 15th Street in Mid East Rockford. We paid about \$75,000.

Four-bedroom on Trenton in west Rockford that we purchased for about \$60,000 recently.

The families and their needs that are served by these homes and this program include a senior couple caring for their adult developmentally-disabled daughter who lives with them and who have now lived in a home provided by this program for eight years. We housed them with their RHA voucher when we were originally partnered with RHA for their families with our WHA/NCST program. When the WHA program that assisted RHA ended, they gave up their RHA voucher to remain under WHA assistance.

ORG - OBJ - Project Code: 41700 – 43190 (Host Fees)	Budget Impact: None - Budgeted

Background Information:

In 2019 Winnebago County Board approved a 5 year \$100,000 per year Host Fee Agreement with Collins Aerospace (2019-CR-022) to build an electric propulsion laboratory. Due to the unforeseen COVID-19 Pandemic that hit the U.S. economy hard starting in 2020, the commercial aerospace sector declined significantly. 80% decline in March of 2020 and was 45% below the prior year by September 2020. During this time Sundstrand maintained steady communication and essentially paused their incentive agreements regarding this project. They are requesting to amend the original agreement. The big items would be picking payments back up in 2023 (\$100,000), 2024 (\$100,000), 2025 (\$100,000), and 2026 (\$100,000). Also, the 50 jobs created would be by the 5th year instead of year 3rd. Updating the language of the project location from 4741 to 4747 Harrison Avenue too, but will still be on the Harrison facility campus.

Recommendation:

Hamilton Sundstrand Corp. has had a long standing existence in Winnebago County as well as the region. Winnebago County Administration supports industry and job growth for this project.

**FIRST AMENDMENT TO THE ECONOMIC DEVELOPMENT AGREEMENT BY AND
BETWEEN THE COUNTY OF WINNEBAGO, ILLINOIS AND
HAMILTON SUNDSTRAND CORPORATION, PART OF COLLINS AEROSPACE**

This FIRST AMENDMENT (“Amendment”) is made and entered into by and between the County of Winnebago, Illinois (the “County”) and Hamilton Sundstrand Corporation (“Sundstrand”), part of Collins Aerospace, Raytheon Technologies Corporation subsidiary, acting through its Electric Power Systems group. The County and Sundstrand are collectively referred to as the “Parties” or individually as a “Party.”

WHEREAS, on February 28, 2019, the County and Sundstrand entered into an Economic Development Agreement (the “Agreement”) (2019-CR-022), to set forth the obligations of the Parties related to the County pledging a portion of its Host Fee Fund revenue in support of the expansion of Sundstrand’s electric systems headquarters; and

WHEREAS, Sundstrand has submitted a request to the County seeking an amendment to the original Agreement due to project implementation delays brought about by the global COVID-19 pandemic, which severely impacted the commercial aerospace sector and the planned Project; and

WHEREAS, the Parties acknowledge and mutually agree that this Amendment and the planned Project will contribute to the economic growth within the County and further support local businesses and the creation of sustainable jobs.

NOW, THEREFORE, in consideration of mutual covenants contained herein, it is agreed by and between the Parties to amend the Agreement as follows:

- I. **Paragraph 1**, Sundstrand’s corporation name shall be modified to read as follows:

Hamilton Sundstrand Corporation (“Sundstrand”), part of Collins Aerospace, Raytheon Technologies Corporation subsidiary, acting through its Electric Power Systems group.

- II. **Section 2.1**, shall be modified to read as follows:

In consideration for the receipt of the County’s Host Fee revenue as specified hereinafter, Sundstrand agrees to (i) implement the Project, and (ii) within five (5) years of Sundstrand signing the original Agreement, hire at least fifty (50) new, permanent full-time equivalent (FTE) employees who work at the Project located at 4747 Harrison Avenue in Rockford, Illinois. “Full-Time Equivalent Employee” or “FTE” shall mean an employee of Sundstrand who is employed in a permanent position at least thirty-five (35) hours per week at the Project.

- III. **Section 2.2**, shall be modified to read as follows:

On or before the fifth anniversary date of Sundstrand signing the original Agreement, Sundstrand shall submit to the County Administrator a certified Jobs Certificate

disclosing compliance with the job creation requirement in this Agreement. “Jobs Certificate” shall mean a certificate substantially in the form attached hereto as Exhibit A. Sundstrand agrees that it shall act in good faith and, among other things, shall not hire temporary workers or relocate workers for short periods of time for the primary purpose of avoiding a breach of the job creation requirement in this Agreement. The Jobs Certificate shall include all the information requested on Exhibit A. Sundstrand shall allow the County to audit documents directly supporting the number of FTEs created to determine job creation compliance with this Agreement.

IV. **Section 2.3**, shall be modified to read as follows:

Sundstrand agrees to reimburse the County on a pro-rated basis if Sundstrand fails to satisfy its obligations under Section 2.1 of this Agreement. The formula for the prorated amount shall be seven thousand, five hundred dollars (\$7,500.00) for each and every created and retained FTE position fewer than the number of required created and retained FTE positions. For example, if Sundstrand creates forty (40) instead of fifty (50) new, permanent FTE positions within five (5) years of Sundstrand signing the original Agreement, Sundstrand would reimburse the County Seventy-five Thousand Dollars (\$75,000.00).

V. **Section 3.1**, shall be modified to read as follows:

The County shall pay Sundstrand One Hundred Thousand Dollars (\$100,000.00) in every County fiscal year for the next five (5) years to support the Project, for a total of Five Hundred Thousand Dollars (\$500,000.00), which payments are found to be of direct economic benefit to the County. Said payments of One Hundred Thousand Dollars (\$100,000.00) shall be made on or about November 1st in years 2019, 2023, 2024, 2025 and 2026.

VI. **Section 7- Notices**, County’s contact shall be modified to read as follows:

For the County
Winnebago County Administrator, Patrick Thompson

WHEREAS, Sundstrand has agreed to hire at least 50 new, permanent full-time equivalent (FTE) employees in connection with the Project over the next three years at Sundstrand’s facility headquartered at 4747 Harrison Avenue in Rockford, Illinois; and

WHEREAS, there are compelling public interests in improving the health, welfare and quality of life of the County's citizens and providing for economic development that supports local businesses and the creation of sustainable jobs.

NOW, THEREFORE, the County and Sundstrand do hereby agree to the following:

County of Winnebago, Illinois

404 Elm Street

Rockford, IL 61101

Attention:

Patrick J. Thompson, County Administrator, County of Winnebago

Joseph V. Chiarelli, County Board Chairman, County of Winnebago

Dear Mr. Thompson and Mr. Chiarelli:

On behalf of Hamilton Sundstrand Corporation (“Hamilton Sundstrand” or “the Company” or “we”), the Company respectfully submits this formal request to Winnebago County to amend the *“Economic Development Agreement By and Between The County of Winnebago, Illinois and Hamilton Sundstrand Corporation, Part of Collins Aerospace”* dated February 28, 2019 (“Agreement”). Per our discussions with Chris Dornbush, we are seeking an amendment due to project implementation delays brought about by the global COVID-19 pandemic and resultant economic conditions.

Hamilton Sundstrand is a wholly owned subsidiary of Raytheon Technologies Corporation (“RTX”). RTX is an aerospace and defense company that, through its subsidiaries, including Hamilton Sundstrand Corporation, provides advanced systems and services for commercial, military and government customers worldwide. The global COVID-19 pandemic severely impacted the industry, particularly commercial aerospace sector. As a result, commercial air travel declined 80% in March 2020 and was 45% below the prior year by September 2020.

Per the Agreement, Hamilton Sundstrand was approved for a performance-based grant of \$500,000 by the County of Winnebago to build and equip an electric systems laboratory at the Company’s facility in Rockford, Illinois (“the Project”). However, the Company’s plan to establish the Project in Rockford was severely impacted by the slump in the commercial aerospace industry. As a result, the Project was suspended pending recovery of commercial air travel. Accordingly, we anticipate the Project will be placed in service by mid-2023.

Since COVID-19 emerged through the present time, Hamilton Sundstrand and RTX representatives have been forthcoming with information and in regular contact with Winnebago County in an effort to keep local officials informed of the project’s status. We are very appreciative of the understanding and responsiveness shown by County officials as we have endeavored to ensure compliance with our Agreement.

In 2020, the Illinois Department of Commerce and Economic Development (“DECD”) allowed requests to extend the “Placed in Service” date for the Economic Development for a Growing Economy (“EDGE”) tax credit program for companies facing challenges in meeting program commitments in response to COVID-19. In light of the aforementioned and unforeseeable challenges imposed by the COVID-19 pandemic over the last three years, we are grateful for the County’s consideration of our amendment request.

We are extremely grateful for the outstanding support Hamilton Sundstrand has received from Winnebago County throughout the years, especially during the challenging experience of COVID-19. Again, the Company appreciates your consideration of our request to amend the Agreement for this meaningful incentive.

If you have any questions or require anything further, please feel free to contact me directly, at (779) 348-1842, or Cindy Dietz at (202) 631-9960.

Sincerely,

Electrified Aircraft

Electrification is the core of sustainable flight

Imagine a future with aircraft that consume less fuel and emit less carbon while also reducing maintenance costs. Aircraft electrification is at the center of this vision. By driving innovation in the field, Collins Aerospace is unlocking new opportunities for optimizing operations and improving sustainability.

Over the last decade, we've invested \$3 billion in advancing our electric architecture and dedicated more than 1,000 engineering resources to developing more electric systems. Add in 70+ years of experience and no one can match our financial commitment and expertise in this space.

Tell us how we can help you with electrified aircraft

Our value

Our unmatched expertise in the generation and management of electrical power is leading an electric evolution in the aviation industry. Today, we're collaborating with industry partners to drive innovations in hybrid-electric propulsion systems and embracing the latest advancements in the application of hydrogen-based technologies and sustainable aviation fuels. We know how essential this pursuit is to our future, and we know how important it is to achieve our industry-wide goal of zero emissions.

Up to 85%
reduction in aircraft noise

Up to 30%
reduction in fuel consumption

reduction in carbon emissions

Up to 20%

reduction in airline operating and maintenance costs

Our solutions

We're driving the development of electrified aircraft technology in all its forms, exploring every path to an electric future to help civil aviation achieve net zero CO2 by 2050.

More electric systems

We're replacing traditional hydraulic and pneumatic systems with more electric systems, and in turn reducing engine bleed air and its resulting fuel consumption. Our work began more than 20 years ago on the Boeing 787 Dreamliner and today we continue to manufacture the only bleed-less electric environmental control system in service for the Boeing 787.

Hybrid electric propulsion

We're combining fuel-burning engines with electric motors and batteries, burning less fuel for a positive economic and environmental impact.

decarbonization to the next level.

Sustainability

We're doing more than aiming high when it comes to sustainability – we're making it fly.

Re: Winnebago #30025945 / June 1, 2023 Renewal Notification

Dear Debbie:

We thank you for being a valued VSP® Vision Care customer since 2011.

We're committed to meeting and exceeding the expectations of your employees, as we've done for the last 12 years. Your employees continue to benefit from participating in the VSP Signature Plan®, our premium plan.

Your renewal includes fully-covered, standard progressive lenses — only from VSP.

VSP is raising the bar as the only vision care company to offer **fully-covered, standard progressive lenses**. Your employees will automatically get this new benefit feature. There's no extra cost and nothing more for you and your employees to do. Their VSP doctor will help determine which lens best suits their patient's individual lifestyle and vision needs. This is one more option to help our members enjoy clear, precise vision at an exceptional value.

Also standard with VSP:

- Lowest out-of-pocket costs on the widest selection of lenses.
- VSP Exclusive Member Extras—more than \$3,000 savings included on vision care, hearing, medical, and lifestyle services.
- Eye Health Management—your employees' wider safety net to catch chronic conditions like diabetes early, before costly symptoms emerge.
- Essential Medical Eye Care—coverage beyond routine eye care to treat immediate issues from pink eye to sudden changes in vision, or to monitor ongoing conditions such as dry eye, diabetic eye disease, glaucoma, and more.

To see all the details, please refer to your renewal proposal attached.

Let's stay together.

Sign the attached to continue with VSP and your premium plan for this next policy and return it to me via email at Jamie.Elliott@VSP.com by May 1, 2023.

J. HANLEY

WINNEBAGO COUNTY STATE'S ATTORNEY

MEMORANDUM

DATE: November 3, 2022
TO: Dan Magers
FROM: State's Attorney J. Hanley 
RE: Sole Source Justification – Karpel Prosecutor

This purpose of this memorandum is to provide written justification for the sole source procurement of "Karpel Prosecutor" case management software for the State's Attorney's Office (SAO). It is provided pursuant to Division 3, Section 2-332 of the Winnebago County Code of Ordinances, which is included below.

A. DIVISION 3. – CENTRALIZED PURCHASING SYSTEM

Sec. 2-332. – Definitions.

Sole source procurement. The situation resulting from the inability to obtain competitive bids, which may result because only one vendor or supplier possesses the unique ability to meet the particular requirements of the solicitation. Sole source procurement requires written justification from the requesting department explaining why there is only one source. Such justification will be reviewed by the director of purchasing for validity.

Sec. 2-357. – Source selection and contract formation.

(e) Sole source procurement. A contract may be awarded without competition when a department head determines, and director of purchasing concurs in writing, and it is not required by law, after conducting a good faith review of available sources, that the contract by its very nature is not suitable to competitive bids or proposals. The director of purchasing and responsible department head can conduct negotiations, as appropriate, as to price, delivery and terms. Examples of contracts which may not be suitable for competitive bids or proposals are contracts where:

- There is only one source for the required goods and supplies, equipment, service, or construction
- A sole supplier's item is needed for trial use or testing;
- Products are bought for over the counter resale;
- Purchases of used equipment.

A crucial consideration underlying the sole source justification is Section 3-9006 of the Illinois Counties Code which states that the SAO “shall control the internal operations of the State’s Attorney’s Office and procure the necessary equipment, materials, and services to perform the duties of that office.” While the County IT Department will be responsible for purchasing, installing, and implementing the software, it is necessary for the SAO to perform its duties.

I. Introduction

The adoption of Karpel Prosecutor will have profound effects on the SAO’s ability to operate effectively, particularly in a low-staffing environment and in light of the requirements of the Pretrial Fairness Act. It will transform nearly all aspects of the procedures used by the SAO to process, track, and handle cases.

Currently, the SAO is using “FullCase” as its case management software. There are two issues with the current system: First, it is at “end of life” and thus, needs to be replaced. Second, and related, it is outdated and does not meet the varying and ever growing needs of the SAO.

This process of choosing a software management software began approximately 6 months ago. It has been a collaborative effort between County IT, the Circuit Clerk and the Public Defender. Our collective research has led the SAO to conclude that Karpel Prosecutor provides benefits that competitors could not match. To conduct similar efforts on alternative case management systems would be unduly burdensome and cause delays that would further inhibit efforts at modernization, efficiency, and productivity.

The choice of which case management system to adopt is one which will likely reverberate across the SAO and county for years to come, and the decision is not made lightly, either in terms of cost or functionality. Karpel Prosecutor has been identified as the clear, best choice moving forward. For a decision with such impacts, it is essential that it be the correct one. For this reason, and more, sole-source procurement is appropriate for this scenario.

II. Current Issues Justifying Karpel Prosecutor

The SAO consists of more than 80 employees stationed in three separate offices on the criminal justice campus. The SAO handles thousands of criminal cases each year.

- A. The lack of a case management system has severely inhibited advances in paperless procedures and digital discovery, which results in costs spread across county departments. Currently, the SAO intake/screening process relies upon paper files. Each morning, there is a convoluted set of steps and data entry that takes place between 5am and 11am. The process relies upon paper files generated initially by law enforcement and then from and to the jail, SAO, clerk’s office, and trial court administration. This process is somewhat effective – but it is highly inefficient. It takes far too long and results in dual work and too much paper. The SAO’s aim to make the process less convoluted and paper dependent.

A case management system of the likes of Prosecutor by Karpel, if integrated into our existing legacy systems, would solve most of these issues, plus add a host of automation that will better allow routine things that take staff time – like notifications of subpoena date changes, compliance with ethical obligations, victim notifications, and more tasks,

many of which are not satisfactorily met due to staffing shortages. Additionally, some of these tasks are now legally required under the Pretrial Fairness Act (PFA).

- B. The efficiencies created by Karpel Prosecutor will greatly aid the SAO in meeting its PFA obligations. The PFA requires the SAO to do far more “work” relating to the intake and screening process and in preparing for detention hearings each day. Further, Karpel Prosecutor will aid in meeting the PFA’s notice requirements for victims of crimes.
- C. The lack of a cohesive and functional case management system has long been a burden on the SAO, but the Covid-19 pandemic exposed the deficiency in stark terms. During the pandemic, the SAO learned quickly how essential all employees are in the handling, processing, and creation of paper files and caseload management. Employees tasked with ‘working from home’ were limited in their productivity, as they did not have consistent, reliable access to case information and evidence, and processing cases by attorneys and staff who are not present in the office proved to be inefficient with our current systems. While attorneys and staff are back in the office, the modern workplace requires employees to have the ability/option of working from home when necessary.

III. Justification of Karpel Prosecutor as Sole Source

In researching case management software systems, the common theme developed that the Karpel Prosecutor case management system, a system designed entirely for use by prosecutor’s offices, has widespread adoption amongst dozens of Illinois county prosecutor offices and a track record of success in not only modernizing workflows, but integrating with legacy systems like Winnebago County’s.

The fact that Karpel Prosecutor is relied upon in so many counties makes it more likely that that Karpel will be responsive to Illinois’ quickly shifting legal landscape in the field of criminal law, most pertinently, the PFA. Adjustments will no doubt need to be made to address laws that are quickly changing procedural and other avenues necessary for a case management system to process and track.

In addition, the successes already proven by Karpel Prosecutor’s widespread adoption in Illinois comes with many benefits that other case management systems, even if technically proficient enough to match the level of sophistication offered by Karpel, simply cannot match. An important part of a case management system is automation of routine tasks, and template language for things like charging language on the panoply of Illinois codes and laws that the State’s Attorney routinely prosecutes. That Karpel has templates designed for, and routinely used in Illinois jurisdictions, means that much of the work of developing such templates is already done, and common charging language is used by many jurisdictions.

Karpel Prosecutor offers integration with Evidence.com. This third-party service is relied upon by Winnebago’s largest law enforcement agencies, including the Rockford Police Department and the Winnebago County Sheriff’s Office, to manage the dearth of evidence afforded with these agencies’ adoption of body-worn cameras. As Winnebago County agencies increasingly turn to Evidence.com, Karpel Prosecutor has already shown a commitment to integrating the services of Evidence.com into the software’s functionality. Given the wide adoption of Karpel Prosecutor by multiple equivalent offices in Illinois, Karpel continues to be the preferred case management system for the SAO, and the only one that appears to have the compatibility, functionality, and upgradeability to scale with the SAO’s advancing needs in this arena.

An additional concern with competitive bidding has been the ability of providers of such systems to integrate with Winnebago County's existing infrastructure, most notably, FullCourt Enterprise (FCE), which is the circuit clerk's case management software. It is viewed/used by all participants in the criminal justice system and any case management software used by the SAO must be able to interface with FCE. . Karpel Prosecutor has already successfully integrated FCE with its software in other jurisdictions.

For the reasons stated above, sole source procurement of Karpel Prosecutor is warranted.
