INTRODUCTION

Winnebago County Government operates on policies designed to protect the County's assets and taxpayers' interests, provide guidance to employees, and serve the public efficiently. It is the intent that the policy statements be used to avoid conflicting goals or activities, which may have a negative impact on the overall financial position of the County. The County's system of internal accounting controls is designed to provide reasonable assurance that the financial records are reliable for preparing financial statements and maintaining accountability for assets and obligations.

The County's budget process is governed by Illinois Compiled Statutes (55 ILCS 5/6) and Winnebago County Board Policies (Sec. 2-38 Winnebago County Code of Ordinances). All operating funds (those funds that are presented in the County's Annual Comprehensive Financial Report) are appropriated in the "Official Budget". Appropriations will be considered the maximum authorization to incur obligations and not a mandate to spend.

In addressing concerns for maintaining financial strength while protecting the interest of the taxpayer, the County Board is implementing the following directives for the development of the fiscal year 2024 budget.

ACCOUNTING BASIS

Governmental Funds

The County prepares financial statements based on the modified accrual basis of accounting for all governmental funds in which the revenues are recorded when both measurable and available. The County considers revenue to be available if they are collected within 60 days of the end of the current fiscal period for property taxes, 180 days of the end of the current fiscal policy for certain health department and County reimbursable grants and 90 days of the end of the current period for all other amounts.

Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on long-term debt, claims, judgments, compensated absences and pension expenditures, which are recorded as a fund liability when expected to be paid with expendable available financial resources.

Proprietary Funds

The County has two proprietary funds. Expenditures for these funds are budgeted on a full accrual basis of accounting. As such, expenses are recognized when incurred and revenues are recognized when they are obligated to the County.

Under both methods of accounting, Generally Accepted Accounting Principles (GAAP) prescribe that purchases are required to be accounted for in the fiscal year in which the item is received or the service performed. Items ordered or services performed late in the fiscal year and not received or completed by the end of the fiscal year will be applied to the budget of the following year.

BUDGETARY PRIORITIES

Direction is hereby given to the County Administrator and the Chief Financial Officer to create the fiscal year 2024 budget with the following priorities:

1. Debt service payments required
2. Contractual payments based on lease agreements, software agreements and other contractual agreements
3. Mandated services at affordable funding levels
4. All operating necessities (Utilities, IMRF, Health Insurance, Liability Insurance)
5. General operating costs to provide services
6. Non-Union employee compensation
7. Capital needs of the organization
8. Meeting the 25% unrestricted reserve requirement of the General Fund and PSST Fund (See Fund Reserves and Balanced Budgets Section)
9. Outside agency funding to include non-obligated Host Fee Grants and local matching grants

FUND RESERVES AND BALANCED BUDGETS

The intent of the Finance Committee is the budget must balance expenditures against available revenues and fund balance by fund. Special revenue fund expenditure budgets cannot exceed available fund balance of the fund. Special revenue funds with a negative fund balance will not be allowed to submit an expenditure budget until the negative fund balance has been eliminated.

The County has developed a fund reserve policy in which it shall be the intent of the County Board to maintain an unrestricted (total of unassigned) fund balance equal to three months of budgeted operating expenditures in the General Fund and the Public Safety Sales Tax Fund. Surpluses in excess of the necessary reserve required by this policy shall be transferred to the Capital Projects Fund. In addition, it is the intent of the County Board to maintain an unrestricted fund balance equal to three months of budgeted operating expenditures in the River Bluff Nursing Home fund.

BUDGET SUBMITTAL AND PRESENTATION PROCESS

Elected Officials and Department Heads shall be provided budget worksheets with existing levels of funding. Based on revenue estimates for the current and next fiscal year, funding levels may be reduced from the current

year's appropriations. Elected Officials and Department Heads are encouraged to analyze all services and programs for the cost of the programs, citizen demand, and mandates by Federal, State or County law.

Exceptions may be considered by the County Administrator and the Chief Financial Officer on a case-by-case basis.

When an Elected Official/Department Head has completed the required budget forms, a meeting can be scheduled (if necessary) with the County Administrator and Chief Financial Officer to review and ensure budget policy compliance. Concerns and/or issues should be addressed by the Department Head/Elected Official at this time. Any resulting changes to submitted budgets will be communicated to the Finance Office for system entry and review. Upon review by County Administrator and Chief Financial Officer, the budget will be scheduled for presentation to the Finance Committee per the attached budget calendar. Meetings will be scheduled with the Finance Committee (if necessary) for individual departments/Elected Officials to address the Finance Committee regarding their individual budget requests.

Prior to the date the County Board places the budget on layover for public review, the Elected Official/Department Head will be required to review the budget as entered in the financial system and sign off that all entered information is correct.

Once the Finance Committee has reviewed departmental budgets, and the recommended supplemental requests have been approved, the budget is moved to the whole board to be placed on public display for a minimum of fifteen (15) days prior to final approval.

The Chief Financial Officer and the County Administrator during the normal course of the budget preparation process may make budget revisions prior to the final board approval of the budget. It should be noted that proposed budget revisions made after the first reading but before final passage shall be documented and presented to the County Board for approval as part of the final budget approval.

New for FY2024, Elected Official/Department Heads will be required to submit a five-year plan for capital improvements. Guidelines for these budgets are on page 7.

REVENUE ESTIMATIONS

The County will project annual revenues on a conservative analytical basis to protect it from short-run fluctuations in any one revenue source. In instances where the County is providing non-mandated services and the revenue stream(s) is/are not covering the costs of said services, direction will be requested by County Administration from the reporting Liaison Committee (and if necessary, the full County Board) on whether said service should be allowed to continue and supplemented with County funds.

Property Tax Assumptions: Winnebago County is mandated to follow the Illinois Property Tax Extension Limitation Law (PTELL) by the State of Illinois. PTELL allows governing bodies the ability to cover the costs of inflationary increases incurred in their day-to-day operations by increasing their previous year's extension by the CPI or 5%, whichever is smallest. For fiscal year 2024 the CPI is 5.0%. During the budget process, County Administration will present the increases available if the County Board chooses to capture new growth and/or to utilize the CPI increase authorized under PTELL in the calculation of property tax revenues when developing the fiscal year 2024 budget. The Finance Committee will inform the Chief Financial Officer of the amount of the levy to include in the budget document.

User Fees and Charges: All user fees and charges should be reviewed by County Administration, Elected Officials and Appointed Department Heads on an annual basis to ensure the fee collected is covering the cost of service provided (subject to State Statutes).

The County charges user fees for items and services which benefit a specific user more than the general public. State statutes or an indirect cost study determines user fees. Fee studies based on costs are conducted as needed to determine the level of fees needed to equal the total cost of providing the service.

Other FY2024 Revenue Assumptions:

- Nonrecurring (one-time) revenue sources will be used for operations unless directed for a specific use by the County Board.
- Cannabis Sales and Excise Taxes support the General Fund.
- Gaming-related revenue, including off-track betting, casino, and video gaming revenues, support the Capital Projects Fund and County Road Projects using a 50/50 split.
- Sale of assets support the Capital Projects Fund.
- New funding sources with a restricted purpose will be reviewed by the County Board to ensure appropriate usage at the department level. Additionally, these funding sources will be identified by a designated project number to meet reporting requirements by the funding agency.

EXPENSE ESTIMATIONS

Salary and Wage Estimates: Each department will be provided a budget document outlining the employees of the department with their rate of pay as of the date of the preparation of the document. It is the responsibility of the department to review the list including the position titles and employment status (FT, PT or seasonal). The department shall budget for any contractual obligations as outlined in respective bargaining contracts for the upcoming year. The department should include any vacant positions that are not included on the list if the intent is to fill that position in the upcoming year.

The Finance Committee will provide the County Administrator the non-union employee wage increase rate to include in the budget document. The Finance Committee will make a recommendation no later than the 1st Finance Committee meeting in June. Non-bargaining employees are eligible to receive the one-percent longevity pay in accordance with County policy and this should be included in the development of the salary and wage budgets.

Employees transferring from one County department to another will be allowed to retain their accrued vacation upon transfer. The new department will assume the liability should the employee terminate their employment while employed by said department.

Grant Budgets: Each department should submit a separate budget document for ongoing grant awards by the project (award) number. Grant revenue estimates should equal grant expenditure estimates for reimbursement-based grants. Grant award performance periods may not align with the County's fiscal year. In such cases, the department should estimate to the best of their ability the expenses that will be incurred for the grant program during the County's fiscal year. Grant budgets should include all applicable expenses as defined in the grant award and approved grant budget.

New grant awards will be budgeted at the time the County Board accepts the award. See further details in the Grant Policy and Grant Procedures documents.

Other FY2024 Expense Assumptions:

- In the event of loss of Federal or State funding and/or reimbursement for specific services, it is understood that Department/Elected Official will be expected to either reduce funded services or identify other reductions/revenue increases to offset the losses. Exceptions will be addressed on a case-by-case basis.
- Contractual obligations should be included in the budget request and, if applicable, noted as a supplemental request.
- Equipment needs and repairs that do not meet the criteria of a capital request as defined below should be included in the departmental operating budgets.
- All appropriations that have not been expended or appropriated to ongoing capital improvement projects shall lapse at the end of the fiscal year.

CAPITAL IMPROVEMENT PROJECTS (CIP) PLANNING AND BUDGETS

The CIP budgets are necessary to provide adequate consideration of the County's short-term and long-term needs and strategic goals and evaluate the options and timing availability of funds to address those needs. As noted in the Revenue Estimate section of this document, the CIP Fund will be funded through Gaming revenue, sale of assets and excess funds in the General and PSST funds. CIP includes major construction, expansion, purchase or major repair of buildings and other physical structures. CIP may also include fleet and equipment replacement needs. Per the County asset policy, capital projects should have a component value greater than \$12,000 and should have a useful life greater than three to five years. CIP does not include highway department projects or equipment funded by grant or other funding sources.

Each Department Head/Elected Official will submit a list of capital needs for the next five years on the document provided for capital requests. Requested projects should be prioritized by the departments. The requesting department should note the need for funding of the project. In addition to the cost of completing the project, the department should identify any costs to operate and maintain the asset over its useful life. These additional expenses would need to be included in the department's operating budget.

Only projects included in the first year of the plan will be considered for approval and funding. Projects presented for future years are shown for planning purposes only. Funding for a capital plan will be reviewed in conjunction with the annual budget. **Submittal of capital needs does not guarantee funding.**

Approved CIP projects will be appropriated in the Capital Projects Improvement Fund. County Administration has developed a team. This team will meet regularly to review and discuss the progress of approved projects.

Capital project appropriations, unlike operating budget appropriations, are typically one-time in nature and the project may take multiple years to complete. Budgetary control for these projects will be at the fund and project level which differs from operating budgets. Due to the fact that capital projects may cross fiscal years, the County Administrator/Chief Financial Officer will have the authority to rollover available project balances to the next fiscal year during the budget preparation process. Each previously approved project will be reviewed with

department heads prior to the calculation of the rollover amount. Factors Administration will consider when calculating the rollover amount would include the timing of any remaining payments and estimated completion percentage. The current year estimated actuals plus any amounts included in the rollover budget will not exceed the amount of the original approved project budget. Administration will not rollover any capital project funds which have not had activity for two fiscal years. A listing of project budgets that are to be rolled over will be reviewed by the aforementioned Administration team and included in the final budget package as presented to the County Board.

CIP appropriations funding projects belonging to the two Enterprise Funds will be budgeted in those respective funds in order to properly track assets according to GAAP and financial reporting. Approval of CIP projects related to these funds will require a budget amendment including a plan to transfer funds from the CIP fund to the Enterprise fund and expenditures for the project in the Enterprise fund. Actual transfers will only be recorded by Finance as related projects are completed.

BUDGET AMENDMENT PROCESS (AFTER ADOPTION BY THE BOARD):

All requests for budget amendments must start with a completed Budget Amendment Form (available upon request from Finance) submitted to the Chief Financial Officer, who upon review, will work with the requesting department head in preparing an ordinance (if required) in the County Board approved format for committee and board presentation.

- The County Board must approve all transfers of budgets between departments or funds by a 2/3rd majority vote (14) of the County Board. (Transfers may not be made from certain special purpose funds to other funds).
- Additional (emergency) appropriations must also be approved by a 2/3rd majority vote (14) of the County Board.
- Budgetary control over expenditures exists at the object-class-level (character code). Line item transfers between object-class-level (character code) or object codes may be requested by the department and approved by the Chief Financial Officer, provided the total amount appropriated by the County Board for the respective department (org code) is not exceeded.

FINANCIAL POLICIES

The following pages include financial policies that have been approved by the County Board. These policies should be considered in addition to the Budget Development Guidelines in completion of budgets.

FISCAL YEAR

If at any time the County will not receive an unqualified opinion from the CPA firm, the CPA firm and the Finance Director will notify the Board prior to the issuance of the report.

It shall be the intent of the County to maintain a capital asset ledger of all permanent assets acquired. The Finance department will maintain these asset records on an on-going basis to ensure proper controls and report annually regarding these records to the Board. No asset will be considered fixed unless its value or component value exceeds \$12,000 dollars or in the case of infrastructure assets purchased or acquired with an original cost of \$50,000 or more.

Depreciation will be charged on all capital assets. This policy is consistent with the requirements of GASB Statement No. 34. Depreciation will be recorded on a straight-line basis over the normal useful life of the asset.

It shall be the intent of the County to manage all accounts receivable. Accounts receivable are created by operations in certain departments and offices. In general, they arise at the renewal of a permit or license from departments such as Health, River Bluff Nursing Home or Transportation. The department or office that is responsible for the billing is responsible for collections and managing receivables. Consistent with good financial management, each department and office will age their receivables. Departments and Offices shall continue collection efforts.

The Finance department remits vendor payments on a regular schedule twice a month. Vendor payments are released by the County Clerk's office per the defined schedule. Emergency requests for payment are considered

on a case-by-case basis. All remittances will be mailed unless there is a business purpose requiring a department to obtain the check at which time a release form will need to be signed.

It is the intent of the County to comply with the modified accrual basis of accounting, in which revenues are recorded when they are both measurable and available. The County considers revenue to be available if they are collected within 60 days of the end of the current fiscal period for property taxes, 180 days of the end of the current fiscal period for certain health department and County reimbursable grants, and 90 days of the end of the current fiscal period for all other amounts.
