Background Information: The Winnebago County Sheriff's Office (WCSO) requested the purchase of six (6) Ford Explorer Utility Vehicles using CIP 24 funds. The Purchasing Department and the Sheriff's Office reached out for quotes and availability. Morrow Brothers provided vehicle quotes and specialized outfitting options (See Exhibit A). This is a cost-effective option for the County utilizing government pricing. It also provides a one-stop shop for all vehicle outfitting. These vehicles will be an addition to the Sheriff's fleet.

In February, WCSO salvaged four (4) vehicles, due to vehicle damage, and auctioned one (1) vehicle.

The six (6) patrol vehicles were totaled at \$335,580. The vehicle outfitting and equipment were totaled at \$101,356.

Recommended By: Sheriff Gary Caruana and Deputy Chief Sean Hughes

Follow-Up Steps: Purchasing Department will issue Purchase Orders accordingly.

Background Information: The Winnebago County Coroner’s Office requested replacement of their portable radio system using CIP 2024 funds. The current radio system consists of three (3) radios that were handed down from the Winnebago County Sheriff’s Office, approximately seven (7) years ago; and four (4) used radios purchased from Rock River Service Company, all of which are approximately 12 years old. The existing radios, APX7000, were discontinued in 2017 and Motorola support was discontinued March 2022. Discontinued support means no firmware/software updates, no factory support, and replacement parts will not be replenished. The AXP7000 has outdated technology, lacking LTE coverage, which limits service in rural areas, buildings, etc. The FCC guideline for radio replacement is seven (7) years. The APX N70 is the current model recommendation for emergency services due to its LTE/wireless technology, cell tower communication, and compatibility with software solutions. The quote provided includes seven (7) radios, software, chargers, holsters, software subscriptions for three (3) years, and three (3) year warranty on the equipment. The software solution includes Smart Locate GPS, Smart Programming for automatic updates, and Smart Mapping. It allows users to track other units on the broadband network, provides better accuracy for time and distance, allows immediate access to other crew members, and more. Rock River Service provided quote #2501390, listing Contract #37987 – STARCOM 21 IL, CMT2028589; government pricing. Purchasing contacted Motorola, requested a quote, received quote #2524474 for the same amount. County has a good relationship with Rock River Service, who has provided excellent service and repairs to various county departments for many years.

Recommended By: Jen Muraski and Matt Lane

Follow-Up Steps: Purchasing Department will prepare and submit a Purchase Order to Rock River Service Company, in the amount of \$59,120

EXHIBIT A

In response to the evolving educational landscape and the unique needs of our community, there arises an imperative to establish a new program that addresses the diverse learning requirements of elementary students in grades K-5 within Rockford Public Schools, in collaboration with the Regional Office of Education. This endeavor is fueled by a shared commitment to providing innovative and inclusive educational opportunities that foster academic excellence, social-emotional growth, and community engagement.

Rockford, a vibrant and dynamic community, comprises a spectrum of students with varying learning styles, needs, and backgrounds. As we embrace the principles of equity and diversity, it is evident that a one-size-fits-all approach may not fully cater to the distinct learning trajectories of all our students. The traditional educational framework, while effective for many, may leave some students underserved, potentially hindering their holistic development and future prospects.

Collaborating with the Regional Office of Education, which boasts a wealth of expertise in educational innovation and community partnerships, presents a remarkable opportunity to construct a program that is responsive to the unique needs of our students. This partnership allows us to leverage local resources, tap into the experience of dedicated educators, and draw upon research-driven best practices to establish a program that empowers students to thrive academically, socially, and emotionally.

By creating a tailored program that recognizes and celebrates the individual strengths and challenges of our elementary students, we aim to cultivate a rich and supportive learning environment. This program will champion a comprehensive approach, encompassing personalized instruction, social-emotional learning, hands-on experiences, and collaborative community involvement. As we nurture the educational journey of our young learners, we aspire to equip them with not only academic prowess but also the skills and values necessary to succeed in an ever-changing world.

The initiative to establish a new program in partnership with the Regional Office of Education aligns with Rockford Public Schools' overarching commitment to educational excellence and equitable access to quality education. By embracing innovation, inclusion, and collaboration, we aspire to create a transformative educational experience that propels our elementary students toward a future of achievement and fulfillment.

Program Vision:

Our vision is to forge a pioneering educational pathway that sets a new standard of excellence for elementary students in grades K-5 within Rockford Public Schools. In collaboration with the Regional Office of Education, we envision a program that transcends traditional boundaries, fostering a dynamic and inclusive learning ecosystem that empowers each student to reach their full potential.

At the heart of our vision is a commitment to personalized learning, where the unique strengths, interests, and needs of every student are recognized and celebrated. Guided by the principles of innovation and collaboration, we will design a program that offers tailored educational experiences, equipping students with the tools they need to navigate a rapidly evolving world.

This visionary program will be characterized by whole-child development, encompassing not only social-emotional growth and community engagement but a refreshing approach to academic integration in the alternative setting. Through dynamic curricula, experiential learning opportunities, and partnerships with local organizations, we will empower students to become critical thinkers, compassionate citizens, and active contributors to their communities.

Regional Office of Education will amplify RPS' district vision, harnessing collective wisdom, resources, and expertise to craft an educational journey that has not yet been explored in the public sector in Illinois. Together, we will bridge the gap between educational theory and practice, drawing on research-driven insights to create an environment that supports the social and emotional needs of students as a first priority.

Key Principles of the Vision

- **Individualized Learning Pathways:** We will center our educational approach around the unique needs, interests, and learning styles of each child. Our team will take the time to truly know their students and tailor their methods to ensure meaningful engagement and growth.
- **Social Emotional Development:** We will prioritize the SEL development of every child, nurturing their intellectual, emotional, social, and physical well-being. Mindfulness practices, arts, physical activities, and character education will be integrated into our daily routines.
- **Flexible Learning Spaces:** Our classrooms will be designed to be flexible, adaptive spaces that accommodate different learning styles and activities. Students will be able to choose from various seating options, collaborative work areas, and cozy reading corners once earned.
- **Inclusive Community:** Our classrooms will embrace a diverse and inclusive community where every child feels valued and respected. We will foster a sense of belonging, promoting empathy, kindness, and open communication among students, staff, and families.
- **Individualized Progress Tracking:** Traditional grades take a backseat to comprehensive assessment methods that consider each child's progress, strengths, and areas for growth. Student-led conferences and portfolios will showcase their accomplishments and growth over time.
- **Collaborative Learning:** Collaboration is a cornerstone of our approach. Students work in diverse groups, fostering teamwork, communication skills, and mutual respect. This prepares them for the collaborative nature of the modern world.
- **Continuous Improvement:** We are committed to evolving and refining our educational approach based on research, feedback from students and families, and the changing

needs of the world. We will embrace change as a means to provide the best possible education.

Program Philosophy

The Summit Academy Alternative Elementary Program philosophy is centered on social-emotional health, building relationships, and is rooted in the principles of restorative practices and whole-child education. This philosophy acknowledges that academic success is intrinsically tied to emotional well-being and the cultivation of positive interpersonal connections. In essence, our philosophy strives to create a transformative educational experience that goes beyond traditional academic achievement. It seeks to nurture students as whole individuals, equipping them not only with knowledge and skills but also with the emotional intelligence and relational capabilities necessary to thrive in an interconnected world.

Below is a draft of the ROE educational philosophy:

Whole-Child Well Being: At the core of this alternative learning philosophy is the belief that a student's well-being, both emotionally and mentally, is foundational to their overall development. Recognizing that students come to the classroom with diverse backgrounds and experiences, the philosophy aims to create a nurturing and inclusive environment that supports their emotional growth.

Restorative Practices: Central to this philosophy are restorative practices that emphasize repairing harm and restoring relationships when conflicts arise. Rather than punitive measures, the focus is on understanding the root causes of negative behaviors and facilitating healing through open dialogue and accountability. Restorative circles, conferences, and mediation are integral components of addressing conflicts and fostering empathy among students.

Social-Emotional Learning (SEL): The philosophy integrates SEL into every aspect of the curriculum. Students are taught essential life skills such as emotional regulation, empathy, self-awareness, and effective communication. SEL is not a separate program but is woven seamlessly into academic subjects, enabling students to apply these skills in real-life contexts.

Building Positive Relationships: Recognizing the importance of positive relationships in the learning process, the philosophy places a strong emphasis on building authentic connections among students, teachers, and peers. Teachers serve as mentors and guides, cultivating a sense of trust and support that enhances the overall learning experience.

Community and Collaboration: This philosophy fosters a sense of community within the classroom and extends it to involve parents, guardians, and the wider community. Collaborative partnerships between the school, families, and local organizations are encouraged to provide a holistic support system for students' growth.

Personalized Learning: Acknowledging that each student has unique strengths, challenges, and learning styles, the philosophy promotes personalized learning pathways. Students are given

opportunities to explore their interests, set their learning goals, and engage in projects that resonate with them.

Accountability and Growth: Rather than shying away from mistakes, this philosophy views them as opportunities for growth. Students are encouraged to take ownership of their actions and learn from their experiences. The focus is on learning from failures and using them as stepping stones toward improvement.

Empowerment and Voice: Students are empowered to express their thoughts, opinions, and feelings, fostering a sense of agency and ownership in their learning journey. Their voices are valued and integrated into decision-making processes.

Cultural Competency and Inclusivity: The philosophy acknowledges the diversity of students' backgrounds, experiences, and identities. The curriculum reflects a commitment to inclusivity, embracing various perspectives and fostering a culture of respect and understanding.
