Dear Chairman,

I appreciate being considered for an appointment to the Development Authority Board of Commissioners. The quality of the County's choices on such a body is critical to its mission. The following may be helpful in assessing my potential appointment:

During my 15 years with the Northern Illinois Building Contractors Association (the last 10 years as its Executive Director). I have been a positive voice and, I hope, a change agent in several contentious Boards with broad jurisdiction. Each of the Boards served the community interest.

Recently, I was elected to be the Chair of the Economic Development Committee (EDC).

Let me be clear, the County has diverse needs, and any development must consider its short and long term effects on the community as a whole, not simply near-term benefits.

Be assured, our organization remains committed to the county's mission. Feel free to call on us with regard to areas of common interest.

Best wishes, no matter your final choices.

Mr. Joe Chiarelli

Winnebago County Board Chairman

joe@admin.wincoil.gov

Dear Mr. Chiarelli,

I am writing today to express my interest in future consideration for a position with the North Park Fire Department Board of Trustees.

After three decades of serving my community, I believe it's time to bring my extensive experience in emergency medical services, administration, and fiscal management to the North Park Fire Department Board of Trustees. Our community faces critical decisions about budget allocation, infrastructure development, and service delivery that require someone with proven leadership skills and deep understanding of operational challenges.

My commitment runs deeper than professional experience – this is my home, and these are my neighbors. I've witnessed the growth and changes in our community over decades, and I want to ensure that future decisions reflect both our values and our practical needs. The board needs members who can ask tough questions, analyze complex budgets, and make decisions that benefit everyone, not just a select few and I believe that is an area that I can be of benefit to.

I would like to say thank you for taking the time to read over my resume. I look forward to having an opportunity to discuss with you further how I may be of benefit to the North Park Fire Department and the community.

Respectfully yours,

Hanne Reiger

ZONING COMMITTEE

County of Winnebago

404 Elm Street | Rockford, IL 61101

Ordinance Executive Summary

Date: October 7, 2025
To: Chairman and Members of ZBA and ZC
Item (Request): Approval of an ORDINANCE GRANTING SITE APPROVAL FOR A 10 MW COMMERCIAL SOLAR ENERGY FACILITY (AKA A SOLAR FARM) ON A 140.43 +- ACRE SITE COMMONLY KNOWN AS 8016 SPRING CREEK ROAD (PINS: 12-11-226-001 & 12-12-101-003), ROCKFORD, IL 61114 IN ROCKFORD TOWNSHIP, District 8, requested by Rockford Brook A, LLC and Rockford Brook B, LLC, Lessees (managed by TotalEnergies Distributed Generation Assets USA, LLC and are indirect subsidiaries of TotalEnergies Distributed Generation USA, LLC), represented by Seth Uphoff, Attorney and Maroua Jabouri, Project Manager.
Prepared by: Planning & Zoning Staff, Community Development Department (CDD)

Governing Code/s: Winnebago County Code, Chapter 90 (UDO), Article 17: Commercial Wind Energy Facilities and Commercial Solar Energy Facilities, as amended on July 25, 2024.

Review Comments: The Winnebago County Board approved the above noted County Ordinance (that limits the County's ability to self-regulate) on July 25, 2024, as mandated by a State Law amendment made on January 27, 2023 to the Illinois Counties Code, 55 ILCS 5/5-12020. As a result, this new County Ordinance now governs the siting of commercial solar energy facilities (aka a solar farm) in Winnebago County, Illinois, consequently, requiring the County Board to review all applications for "siting approval" with regard to Commercial Solar Energy Facilities when on property that is zoned industrial as well as AG, A1 and A2. The Ordinance further provides that a request for site approval shall be approved, after consideration of the evidence (presented at a public hearing) and verbatim transcript of hearing, if the request is found to be in compliance with the standards and conditions outlined within the County's Ordinance (that was adopted consistent with 55/ILCS 5/5-12020) as well as any other conditions imposed under State and Federal statutes and regulations. Accordingly, the Applicant is requesting site approval, but not without a public hearing 1st being held before the ZBA, of the attached 10 MW solar project/submittal (which appears to have *conceptually* satisfied -subject to the specific terms and stipulations drafted, and provided nothing new is presented at the public hearing that would prove otherwise- all of the requisite standards and conditions delineated by County Ordinance / Statue) on a 140.43 +- acre site, zoned AG, which is commonly known as 8016 Spring Creek Road (PINS: 12-11-226-001 & 12-12-101-003), Rockford, IL 61114, in Rockford Township.

However, and although the reviewing bodies should adhere to the standards and conditions set forth under 55 ILCS 5/5-12020 and the County's Ordinance, as noted above, in the evaluation and decision of this solar request, it would be remiss (negligent) of the Planning Staff to not provide background information and comment with regard to the County's 2030 Land Resource Management Plan – Future Land Use Map policy as it relates to the subject property, especially due to the size of the property / proposed solar project (largest solar project processed to date in the County), its proximity to the City of Rockford and it being within a highly active growth corridor. Accordingly, the subject property is within the City of Rockford's extra-territorial review authority – planned growth area, and in the spirit of regional cooperation – and consistent with Plan policy, the Applicant was encouraged to annex the site (and develop the subject property under Rockford's lead), but the Applicant declined and decided to continue with their case in the County. This decision prompted concern among Staff due to the above noted and the fact that the City of Rockford -in addition to the single largest private sector investment ever made

County of Winnebago

404 Elm Street | Rockford, IL 61101

within Rockford limits (to the north)- has invested heavily with regard to the area by creating and adopting land use plans (to guide future growth) and installing public infrastructure (i.e. public water, road improvements, etc. - see map attached), primarily to the north, to enable development / economic opportunities that can take advantage of said, including the accessibility (or visibility) offered by surrounding and nearby arterial roads (i.e. I-90, Spring Creek Road, Lyford Road, Riverside Road and Spring Brook Road). The proposed solar project does not need the accessibility (or visibility) offered by the nearby roads, will not utilize existing infrastructure improvements nor has it been designed (located) in a manner that best promotes other development opportunities that will assist in lowering the tax burden upon residents - consistent with Plan policy.

In the end, after informing the Applicant of the above noted Plan policy, etc., and when it was clear that they were not going to change course with regard to their solar site approval approach (a City rather than a County submittal), Staff then provided further comment (concern) with regard to leaving the subject property zoned agricultural in the County, as this will effectively "leave the door open" for a wall / island / pocket of AG to be left within a sea of anticipated industrial, commercial and or residential zonings that could cause incompatibility / growth (obstacle) issues in the future. To prevent this scenario, Staff encouraged the Applicant to rezone the subject property consistent with the 2030 Future Land Use Plan Map, and redesign (relocate) the solar project on the site in a manner that best promotes other development on the site that is consistent with the Plan, including leaving the area fronting roadways available for future uses (i.e. commercial, industrial, etc.) that can best benefit from the adjacent roads and the high visibility offered by them. As of the date of this executive summary, none of the above said planning policy suggestions were incorporated within the current solar request / design (see the attached Site Plan and 2030 Future Land Use Plan Map).

Recommendation/s: The Zoning Board of Appeals should make a recommendation for the County Board's consideration of the hereto attached Ordinance (site approval request) in accordance with the requisite standards and conditions (criteria) set forth by the County's Ordinance (that was adopted consistent with 55/ILCS 5/5-12020) as well as any other conditions imposed under State and Federal statutes and regulations. The Zoning Committee should also make a recommendation after consideration of the criteria noted above, however, per Section 17.3 A. the Committee may also give due consideration of the public testimony (from the public hearing), and in doing so, may consider the factors set forth in Article 4, Section 4.3.4(4)(a-f) *Findings of Fact* when making their recommendation. After considering both recommendations, based on the applicable codes (criteria) noted above, the County Board shall ultimately approve or deny the Ordinance (site approval request) for the proposed commercial solar energy facility at the 140.43 +- acre site that is commonly known as 8016 Spring Creek Road (PINS: 12-11-226-001 & 12-12-101-003), Rockford, IL 61114, in Rockford Township.

WHEREAS, Illinois Counties Code, specifically 55 ILCS 5/5-12020 (hereinafter "the Statute"), effective January 27, 2023, governs the requirements for the siting of commercial solar energy facilities in the State of Illinois and prohibits counties from enacting more restrictive requirements in regard to said facilities than those set forth in the Statute. Consequently, the County may not adopt zoning regulations that disallow, permanently or temporarily, commercial solar energy facilities from being developed or operated in any district zoned to allow agricultural or industrial uses; and

WHEREAS, the County of Winnebago, Illinois (hereinafter "County") has amended its Unified Development Ordinance, Chapter 90, of the Winnebago County Code (hereinafter

“UDO”), to be in accord with the Statute, and thus, the commercial solar energy facility site approval application that was submitted for the Property was reviewed in accordance with said UDO; and

WHEREAS, the UDO provides that a request for siting approval for a commercial solar energy facility, “shall be approved if the request is in compliance with the standards and conditions imposed in 55 ILCS 5/5-12020, the zoning ordinance adopted consistent with 55 ILCS 5/5-12020, and the conditions imposed under State and Federal statutes and regulations”; and

WHEREAS, upon review of the application, the Facility Owner (Facility) has conceptually satisfied all of the requisite standards and conditions under the UDO, however, that, in the event a detail or representation in the application conflicts with the UDO, Statute or any other applicable Illinois law or regulation, the conflicting provision shall prevail and the Facility Owner shall adhere thereto and adjust the contradiction, as will be required, at time of construction permit submittal; and

WHEREAS, a public hearing was held on the site approval request before the Zoning Board of Appeals (ZBA) on October 8, 2025 and the ZBA recommended denial (2-5); and

WHEREAS, the Zoning Committee of the County Board of the County of Winnebago, Illinois considered the ZBA’s recommendation (motion) as well as the evidence submitted (at the public hearing) as it relates to the standards and conditions outlined within the UDO, and consequently, the Zoning Committee recommended _____ (X-X) of the Facility Owner’s site approval request to install and operate a commercial solar energy facility on the Property.

NOW, THEREFORE BE IT ORDAINED that the County Board of the County of Winnebago, Illinois -after the consideration of the above noted recommendations, the standards and conditions outlined within the UDO and being fully advised on all other matters affiliated to the Property (request)- hereby grants the Facility Owner’s site approval request to install and operate a 10 MW or less commercial solar energy facility on the 140.43 +- acre site, zoned AG,

Agricultural Priority District, that is commonly known as 8016 Spring Creek Road (PINS: 12-11-226-001 & 12-12-101-003), Rockford, IL 61114 in Rockford Township and specifically described in “1st Whereas”, subject to the following terms and stipulations:

1. The commercial solar energy facility (the Facility) shall be developed in substantial conformance with the Array Layout Plan, revision 09-16-25, sheet AL1, and submitted by TotalEnergies, inclusive of the notes thereon Plan. In no event shall the final design of the solar energy facility consist of above ground (overhead) power and transmission lines.
2. Lighting of a permanent nature shall not be included within the development (the Facility), unless required by law. Lighting for safety/security purposes, however, when triggered on by a motion detector, is permissible (since lighting will only be on, on a non-permanent basis, if ever).
3. Fencing around the Facility shall be of a suitable habitat wildlife friendly type, not inclusive of barbed wire nor higher than seven (7) feet, and consist of a 6-inch gap along the bottom to prevent the restriction of wildlife movement.
4. The Facility Owner (Rockford Brook A, LLC and Rockford Brook B, LLC) shall strictly adhere to all the terms and conditions of the signed Agricultural Impact Mitigation Agreements with the Illinois Department of Agriculture, dated (signed on) May 27, 2025 and July 2, 2025 and as may be amended, including, but not limited to, any terms and conditions that are not specifically referenced or set forth in this Ordinance.
5. The Facility Owner shall submit a final vegetative management plan (that consists of, but not limited to, a plan to prevent the spread of invasive species throughout the lifetime of the project), including a final landscape / screening plan (consistent with the guidelines adopted by IDNR for such plans as well as the AIMA), for approval at time of construction

permit submittal -pursuant to Section 17.4 D. 11. of UDO- that consists mostly of a vegetative pollinator-friendly ground cover, where practical (i.e. a wetland type ground cover may instead be better suited for a periodically wet detention basin), that is in substantial conformance with the site plan (noted in stipulation number 1) and is in accordance with (and the goals of) the Pollinator-friendly Solar Site Act. Moreover, the same final plan/s shall include the vegetative screening demarked on said site plan which shall be comprised of 6-foot evergreens or greater, no less than two species, at time of planting, that are spaced in a manner that is intended to provide a full (100%) screening - with an ultimate height that is no less than the height of the solar panel's height at full tilt- at time of tree maturity. And lastly, the natural perimeter screening when located on the Property, shall be maintained (not removed), with the exception of a substantiated necessary utility connection that cannot be routed elsewhere.

6. The Facility Owner shall submit a final road use (route plan/transportation plan/traffic safety plan/use of public roads plan) agreement for approval at time of construction permit submittal -pursuant to Section 17.5.7 of UDO- with the County, and any other applicable unit of government such as the Township and or Illinois Department of Transportation.
7. The Facility Owner shall submit a final drainage plan and or stormwater BMP, as determined by County Engineer, for approval at time of construction permit submittal -pursuant to Sections 17.4 D. 12. and 17.5.13 of UDO- with the County.
8. The Facility Owner shall obtain all required permits and approvals prior to taking any construction action, including, but not limited to a building permit, a zoning clearance/permit, a site access permit, Winnebago County Surface Water Management Ordinance (WC-SWMO) permits / stormwater plan approvals (i.e. with regard to

detention, Stormwater Pollution Prevention Plan (SWPPP), and NPDES Construction General Permit), and the approval of an erosion sediment and control plan.

9. During construction, the Facility Owner shall use their best efforts to limit soil compaction (by reducing trips across the subject area, by working with or on soils when dry, by reducing pressure of the equipment and by maintaining organic matter within the soil) and shall prevent soil contamination from the components that are imbedded within the panels, especially any damaged panels (by storing all solar panels within an enclosed structure and or on and under a tarp). Likewise, in the event there are compacted soils onsite, subject soils shall be de-compacted prior to planting of groundcover plantings.
10. The Facility Owner shall provide the County with a final deconstruction / decommissioning Plan (estimate), for approval prior to final construction (building) inspection -pursuant to Sections 17.4 D.5. and 17.11 of UDO (based on the construction plans ultimately approved at time of construction permitting)- by an Illinois licensed professional engineer, inclusive of financial assurance, in the form of an irrevocable letter of credit or another form of available financial assurance acceptable to the County, to cover the estimated costs of deconstruction of the Facility (see stipulation number 14 proposed by the Facility Owner for additional details with regard to the financial assurance to deconstruct / decommission the Facility). The County shall be the designated beneficiary of the financial surety, and the landowner shall be provided with a copy of the document. In the event of abandonment, the County may take all appropriate actions for deconstruction including drawing upon the financial assurance.
11. Prior to the issuance of building and zoning permits, the Facility Owner shall obtain clearance (consultation be terminated) from the IDNR, Illinois State Historic Office, with

regard to the solar development's (the Facility's) potential effect on cultural (archaeological) resources.

12. The Facility Owner shall maintain and be listed on an insurance policy that includes liability coverage and property coverage in an amount necessary to cover the value of the commercial solar energy facility in the event the project is damaged or destroyed.
13. In addition to the foregoing terms and stipulations within this Ordinance, the Facility Owner/Facility shall comply with all other requirements and standards as set forth in the UDO (i.e. permitting requirements, design and installation requirements, setback requirements, nuisance abatement requirements, and decommissioning requirements, etc.), Statute (i.e. Noxious Weed Act, Solar Site Act, IWPA, RLSA, etc.) and any other applicable Illinois or Federal law (i.e. CWA, any laws administered by the FAA, etc.) or regulation, and any other County and local rules and regulations that are not inconsistent with the Statute.
14. As proposed and agreed to by Facility Owner, on or before the completion of the County's final building inspection (of the commercial solar energy facility on the Property), the Facility Owner shall obtain an irrevocable letter of credit or another form of available financial assurance acceptable to the County, in favor of the County, in an amount equal to 100% -instead of the minimum 10% required upfront as outlined in the Agricultural Impact Mitigation Agreement- of the estimated costs of destruction of the Facility as determined in the final deconstruction / decommission plan.

BE IT FURTHER ORDAINED, that the Ordinance shall be in full force and effect immediately upon its adoption.

BE IT FURTHER ORDAINED, that the Clerk of the County Board is hereby directed to prepare and deliver certified copies of this Ordinance to the County Planning and Zoning Officer, County Building Official and the County Engineer.

Re: Proposed Solar Site at 8616 Spring Creek Road
PIN: 12-11-226-001 and 12-12-101-003

Date: October 10, 2025

A request has been filed with the Winnebago County Community Development Department's Planning & Zoning Division for a Resolution granting site approval of a 10 MW commercial solar energy facility (AKA Solar Farm) on a 140.43 acre site for property located at 8616 Spring Creek Road. This property is bounded by Spring Brook on the north, Lyford Road on the east, Spring Creek Road on the south and Interstate 90 on the west. The property currently has agricultural crops.

State of Illinois Public Act (P.A.) 102-1123, an energy omnibus law, establishes uniform standards for the development and construction of commercial wind and solar energy facilities, limiting County authority to be no more restrictive than the provisions of the Act. The City of Rockford has been very supportive of solar energy projects but they have to be located in suitable locations that do not inhibit the growth of the City. This is a highly visible site along I-90 that is prime for growth and development.

The City's long range 2040 Plan designates the area as T-C-CO, Technology-Retail-Office along I-90 and RM, Medium Density Residential along the border of Lyford Road. A solar farm would not be compatible with the planned future uses. The property is adjacent to the City's municipal boundaries on the north and west. City Water is available as major 20-inch water main runs along the northern boundary of the subject property within the Spring Brook Road right-of-way and the Keith Creek Sewer Trunk line runs directly through this property along Keith Creek. In addition, the City provided \$15 million in new roads to the north of this site in anticipation of more growth for the area. These major capital investments have provided the necessary infrastructure needed to facilitate orderly growth in this area as evidenced by the MercyHealth Hospital Development adjacent to this site.

The City has made great strides in controlling future growth along the east side of I-90 and we continue to hold to the policies of the Comprehensive plan and our Annexation policy. Additionally, the Lyford Road corridor plan would map out the future reconstruction and potential realignment of the road from Spring Brook Road to East State Street. A solar farm in this location could stifle growth and inhibit our ability to facilitate orderly growth of the City. Therefore, we recommend that the Committee forward a recommendation to City Council to file as a legal objector to this zoning request.

A request has been filed with the Winnebago County Regional Planning & Economic Development Department for a Resolution granting site approval of a 10 MW commercial solar energy facility (AKA Solar Farm) on a 140.43 acre site for property located at 8616 Spring Creek Road. This property is bounded by Spring Brook on the north, Lyford Road on the east, Spring Creek Road on the south and Interstate 90 on the west. The property currently has agricultural crops.

State of Illinois Public Act (P.A.) 102-1123, an energy omnibus law, establishes uniform standards for the development and construction of commercial wind and solar energy facilities, limiting County authority to be no more restrictive than the provisions of the Act. The City of Rockford has been very supportive of solar energy projects but they have to be located in suitable locations that do not inhibit the growth of the City.

The City's long range 2040 Plan designates the area as T-C-CO, Technology-Retail-Office. A solar farm would not be compatible with the planned future uses. The property is adjacent to the City's municipal boundaries on the north and west. City Water is available as major 20-inch water main runs along the northern boundary of the subject property and the Keith Creek Sewer Trunk line runs directly through this property along Keith Creek. In addition, the City provided \$15 million in new roads to the north of this site in anticipation of more growth for the area. These major capital investments have provided the necessary infrastructure needed to facilitate orderly growth in this area as evidenced by the MercyHealth Hospital Development adjacent to this site.

The City and County have made great strides in public investment for future growth along the east side of I-90 and the City continues to hold to the policies of the comprehensive plan and our annexation policy. A solar farm in this location could stifle growth and inhibit our ability to facilitate orderly growth of the City.

Thomas P. McNamara
Mayor

CONDITIONS AND CAVEATS

Notwithstanding anything in the renewal or proposal to the contrary, BCBSIL reserves the right to revise or withdraw any term herein or to change our charge for the cost of coverage (premium, fees or other amounts) at any time before or during the contract period if any local, state or federal legislation, regulation, rule or guidance (or amendment or clarification thereto) is enacted or becomes effective/implemented, which would require BCBSIL to pay, submit or forward, on its own behalf or on the Employer Group's behalf, any additional tax, surcharge, fee, or other amount (all of which may be estimated, allocated or pro-rated amounts). BCBSIL also reserves the right to change the administrative fees it charges the Employer Group at any time before or during the contract period to the extent that any local, state or federal legislation, regulation, rule or guidance (or amendments or clarifications thereto) is enacted or becomes effective/implemented which results in increased projected claim costs or an increase to BCBSIL's expenses or cost of plan administration.

Unless otherwise stated, this renewal offer is made on the assumption the benefit program is for a plan that is not considered a "grandfathered health plans" as defined under the Affordable Care Act and related regulations. If you have questions about grandfathered health plans, please consult your legal counsel.

This renewal is being provided for the period indicated above.

This renewal offer expires as of the effective date indicated above.

This renewal offer assumes HCSC will remain the exclusive carrier for Medical and Rx coverage.

Upon inquiry from employer groups, BCBS will provide information to the employer group regarding commissions and other compensation paid to the employer's agent by BCBS in connection with the employer's policy or contract with BCBS.

HCSC reserves the right to adjust the Aggregate Claim Liability if one or more of the following occurs within the coverage period:

- the Account's composition changes (i.e. demographics)
- the Account's number of covered employees increases or decreases by more than 10%
- the Account's benefit program changes

Employers that do not use Prime Therapeutics as their pharmacy benefit manager are NOT eligible for a Rebate Credit under the pharmacy benefit.

The PEPM Medical Rebate Credit is subject to change as HCSC will review the PEPM credit offer for each subsequent renewal.

The Administrative charge includes a network access fee for employees residing in HCSC service areas (IL, MT, OK, NM, TX). Claims incurred outside HCSC service areas through the BlueCard program may be assessed a BlueCard access fee of no more than 3.21% of the discount applied, not to exceed \$2,000 per claim. An estimate of this access fee is included in our projected claim figures.

If the prescription drug program is not administered by Prime today but is awarded the administration of the prescription drug program, the medical claim cost will be reduced due to the integration of the medical and prescription drug program.

We reserve the right to revise or withdraw our offer if, at any time during the projected coverage period:

- ▢ The actual number of enrolled contracts (in total, by product, or by benefit plan), the Single/Family mix, or the Medicare/Non-Medicare mix varies by +/- 10% from our projections.
- ▢ The information upon which our projections were based (benefit levels, census/demographics, commissions, etc.) becomes outdated or inaccurate.

Wellbeing Management (Health Management & Advocacy program) is included in the quoted administration fee.

Commissions are excluded from the quoted rates/fees. Upon inquiry from employer groups, HCSC will provide information to the employer group regarding commissions and other compensation paid to the employer's agent by HCSC in connection with the employer's policy or contract with HCSC.
If a third party pharmacy benefit manager is selected, additional charges will apply.

Projected Net Paid Claims for non-HMO Medical coverages on these exhibits include Estimated Value Based Care Payments and Savings.

Value Based Care payments apply to Stop Loss Coverage.

BCBSIL retains the right to recoup monetary credits provided, any remaining implementation costs, shared savings or PG incentive fees from the plan sponsor in the event of early termination of the proposed coverage or contract, either in its entirety or with respect to certain custom services or programs included in this offer.

If a third party stop loss carrier is selected, a Third-Party Stop Loss Carrier fee will apply.

Over or Under approved amount? N/A	By: \$0
ORG/OBJ/Project Codes: 19501-43167 Descriptor: IT Infrastructure Fund Budget Impact? \$200,606	

Background Information: The Winnebago County Department of Information Technology (WinCo DoIT) is required to provide a secure and reliable information technology infrastructure for public safety, public health, a nursing home, the circuit courts, elections and all other Elected and Appointed officials. WinCo DoIT uses multiple Rubrik backup devices to ensure reliable, ransomware resilient backups to protect the County in order to restore from accidental and intentional data loss scenarios. Keeping in line with current best practices and updated licensing options from Rubrik, the Enterprise licensing for our devices allows DoIT to effectively monitor sensitive data, dynamically contain threats, and orchestrate recovery scenarios. These abilities protect the County from the ever-increasing threats that emerge on a daily basis.

Rubrik is the County's backup solution and licensing is provided only through a Rubrik reseller. CDWG has been the County's reseller since we purchased the original devices. The price quoted comes directly from Rubrik through CDWG, and is on the National IPA Technology Solutions collective agreement, see Resolution Exhibit A.

Recommended By: Chief Information Officer, Dan Magers

Follow-Up Steps: WinCo DoIT will issue Purchase Orders to CDWG in the amount of \$200,606.

Resolution Executive Summary

Prepared By: Purchasing Department on behalf of the WCSO
Committee: Public Safety and Judiciary Committee
Committee Date: October 15, 2025
Board Meeting Date: October 23, 2025
Resolution Title: Resolution Authorizing the County Board Chairman to Amend Contract for Telecommunication Services for Inmates of the Winnebago County Jail

Budget Information

Was item budgeted? N/A	Approximate Appropriation Amount: \$1,200,000 Annually
If not, explain funding source: Revenue generating contract	
ORG/OBJ/Project Code:	Budget Impact: N/A

Background Information: The Winnebago County Sherriff's Office (WCSO) initiated a contract with Global Tel*Link (GTL) (d/b/a ViaPath Technologies) to provide telecommunication services to inmates in the Winnebago County Jail. The contract terms allowed for amendments or adjustments of services, as needed, when the conditions are agreed upon by both the County and GTL.

Telecommunication Services implementation for this program occurred in 2018. Since then, we have continued to renew our existing contract. WCSO and Purchasing is currently reviewing RFP 25P-2416, due to this contract expiring in March of 2026. We will be looking to bring a new long-term agreement forward in the next several months for consideration.

In front of your today, is an additional amendment to the original contract (See Resolution Exhibit A). Effective June 30, 2025, ViaPath must make certain changes mandated by the Federal Communications Commission ("FCC") with the latest guidance allowing for commissions.

Prior to this new guidance, the commission payable to the Premises Provider under this agreement was \$0.07 per minute (previously 0.17). With the latest guidance the rate will go to \$0.21 per minute (previously 0.07). Which now brings us back to a minimum annual guarantee scenario of \$100,000 per month.

This service is also fully integrated into our commissary contractor to provide kiosk support for purchasing supplemental materials. GTL also provides on-site technology support.

Recommendation: Superintendent Ogden recommends approval of GTL's Amendment 7.

Contract/Agreement: Amendment 7 to the **GTL Master Services Agreement** has been reviewed by the SAO and all recommendations were incorporated.

Follow-Up: WCSO and the Purchasing Department previously routed GTL Amendment 7 for signatures in order to execute the revenue generating contract to take advantage of seeking necessary revenues up front due to FCC guidance updates.

PAIP SCOPE OF WORK

I. SERVICE, PROGRAM, or PROJECT OVERVIEW

a. Provide summary of proposed service, program, project to be supported or delivered by requested funds. Include eligibility requirements, demographics served, and how it will lead to a reduction in violent crime.

Remedies Renewing Lives (Remedies) partner abuse intervention program (PAIP) services are specific to serving men who use violence or abuse against their female intimate partner. Remedies PAIP services adhere to Partner Abuse Intervention Program requirements in Illinois Administrative Code 89, Section 501 (also referred to as the Protocol). This includes facilitating weekly groups that are co-facilitated by trained staff. Participants under this project are ordered by the 17th Judicial Circuit Court as part of their sentencing, usually for domestic violence related crimes. Program participants must attend at least 26 weeks of group programming and actively participate and acknowledge their abusive behavior against their intimate partner. Remedies PAIP services are grounded in the concepts of the Duluth Model which emphasize that intimate partner violence is a pattern of coercive control and a belief of entitlement by the person who uses violence, offers change opportunities through educational groups for those who are justice-involved and/or seeking change on their own, and supports a community-wide response to increasing victim/survivor safety (www.theduluthmodel.org/). Remedies utilizes a curriculum known as the Change Curriculum for Men (Change), which was developed by Cognition Works, a multi-service organization located in Urbana, Illinois. While the Change Curriculum does not directly follow the Duluth model, the model served as a resource in developing the curriculum. The Change Curriculum is specifically designed to focus on “prevention, intervention and change of irresponsible behavior” with persons who use violence against their intimate partner (Cognition Works, Change Curriculum for Men, Introduction, p. 1). The curriculum utilizes the process of opposition and solutions during group format by facilitators that includes role playing and homework.

While the Change Curriculum has many more components than what can be provided in this application, the most important point is how Remedies staff connect the curriculum in Remedies’ quest to improve safety in the lives of victims/survivors, thereby helping to reduce crimes related to domestic violence in the community. The Change curriculum speaks to these needs by demonstrating that patterns of abusive behavior are on a continuum which can increase in severity or impact over time. It allows co-facilitators to address power and control tactics by people who use violence that address all the pieces of the Power and Control Wheel, which is so often identified by the victims/survivors Remedies serves. For example, when thinking about the Maladaptive Thinking Pattern (MTP) of Control Through Power, co-facilitators can address circumstances in which the offender may use coercion and threats like making or carrying out threats to control their partner, using intimidation through looks or gestures and/or controlling what the survivor does or whom they seek or talk to. Likewise, the MTP of Specialness speaks to the entitlement piece by people who use violence. Treating the survivor like a servant, making all the big decisions, not allowing the survivor to work, or giving the survivor an allowance are all examples of male privilege and/or economic abuse, and a maladaptive thinking pattern. Using the Choice curriculum over the span of 26 weeks offers many opportunities for PAIP staff to address the change process, accountability, past patterns, irresponsible excitement, expectations, and moral and legal consequences of intimate partner violence, while teaching tools that individuals can use to change their behavior.

With the 1% Safety Tax funding, Remedies Renewing Lives employs one (1) 0.91 FTE PAIP Coordinator and two (2) Co-Facilitators at 0.01 FTE and 0.055 FTE. The PAIP Coordinator completes an intake and assessment of need with each offender referred by the courts, co-facilitates three (3) weekly groups at the Resource Intervention Center (RIC) along with another funded PAIP staff, meets individually with each offender at the 10-to-12-week group-mark to complete a mid-point evaluation, and completes a final interview with each offender prior to

the formal conclusion of PAIP services. The funding from the 1% Safety Tax also supports a PAIP Manager (0.24 FTE), to provide supervision and to co-facilitate groups when needed.

PAIP groups are co-facilitated at the Winnebago County Adult Probation Building on the following schedule:

Tuesdays from 9AM to 11:00 AM

Thursdays from 1:30 PM to 3:30 PM

Fridays from 2:00 PM to 4:00 PM.

PAIP intakes and assessments completed by the PAIP Coordinator are conducted during business hours with information uploaded into Full Court Enterprise (FCE) accordingly. The PAIP Coordinator and PAIP Manager maintain on-going contact with staff from Winnebago County Adult Probation Department and the Department of Court Services, regarding service updates and compliance updates for individuals the courts have referred to these services.

b. Describe current and projected project/program partnerships.

Remedies Renewing Lives (Remedies) has a long history of working in partnerships. Remedies PAIP staff meet bi-monthly with the 17th Judicial Circuit Court of Winnebago County, Illinois, Winnebago County Adult Probation Department Domestic Violence Unit, and other PAIP providers to ensure all agencies are adhering to court and Protocol standards. Remedies PAIP staff meets separately with representatives from Winnebago County Department of Court Services and Adult Probation Department Domestic Violence Unit, on a monthly basis, to discuss specific needs and strategies related to PAIP services provided at the Winnebago County Adult Probation Building, to ensure Remedies staff are providing the highest level of services.

II. PROGRAM PROCESSES

a. Describe referral, intake and assessment process; include description of evidence-based practices used.

Winnebago County Courts refer individuals to Remedies Renewing Lives (Remedies) Partner Abuse Intervention Program (PAIP) services and maintain a wait list as needed, as well as an assessment schedule. Remedies PAIP Coordinator meets with the designated probationers at the set assessment appointment times each week, to conduct PAIP screening/assessment appointments. These assessments are held in-person, on-site at the Resource Intervention Center (RIC), in the PAIP Coordinator's office. As part of the overall assessment, a Remedies PAIP intake is conducted. The intake form includes contact information, demographics, employment, income or benefits; highest education level, military status or experience; current marital status, current intimate relationship status, and if the intimate partner is aware of the order to PAIP; contact information for the victim of intimate partner violence, status of relationship with the victim, whether or not the parties were living together at the time of arrest or conviction; specifics of the probation order regarding contact with the victim; order of protection history; arrest and conviction history for domestic violence related crimes and non-domestic violence related crimes; number of times the offender has used violence without any law enforcement contact; information specific to children between the offender and victim and if the offender has children with other intimate partners; substance use and alcohol use history including if it was a component to the conviction or previous acts of violence; history of threats of death by suicide, access to weapons, history of counseling including any mental health concerns or prescription use; previous use of PAIP services at Remedies or another provider; current and historical child welfare involvement; and use of violence against animals or pets. It is not very often that an offender is not screened in for PAIP services. Exceptions may be if the offender is not or has not been in an intimate partner relationship with their victim or if the offender has been identified as the victim of domestic violence in that relationship. In very rare cases where an individual is identified in a PAIP assessment as the victim of intimate partner violence, the PAIP Coordinator refers the victim to our agency's survivor services. It should be noted that our domestic violence victim services never deny someone solely based on gender, sexual orientation, race, national origin, familial status, disability, legal status, number of children, age, or religion.

In addition to completing the intake form, the PAIP Coordinator completes the Ontario Domestic Assault Risk Assessment (ODARA). Remedies PAIP staff must complete ODARA training and certification before administering the tool with any individuals. Although not intended to measure an individual victim's safety, the ODARA can assist in identifying the offender's risks of future violence against an intimate partner, risk of re-arrest and likelihood of re-appearing in court. To complete the ODARA, the PAIP Coordinator gathers information from the offender during the intake process, as well as from the offender's identified probation officer, and information that has been uploaded into Winnebago County's court record database known as Full

Court Enterprise (FCE). Depending upon time of inquiry, the PAIP Coordinator can locate the offender's criminal history along with the most recent arresting documents, and sometimes the victim's statement to law enforcement. Upon gathering as much information as possible, the PAIP Coordinator scores the ODARA responses and uploads the document into FCE. The score then helps guide the probation officer and the PAIP Coordinator in determining future risk of harm by the offender to their intimate partner relationships and likelihood of appearing in court.

Besides completing the intake and ODARA, the PAIP Coordinator addresses confidentiality with the offender. The obligation by providers to protect confidential information of PAIP participants is included in Illinois Administrative Code for Mental Health and Mental Health and Developmental Disabilities Confidentiality Act (740 ILCS 110/1). As part of the Illinois Protocol for Partner Abuse Intervention Program services, at the time of program initiation, PAIP participants complete a written release of information to: relative criminal justice and court authorities; victims/survivors of abuse; any persons or agencies that would need to receive reports of compliance, threats of abuse by the offender, and/or screening information; and/or any agencies that may plan to assist with intervention for non-compliance or threats of violence by the offender or collaborate on an ongoing basis on an intervention plan. As a result, the PAIP Coordinator completes a release of information specific to the 17th Judicial Circuit Court of Winnebago County, Illinois, and Winnebago County Adult Probation along with a release of information that allows the PAIP Coordinator to contact the victim(s) specific to the arrest-related referral and current intimate partner of the offender.

Lastly, the PAIP Coordinator reviews Remedies Contract for Participation in services. In turn, the offender is informed of the expectations for services which include weekly attendance and attendance of at least 26 groups for program completion; meeting individually with the PAIP Coordinator after attendance of 10-12 groups and upon an opening to PAIP services; understanding that all attendance or non-attendance will be recorded and reported to the offender's probation officer and court; expectation to remain alcohol and/or substance-free during services, and understanding that if it is suspected of being under the influence of any substance the offender will be asked to leave the group receiving no credit; obtain a chemical dependency evaluation if referred by the PAIP Coordinator; understanding that if late to group the offender will not be allowed to participate and will be marked as absent; only 3 absences are allowed and at the fourth (4th) missed group the participant will be referred back to their probation officer; requirement to abstain from violence; agreement to cooperate with program expectations and norms; and that at its core, the PAIP program is about taking accountability for the violence perpetrated against an intimate partner.

Continued on next page.

b. Describe treatment, counseling, and case management. Be specific.

As required by the Illinois Protocol for Partner Abuse Intervention Programs, core components of PAIP programming include that programs ensure the safety and rights of adult and child victims of domestic violence, work to reduce domestic violence through effective intervention, ensure that people who use violence against their intimate partner are held accountable and responsible for their behavior and ensure persons who use violence against their intimate partner receive services that are effective. As a result, Remedies Renewing Lives (Remedies) utilizes a curriculum known as the Change Curriculum for Men (Change), which was developed by Cognition Works, a multi-service organization located in Urbana, Illinois. As required by the Protocol, the Change Curriculum is State of Illinois approved to be used for the purposes of providing partner abuse intervention program services by IDHS. The Change Curriculum is specifically designed to confront the dynamics of intimate partner violence. It focuses on “prevention, intervention and change of irresponsible behavior” with persons who use violence against their intimate partner (Cognition Works, Change Curriculum for Men, Introduction, p. 1). The curriculum utilizes the process of opposition and solutions during group format by facilitators that includes role playing and homework. Examination of participants’ Maladaptive Thinking Patterns (MTPs) is a core component of the curriculum. This falls in line with Remedies’ philosophy that domestic violence is connected to a belief system centered around entitlement, based on a view that in domestic violence situations, one partner believes they have the right to gain and maintain power over their partner. The MTPs that are routinely referenced within the 26-week group curriculum are Victim Script in which the person who uses violence consistently blames others for their circumstance; Unrealistic Self-Image in which the person who uses violence views themselves as responsible despite actions; Closed Thinking in which the person who uses violence is unwilling to listen to share information or to be self-critical, goes on assumptions and lies by omission as opposed to outright; Sense of Entitlement that extends to persons, places and things and often includes intense jealousy; Compartmentalized Thinking where what happens before does not count or does not impact the future with little sense that behavior has consequences; Inappropriate Expectations about life that lead to boredom, unwillingness to appreciate daily effort and/or has unreasonable fears; Control Through Power in which the person who uses violence expects to be able to control situations and other individuals, uses manipulation and intimidation to achieve their goals including using sex for power and control rather than intimacy; and Specialness in which the person has a sense of being superior or unique where they are living in a natural state and whatever rules may exist are for others.

In addition to the Maladaptive Thinking Patterns, the Change Curriculum addresses Tactics to Avoid Being Held Accountable. The different tactics include putting others on the defense such as when they attack competency, bring up irrelevant issues, minimize the situation and pick at details; control information like agreeing with no intention of following through, being intentionally vague, saying whatever will satisfy the moment or using silence; and controlling interactions such as listening selectively and hearing only what is self-serving, insisting they forgot and/or focusing on being mis-understood. The curriculum teaches several tools and skills, including the use of Questions that Lead to Responsible Choices, which teach program participants how to change their thoughts and belief systems to counter the Tactics to Avoid Being Held Accountable that they have been using.

The Change Curriculum also has a heavy emphasis on choice language. The Change Curriculum values keeping responsibility on the irresponsible person, cutting through the denial system, and recognizing the power over their own lives to change. The curriculum incorporates cognitive behavioral therapy approaches and focuses on cognitive restructuring. PAIP co-facilitators model choice language during group by using phrases such as “you may choose to” or “your choices are”, etc.

The Change Curriculum is separated into 26 sessions, one for each week. During each group session, attendees share and discuss their homework from the previous session, receive education from co-facilitators for the new session, and participate in role plays, activities, and group discussion to apply the curriculum information to themselves. Although this is a group-based service, individuals are encouraged to reach out to the PAIP Manager or PAIP Coordinator if they have questions about the assigned homework or need additional support or assistance. Whenever concerns arise related to possible mental health or substance use issues, especially those that might interfere with the participant's ability to utilize PAIP services or those that significantly jeopardize the person's well-being or safety, PAIP staff make referrals for mental health and/or substance abuse assessments, and they notify the individual's probation officer. Additionally, Remedies PAIP staff maintain frequent communication with probation officers to relay information about compliance and to partner on intervention plans.

c. Describe staff roles; include education, training, and licensure requirements.

Remedies Renewing Lives (Remedies) PAIP program at the RIC is led by a Coordinator who is supervised by the PAIP Manager. All PAIP staff, including the PAIP Manager and Coordinator, have received the 40-hour domestic violence training described within the Illinois Domestic Violence Act and the required 20-hour partner abuse intervention training, required in the Protocol. SUD SCOPE OF WORK

I. SERVICE, PROGRAM, or PROJECT OVERVIEW

a. Provide summary of proposed service, program, project to be supported or delivered by requested funds. Include eligibility requirements, demographics served, and how it will lead to a reduction in violent crime.

As a state of Illinois licensed outpatient substance use disorder treatment provider, Remedies Renewing Lives (Remedies) offers comprehensive services that include individual and group counseling, case management, community intervention, and recovery support. All substance use disorder services provided at the RIC are with persons who are justice-involved and referred by the 17th Judicial Circuit Court of Winnebago County, Illinois. Funded by the 1% Safety Tax, Remedies employs two (2) FTE substance use disorder counselors who are located at the RIC. In general, outpatient services consist of one (1) to three (3) sessions per week for three (3) hours each for up to six (6) months or as clinically justified utilizing the current edition of the American Society of Addiction (ASAM) Patient Placement Criteria. The ASAM Patient Criteria, which will be addressed again later, has six (6) core components which include addressing a patient's history of using substances and their experiences with withdrawal; the patient's medical history and current physical health; a patient's current mental well-being and health; where a patient is at in terms of stopping substance use; a patient's history of on-going use and/or relapse and the consequences thereof; and the patient's current living situation and any challenges that relate to that setting and/or their recovery. It is not uncommon for persons who use or mis-use substances to have their own history of trauma stemming from child abuse, domestic violence, community violence and at times our community's historic response to those issues. Although not an excuse for harm to others, substance use is often a coping mechanism and the stigma surrounding it often compounds the difficulty in obtaining and maintaining recovery. Moreover, when a person living with a substance use disorder is not provided options, there is risk for overdose or long-term consequences for not only them but their children like incarceration and/or child-welfare involvement.

To that end, Remedies utilizes the ASAM Patient Placement Criteria to address the association between substance use and crime. As indicated in the latest available edition of the 2021 Illinois State Police Crime in Illinois Annual Uniform Crime Report, Winnebago County, Illinois had 378 drug-related arrests in 2021 with 78 drug-related arrests in 2020 (p. 717). While only a snapshot into the dynamics of substance use and its impact upon our local community, the criminal justice system is an opportunity for intervention as justice involvement can be an indicator of increased risk of safety for those that use, their families and the community at-large. For instance, the National Institute on Drug Abuse (NIDA) has developed principles for treatment of justice-involved populations. The NIDA principles acknowledge that recovery of substance use requires effective treatment with continued care, treatment focusing on factors that are associated with criminal behavior and treatment for as long as needed to help establish behavioral change (JAMA, 2009, January 14; 301(2)). Therefore, intervention opportunities that occur during the stages of the criminal justice process should not be ignored. Opportunities for intervention include screening or referring for substance use disorder services at the time of arrest; utilizing diversion programs, drug court and/or community-based treatment as part of the prosecution process; during the sentencing phase with terms of incarceration or release conditions based on treatment; part of the jail or probation process through screening and substance use disorder treatment; and in the course of community re-entry either through probation or release (JAMA, 2009, January 14; 301(2)).

In terms of demographics, during the last completed contract term, 10/1/2023-09/30/2024, patients/clients served by Remedies Renewing Lives identified as the following:

Black or African American: 114

Caucasian or White: 56

Hispanic: 66

Asian: 0
Males: 186
Females: 50

Number of assessments completed during the same time frame: 126

b. Describe current and projected project/program partnerships.

Remedies Renewing Lives (Remedies) has a long history of working in tandem with our local criminal justice system. Remedies routinely communicates with the 17th Judicial Circuit Court and the Winnebago County Resource Intervention Center to address needs and strategies to ensure Remedies is delivering the highest level of services. Remedies staff collaborate with area medical, social service, and faith community providers as part of the on-going case management and community intervention services provided for patients/clients receiving substance use disorder services through the RIC.

II. PROGRAM PROCESSES

a. Describe referral, intake and assessment process; include description of evidence-based practices used.

As indicated earlier all referrals to substance use disorder services to the Resource Intervention Center (RIC) are made through the 17th Judicial Circuit Court. Remedies Renewing Lives (Remedies) employs two (2) full-time substance use disorder treatment counselors co-located at the RIC and are available during the hours of RIC operation. Substance use disorder staff complete a thorough intake with each individual that addresses each component of the ASAM Patient Placement Criteria. Remedies utilizes the evidence-based Matrix Model of Outpatient Alcohol and Drug Program (Matrix Model) by Obert, et al, and published by Hazelden, which concentrates on six (6) crucial areas: individual support, early recovery, relapse prevention, family education, social support and urine testing. The Matrix Model incorporates cognitive behavioral therapy, motivational enhancement, 12-step facilitation and group support and is a federally recognized model by the Center for Substance Abuse Treatment, National Institute on Drug Abuse, Office of National Drug Control Policy and is currently being reviewed by the National Registry of Effective Programs and Practices. As noted earlier, Remedies is Behavioral Healthcare Accredited by The Joint Commission, who also supports our use of the Matrix Model.

b. Describe treatment, counseling, and case management. Be specific.

The substance use disorder treatment, counseling and case management provided by Remedies Renewing Lives (Remedies) is delivered by collaborative approach that addresses not only substance use but mental health, medical treatment and connection to social service programs as needed. The ASAM Patient Placement Criteria is designed to be all-inclusive in that it guides staff to work collaboratively with the patient/client throughout the treatment process, assists in determining goals, and supports efforts to identify intensity of treatment along with frequency of need. As services are individualized, case management is based on treatment plans and assessed needs. Examples include assistance with health, transportation, childcare, medical benefits, along with educational, dental and vocational challenges. Community intervention includes a focus on situational crisis in addition to engagement or re-engagement with community resources (e.g. churches and schools). As all participants at the RIC are justice-involved, there is a strong emphasis during service delivery on reducing recidivism to not only protect the community at large but increase the well-being and safety of the individual patient/client and their family. Lastly, although substance use is not the cause of violence against an intimate partner, it does increase the danger for those being abused and has the potential of increasing the lethality risk of violence. Therefore, cross referrals between Remedies' substance use disorder and partner abuse intervention programming staff at the RIC are not uncommon and are encouraged by the agency.

Each counselor will facilitate substance use disorder treatment groups three (3) days a week, twice daily for three (3) hours each. Remedies will select which days to provide the groups. Remedies staff offices are located on site at Adult Probation as 2 counselors assigned to this location maintain duties at Adult Probation site only. Groups will take place 8:45 AM – 11:45 AM and 1:15 PM – 4:15 PM.

c. Describe staff roles; include education, training, and licensure requirements.

Remedies Renewing Lives (Remedies) substance use disorder programming at the RIC is overseen by the Remedies Chief Operating Officer (COO), Laurie Graciana, who is experienced in substance use disorder treatment. Ms. Graciana holds a master's degree in human services, bachelor's degree in criminal justice, and is a Certified Alcohol and Drug Counselor/Co-Occurring Substance Use and Mental Health Disorder Professional (CADC/CODP). While the program is overseen by the COO, the RIC Addictions Counselor, Rebecca Fair, is overseen by our RIC Treatment Manager, Angela Peterson. In the absence of a RIC Treatment Manager, the RIC Addictions Counselor would report directly to the COO. Training of substance use disorder staff is on-going and has included topics related to underserved populations, recovery support, mental health needs, and other clinical competencies.

Position Requirements are as follows:

Addictions Counselors

EDUCATION AND CERTIFICATION:

- Must either hold a bachelor's degree and working toward a Certified Alcohol and Drug Counselor (CADC) certification or have a CADC certification and working toward a bachelor's degree.

EXPERIENCE:

- One-year full-time experience providing substance abuse treatment.

In addition, an Addiction Counselor's placement at the RIC is subject to passing a background clearance conducted by COURT.

d. Describe program oversight and accountability.

To assist with program oversight and accountability, Remedies Renewing Lives (Remedies) substance use disorder staff meet monthly with Winnebago County Resource Intervention Center staff of the RIC to help address emerging needs and patient/client support. The Chief Operating Officer, Laurie Graciana, has weekly and/or often daily contact with substance use disorder treatment staff, and visits the RIC on a monthly basis to conduct chart reviews to ensure patients'/clients' needs are being met. Groups are open for review by Resource Intervention Center Management (Karen Mohr, RIC Supervisor or Jodi Gerue) to ensure RIC standards, policies and procedures are adhered to and to ensure fidelity of curriculum facilitation. Remedies substance abuse staff meet monthly with RIC staff for provider updates.

II. SERVICE, PROGRAM, or PROJECT OVERVIEW

a. Provide summary of proposed service, program, project to be supported or delivered by requested funds. Include eligibility requirements, demographics served, and how it will lead to a reduction in violent crime.

Rosecrance proposes a continuation of the funding from the Winnebago County 1% safety tax fund for a ½ time substance use disorder assessor to provide assessment and treatment recommendations for those housed in the Winnebago County jail. The continuation of this funding will allow Rosecrance to complete a multi-dimensional assessment tool and treatment recommendations on inmates who are court ordered for a substance use disorder assessment as well as those who need to be assessed upon advice of their probation officer, attorney or are self-referred. All diagnoses and treatment recommendations will be made in accordance with the criteria and standards set forth by the DSM5 and the American Society of Addiction Medicine (ASAM) patient placement criteria. Once assessed, treatment recommendations are provided to the court or to whomever referred them and are case managed upon their release to assist them in beginning treatment with Rosecrance or other recommended service providers.

The benefit of this program is the ability to connect with those incarcerated individuals at a point where they are vulnerable and are most motivated for change in their lives. By initiating treatment services while they are incarcerated, we are able to more easily engage them at a time where they are most receptive to the idea of a recovery lifestyle. Upon release from jail the clients are already enrolled in Rosecrance services and can seamlessly transition to our wide spectrum community-based services with no delay.

b. Describe current and projected project/program partnerships.
--

This program has worked closely with the Winnebago County Specialty Courts as well as the Winnebago County probation and pretrial, The States attorneys and public defender's office to help their client's gain strong footing in a recovery lifestyle prior to their return to the community.

III. PROGRAM PROCESSES

a. Describe referral, intake and assessment process; include description of evidence-based practices used.

Referrals are made to the program through court orders from the 17th judicial circuit, from Winnebago probation officers, attorneys, Freedom Group, and through detainees submitting a request ticket to the jail. Once the referral is received a 1/2-time assessor, funded through the 1% contract, goes into the jail, and complete a multidisciplinary substance use disorder assessment according to requirements of Illinois SUPR 2060 licensure requirements, DSM5 and the American Society of Addiction Medicine (ASAM) patient placement criteria. We also complete a Rosecrance Suicide Risk assessment, using the Columbia Suicide Severity Rating Scale, at the time of assessment. The diagnosis and recommendations are subsequently reviewed by our medical director for appropriateness and approval, and shared with the courts or other referral sources, and are ready to begin treatment with us upon their return to the community.

b. Describe treatment, counseling, and case management. Be specific.

This program will work with the inmate prior to treatment to assess, diagnose and make treatment recommendations for when they are released. This position will provide case management services that include placement on the residential treatment waiting list if needed, obtaining collateral information to assist in making the appropriate diagnosis, resolution of biomedical obstacles, and connecting with other behavioral health needs.

We are able work with the courts to furlough inmates to come to Rosecrance and start an appropriate medication prior to their release from jail where they are at most risk of overdose.

c. Describe staff roles; include education, training, and licensure requirements.

These assessments are completed at the request of court order, probation, or attorney referral or through inmate self-referral.
